LIEUTENANT BECKER ASKS JUSTICE GOFF TO GRANT NEW TRIAL

Convicted New York Police Official Seeks Retrial on Murder Charge Through Four Grounds

UNDER DEATH SENTENCE FOR KILLING ROSENTHAL

Statement of Sam Schepps on His Return to New York Is Likely to Play Part if Trial Is Granted

(By Associated Press.)

NEW YORK, June 5.—A new trial for Charles Becker, the police lieutenant convicted of the murder of Herman Rosenthal and now in the death house at Sing Sing, was sought in the supreme court late yesterday, on four grounds, namely:

First, that new evidence had been discovered; second, that the verdict of conviction was contrary to law and against the weight of the testimony; third, that Sam H. Haas, a juror, was separated from the other jurymen on two occasions when he visited a dentist's office. fourth, that a new trial should be granted in the interests of justice.

The action was made before Justice Goff, who presided at Becker's trial. Joseph A. Shay, Becker's lawyer, submitted twenty-four affidavits, most of which have already been made public, of newspaper reporters and others who talked with Sam Schepps when he returned to New York from Cuba.

These affidavits are in support of the contention that Schepps was an accomplice of Jack Rose in the murder and that therefore his testimony should have been considered as such.

Frank A. Moss, the assistant district attorney, who conducted the prosecution, opposed the action, on which the court did not rule.

Police Blamed for Vice By Aldermanic Committee

(By Associated Press.)

NEW YORK, June 5.—Gambling and the social evil have been allowed to exist in this city because of ineffective efforts by the police to eradicate them, it was charged Wednesday in a report to the board of aldermen by the special aldermanic committee that investigated the police department after former Lieutenant Charles Becker's hired gunmen murdered Herman Rosenthal, the gambler, last July. A previous report recommended to Mayor Gaynor the removal of Police Commissioner Waldo.

The mayor and his commissioners have endeavored to enforce the laws against gambling, but their efforts were ineffective, it is charged, while it has been the policy of the two officials to enforce laws against the social evil, "only where outward conditions were disorderly or upon persistent complaint."

Aeroplane Chases Mexic Battleship Far Out to Sea

SAN FRANCISCO, June 5.—Officers of the United States naval collier Saturn, which arrived yesterday from Guaymas, reported that Didier Masson and his bi-plane had proved a source of anxiety to the Mexican federals.

The day the Saturn sailed from the southern port the Mexican warship Morelos made a hasty departure to sea, the reason being that she was fleeing from the bi-plane and the French aviator employed by the rebels.

PAINTER LEFT ESTATE WORTH NEARLY $1,000,000

Fertilizer King Left Big Sum, Exclusive of Big Insurance Policies

(By Associated Press.)

JACKSONVILLE, Fla., June 5.—E. O. Painter, the millionaire fertilizer king, who was drowned in the St. Johns river two weeks ago today, carrying insurance policies of $1,178,000, left a will which indicates that his estate, exclusive of the insurance, will aggregate close upon a million. The document is to be filed this afternoon.

The widow and her legal adviser called at the probate judge's office shortly after 1 o'clock this afternoon and ascertained how to proceed, saying the will would be filed before closing hours. From one of the witnesses to the will it was learned that the Painter estate was worth nearly a million.

FREE MAIL DELIVERY OBTAINED IN DECATUR

Congressman Howard and Senator Smith Informed of Department's Plans

BY RALPH SMITH.

WASHINGTON, D. C., June 5.—Senator Hoke Smith was officially informed today that the postoffice department has decided to inaugurate a free mail delivery system in the city of Decatur, Atlanta's growing suburb.

The senator and congressman Howard have been co-operating in this movement for some time.

GRAND JURY PROBE OF VICE CONDITIONS FINISHED THURSDAY

Jury Adjourned Until Next Tuesday Without Drawing Any Bills—Inquiry Not Likely to Be Resumed, It Is Said

LANFORD TELLS JURY OF COL. FELDER'S ENMITY

Declares It Dates Back to Case He Made Against Charlie Jones and Was Accentuated by Dictograph Episode

The most interesting testimony given to the Fulton county grand jury Thursday was that of Detective Chief N. A. Lanford, who a few minutes before he was called to the stand had engaged in a near-fight with Colonel Thomas B. Felder.

Chief Lanford is himself authority for what transpired in the grand jury room, where he remained in the neighborhood of a half hour.

"I was questioned principally about vice conditions," he said, "although a number of questions were asked me concerning the dictographing of Felder and others."

"Some of the grand jurymen inquired why Felder seemed so bitter toward me. I told them that as far as I knew his feeling toward me dated back several years ago when I made a case against Charlie C. Jones for operating a disorderly house on Jenkins street. Felder was Jones' attorney in that case.

"I also expressed the opinion that his bitterness had perhaps increased since I made public the dictograph records and certain affidavits showing that he was not duly employed in the Phagan case, and that he was no doubt further embittered by reason of the fact that these publications put a stop to his collection of public subscriptions with which to employ Burns detectives.

QUOTES CHARLIE JONES.

"I was asked if vice conditions in Atlanta were better or worse since the segregated district had been wiped out, and I replied that in my opinion conditions were much better. I declared that if the utterances of Charlie C. Jones were to be credited there had been a great improvement, for immediately after the closing up of the district he had published an interview in which he charged that more than 185 places were being operated in the residence sections of the city. I contrasted this statement with the more recent charges of Hutcheson and Felder which were to the effect that only about thirty places were now in operation.

"I informed the grand jury that both the police and detective departments were doing everything possible to enforce the law and keep down vice, and that it was not a matter of surprise that now and then surreptitious houses would be discovered.

DICTOGRAPH EPISODE.

"Referring to the dictographed conversations the grand jurymen asked me how long I had known A. S. Colyar. I replied that I had first become acquainted with him a few days before the dictograph episode, when he came to me and informed me that Felder was seeking to obtain affidavits from the department which he (Felder) declared were framed up by me and others.

"It was then, I told the grand jury, that the plan to trap Felder was devised. In accordance with this plan I instructed Colyar and G. C. Febuary, my secretary, to open up negotiations with Felder. After these negotiations had proceeded for a few days and Colyar and Febuary had made affidavits to the effect that Felder had offered to pay them a large sum of money for the affidavits and other papers in the Phagan case I arranged through Colyar and Febuary to install the dictograph.

"I explained to the grand jury that I was never present at any of the negotiations and that I had never been to the room in Williams House No. 2, where the dictograph was installed. I also informed the grand jury that the first I had ever seen of the affidavits and dictograph records was when they were presented to me duly sworn to and attested by notaries public.

NO BILLS DRAWN.

At 1:50 o'clock the grand jury adjourned. Solicitor Dorsey stated that no bills of any sort had been drawn.

Foreman L. H. Beck stated that no further meeting of the grand jury will be held until next Tuesday, when it will convene again to take up an accumulation of routine matters in the solicitor's office, he said. Probably it will be busy with those for two days.

The investigation that had been in progress Thursday and previously, said he, was concluded—unless some member of the grand jury sought its reopening or continuance. The grand jury, said he, merely was following the charge given by Judge Ellis, to investigate vice conditions.

The grand jury took up no matter, said he, except the vice probe.

When Chief Lanford emerged from the grand jury room Colonel Felder was sitting in the ante room. The de-

LANFORD AND FELDER COME NEAR FIGHTING

Deputies Step Between Belligerents Before a Blow Is Struck by Either

A physical encounter between Chief of Detectives Newport A. Lanford and *Colonel Thomas B. Felder, attorney*, was averted narrowly by the interference of bystanders in the grand jury ante-room at the court house Thursday morning at 10:30 o'clock.

Colonel Felder was sitting in the ante-room, awaiting the grand jury's pleasure, talking with others there.

He declared that he had received an anonymous letter warning him that he was going to be assaulted Thursday morning. During the morning, said he, a telephone message had confirmed the letter. He jokingly besought Deputy Sheriff Plennie Minor to stand by him if anything happened.

At that juncture Chief of Detectives Lanford stepped through the door into the room, having arrived just at that moment from police headquarters.

"Good morning," said he generally.

"You didn't speak to me," said Colonel Felder, as Chief Lanford was taking a chair.

"Walk over here and I'll speak to you," said Lanford.

"You come to me. I'm sitting down," said Mr. Felder.

Chief Lanford walked over to the lawyer. "Get up," said the chief, "I want you to be standing up."

Colonel Felder got up, but immediately several outsiders were between them. "Turn him loose!" shouted Colonel Felder, while the chief struggled to get at him. "Turn him loose!"

The bystanders bundled Colonel Felder out of the room and locked the door, with Chief Lanford and others remaining inside.

"I've stood all I can from that man," declared the detective chief, in the locked room, to friends. "I just can't stand any more!"

"That's the man I was warned was going to assault me," said Colonel Felder, to friends, outside, at about the same moment. "He came in to do it then, but he didn't have the nerve. He's a coward!"

A few moments later, twenty minutes after the grand jury convened shortly before 11 o'clock, Chief Lanford was called into the grand jury room, being the first witness of the morning's session.

He passed Colonel Felder as he went toward the jury door. Both glared. Neither spoke.

HOKE SMITH TESTIFIES BEFORE LOBBY PROBE

Georgian Defines His Idea of What Constitutes Improper Lobbying

BY RALPH SMITH.

WASHINGTON, D. C., June 5.—Fresh from an interview with President Wilson, whom he congratulated upon calling attention to the tariff lobby in Washington, Senator Hoke Smith testified for an hour before the Overman committee, investiagting the insidious lobby. He said that he knew nothing of his own knowledge about the existence of an organized lobby at work to defeat the tariff bill or other legislation, but that he had heard "just generally that there are rooms here filled with men engaged in lobbying."

"The rumor has just been floating around, but I can give the committee no definite information, nor can I furnish any clue that will lead to their exposure."

Asked specifically about the alleged sugar lobby, Senator Smith said that his mail had been loaded down with printed pamphlets and documents, bearing on the tariff, but that he had read none of it and had destroyed it as "rubbish."

Of course he preserved and read the briefs submitted. He was certain that the circulation of this literature cost money, but he could not say whether the most of it related to the sugar schedule.

The senator declared that it was difficult to accurately define a lobby or a lobbyist. He said he could see no impropriety in an attorney or a person whose interests are directly affected in appearing before a committee and submitting an argument in support of his contention or the contention of his client.

"That is the right of any citizen, I think," Mr. Smith.

IMPROPER LOBBYING.

"But, when a body of persons, whether interested directly or paid as attorneys or agents, under the guise of patriotic purpose, attempt to influence legislation, I consider that highly improper. I would like to see legislators occupy the same relation toward interests about which they legislate as courts occupy toward attorneys and their clients.

"I have taken but one fee in my life to appear before a legislative committee in the interest of pending legislation. In that instance I wrote a letter to the chairman of the committee, informing him of my employment, and asking for a hearing. I appeared, made my argument and left without ever having mentioned this subject to an individual.

"One of the most objectionable means of lobbying is the gathering of a body of men not known to have a personal interest in pending legislation, but who whisper around, trying to create and obtain something as a result of pay they receive."

Senator Smith took the committee's questions one at a time in the order they were presented by Senator Overman. In answer to the first question as to whether he was financially interested in the production, manufacture or sale of any article affected by the tariff he told of his interest in the Fulton National bank, in Atlanta.

He said that he has stock in this bank and that the bank has an interest in the reorganized mills at Griffin to the amount of about $75,000.

The extent of his personal interest in the mills he placed at $300. He stated that he was not professionally

BLALOCK IS NAMED TO SUCCEED H. S. JACKSON

Popular Fayetteville Man Will Be Nominated by Wilson for Revenue Collector

BY RALPH SMITH.

WASHINGTON, D. C., June 5.—After an interview with President Wilson this morning, Senator Hoke Smith left the White House with the assurance that A. O. Blalock, of Fayetteville, will be nominated for international revenue collector of Georgia, vice Henry S. Jackson, Republican.

Mr. Blalock's nomination will be sent to the senate in a few days, and it is believed that no opposition to his confirmation will be manifested by the Republicans.

"Bud" Blalock is one of the best known citizens of Georgia and is well qualified to discharge the duties of the office with credit to himself and satisfaction to the government and the people. He has served in both branches of the Georgia legislature and has been identified with many public improvements in Georgia.

Dalton Swept by June Hail Storm

DALTON, Ga., June 5.—A severe wind, rain and hail storm swept the northern and eastern part of the county yesterday afternoon, beating down and drowning out growing farm crops.

At Dawnville, the rainfall amounted to almost a cloudburst, and many horses, mules and hogs narrowly escaped drowning in the low places, being driven out of water rapidly rising to higher grounds.

"MY HUSBAND IS INNOCENT," DECLARES MRS. LEO M. FRANK IN FIRST PUBLIC STATEMENT

Wife of Accused Penil Factory Superintendent Arraigns Solicitor General Dorsey for What She Terms the Torturing of Witnesses Into Making Desired Affidavits—Says Treatment of Her Negro Cook by Solicitor and Detectives Taxed Patience to the Limit

DECLARES MR. FRANK'S DEMEANOR HAS ALWAYS BEEN THAT OF AN INNOCENT MAN

Says Many Slanders Have Been Circulated Concerning the Alleged Unhappy Married Life of Herself and Her Husband—"He Could Not Have Been the Good Husband He Has Been to Me if He Were a Criminal," Asserts Mrs. Frank

For the first time since her husband, Leo M. Frank, was arrested more than four weeks ago on suspicion of having murdered Mary Phagan, the pencil factory girl, the accused man's wife on Thursday broke her silence and issued a statement in which she vigorously attacks Solicitor General Hugh M. Dorsey and the city detectives for the methods which she charges they have employed in an effort to gather evidence against Mr. Frank.

Mrs. Frank begins her statement by declaring "the action of the solicitor general in arresting and imprisoning our family cook because she would not voluntarily make a false statement against my innocent husband, brings a limit to patience."

She charges that witnesses are being tortured into furnishing the kind of affidavits desired by the solicitor and the detectives, and states that "it is hard to believe that practices of this nature will be countenanced anywhere in the world, outside of Russia."

Several times in the course of her statement, Mrs. Frank reiterates her full confidence in the innocence of her husband. Referring to Mr. Frank's movements on the day of the murder she says: "My husband was at home for lunch and in the evening at the hours he has stated on the day of the murder. He spent the whole of Saturday evening and night in my company. Neither on Saturday, nor on Saturday night, nor on Sunday, nor at any other time did my husband by word or act, or in any other way, demean himself otherwise than as an innocent man."

Mrs. Frank asserts that slanders have been circulated to the effect that the home life or herself and her husband was not a happy one. "I know my husband is innocent. No man could make the good husband that he has been to me and be a criminal," she declares.

As stated above this is Mrs. Frank's first public statement since the arrest of her husband, and it will probably be her last. Under the Georgia laws a woman is not permitted to testify for or against her husband. It was for this reason that Mrs. Frank was not summoned as a witness before the coroner's jury:

STATEMENT IN FULL.

Mrs. Frank's statement, which comes to The Journal in the nature of a communication, follows in full:

"Atlanta, Ga., June 5, 1913.

"Editor Atlanta Journal, Atlanta, Ga.

"Dear Sir: The action of the solicitor general in arresting and imprisoning our family cook because she would not voluntarily make a false statement against my innocent husband, brings a limit to patience. This wrong is not chargeable to a detective acting under the necessity of building his own reputation against attacks in newspapers, but of an intelligent, trained lawyer, whose sworn duty it is to protect not the innocent, as to punish the guilty. My information is that this solicitor has admitted that no crime is charged against the cook and that he had no legal right to have her arrested and imprisoned.

"The following statement from The Atlanta Journal undertakes to give the history of the arrest up to the time the woman was carried to the station in the patrol wagon, weeping and shouting in a hysterical condition:

"'The negress was arrested at the Selig residence shortly after noon Monday upon the order of Solicitor General Hugh M. Dorsey.

"'She was carried to the solicitor's office and that official with Detectives Campbell and Starnes examined her for more than an hour. The woman grew hysterical during the vigorous examination, and finally was led from the solicitor's office to the police patrol, weeping and shouting: "I am going to hang and don't know a thing about it."

"THEY TORTURED HER."

"They tortured her for four hours with the well-known third degree process, in the manner and with the result stated in the Atlanta Constitution of June 4, as follows:

"'Her husband, who was also carried to the police station at noon, was freed a short while before the wife left the prison. He was present during the third degree of four hours, under which she was placed in the afternoon. He is said to have declared, even in the presence of his wife, that she had told conflicting stories of Frank's conduct on the tragedy date.

"'After she had been quizzed to a point of exhaustion, Detective G. C. Febuary, attached to Chief Lanford's office, was summoned to note her statement in full.'

"It was the longest statement made by the woman since her connection with the mystery. It will be used, probably, in the trial. The negress was calm and composed upon emerging from the examination.'

"That the solicitor, sworn to maintain the law, should thus falsely arrest one against whom he has no charge and whom he does not even suspect, and torture her contrary to the laws to force her to give evidence tending to swear away the life of an innocent man, is beyond belief.

INNOCENT SUFFERERS.

"Where will this end? My husband and my family and myself are the innocent sufferers now, but who will be the next to suffer? I suppose the witnesses tortured will be confined to the class who are not able to employ lawyers to relieve them from the torture in time to prevent their being forced to give false affidavits, but the lives sworn away may come from any class.

"It will be noted that the plan is to apply the torture until the desired affidavit is wrung from the sufferer. Then it ends, but not before.

"It is to be hoped that no person can be convicted of murder in any civilized country on evidence wrung from witnesses by torture. Why, then, does the solicitor continue to apply the third degree to produce testimony? How does he hope to convince the jury to believe it? He can have only one hope, and that is to keep the jury from knowing the methods to which he has resorted.

"Of course, if he can torture witnesses into giving the kind of evidence he wants against my innocent husband in this case, he can torture them into giving evidence against any other man in the community in either this or any other case. I can see only one hope. And that is, to let the public know exactly what this officer of the law is doing, and trust, as I do trust, to the sense of fairness and justice of the people.

"It is not surprising that my cook should sign an affidavit to relieve herself from torture that had been applied to her for four hours, according to the Atlanta Constitution, to a point of exhaustion." It would be surprising if she would not, under such circumstances, give an affidavit.

"This torturing process can be used to produce testimony to be published in the newspapers to prejudice the case of anyone the solicitor sees fit to accuse. It is also valuable to prevent anyone stating facts favorable to the accused, because as soon as the solicitor finds it out, he can arrest the witness and apply the torture. It is hard to believe that practices of this nature will be countenanced anywhere in the world, outside of Russia.

CORROBORATES HUSBAND.

"My husband was at home for lunch and in the evening at the hours he has stated on the day of the murder. He spent the whole of Saturday evening and night in my company. Neither on Saturday, nor Saturday night, nor on Sunday, nor at any other time did my husband by word or act, or in any other way, demean himself otherwise than as an innocent man. His did nothing unusual and nothing to arouse the slightest suspicion. I know him to be innocent. There is no evidence against him, except that which is produced by torture. Of course, evidence of this kind can be produced against any human being in the world.

"I have been compelled to endure without fault, either on the part of my husband or myself, more than it falls to the lot of most women to bear. Slanders have been circulated in the community to the effect that my husband and myself were not happily married, and every conceivable rumor has been put afloat that would do him and me harm, with the public, in spite of the fact that all our friends are aware that these statements are false, and all his friends, and myself, know that my

EORGIA IN GRIP EW COUNTY FEVER

ncular Interest Centers bout Lively Scrap Over Bulloch Land

(Special Dispatch to The Journal.)

STILLMORE, Ga., June 5.—The new county fever that struck Georgia about nine years ago seems to have come to stay, judging from the press reports of late to the effect that the people of Winder, Metter, Stillmore, Alma, Dexter, Brooklet, Glennville and Claxton will be camping around Atlanta during the coming session of the legislature, asking for the creation of as many new counties, each bearing the name of some illustrious man of the past, and hoping thereby to gain prestige among the lawmakers.

It is significant that all but the Winder proposition comes from south Georgia, due to the fact, no doubt, that the large south Georgia counties have developed so wonderfully and population increased so rapidly within the last few years. This might be expected, after the sawmills gave way to agriculture, to which it is so well adapted.

There is no county so much in danger of the carving knife just now as Bulloch. Brooklet, Claxton, Metter and Stillmore are all asking for a slice of this grand old county, that has so often borne away from state agricultural exhibits, first honors. Brooklet is asking that Bulloch be divided, thereby creating East Bulloch, with Brooklet the county site. Claxton is asking for a large slice of the southern portion of the county, while Metter and Stillmore are asking for 123 square miles and 26 square miles, respectively, of the western portion.

Perhaps the most interesting of the new county campaigns will be the issue between Stillmore and Metter for the county site, they occupying practically the same territory which is composed of the adjoining corners of Bulloch, Emanuel and Tattnall. The friends of the Metter proposition propose the name of Candler in honor of the late Governor Allen D. Candler, while those of Stillmore and vicinity have seen fit to commemorate the illustrious comander of the Confederate "foot cavalry," General Jackson, by choosing as the name for the new county the nation-wide soubriquet, "Stonewall."

A peculiar fact of this particular new county fight is that Stillmore has three lines of railroad crossing here, and takes in about all the territory included in the Candler county proposition, especially does the Stonewall county proposition include all territory asking for a new county in this section, including Metter, which town, along with all other towns included in the Stonewall county territory, have double daily passenger service to Stillmore, while Metter is located on one line of railroad, which road, the Central of Georgia, is one of the three roads which pass through Stillmore.

A committee was appointed in February by the Stonewall county movement to confer with the Metter people relative to pulling together for a new county and settling the matter of the county site after the county was created. A prominent citizen of Metter, however, told a member of this committee that they would not accede to this proposition, and shortly after when the Metter people surveyed their territory they came within one mile of Stillmore, and left Stillmore out, together with a large rural section south of Stillmore, which section is now situated from fifteen to twenty-six miles from any county site.

The men behind both movements seem to be making a determined fight to win, and it will be up to the legislature to pass on the merits of the two propositions.

M'ADOO ASKS CONGRESS TO CHECK CUSTOMS CHANGE

Secretary of Treasury Says Plan of Taft Administration is Imperfect

(By Associated Press.)

WASHINGTON, June 5.—Secretary McAdoo has recommended to congress a postponement of the customs reorganization plan until January 1, 1914, because of sentiment against it and because he believes it contains imperfections. The secretary, however, approves the principle of the reorganization. Practically every customs port in the United States is affected by this decision.

The secretary's recommendation was sent to Senator Clarke, chairman of the commerce committee. Mr. McAdoo believes, it is said, that the plan contains many things which should be omitted, and is devoid of other reforms he is anxious to make in the customs service.

In suggesting a postponement of six months he recommends that congress amend the law so that the plan of reorganization must result in a saving of $500,000 based upon the expenses of the customs service for the current finance year.

The president, secretary of the treasury and congress have been bombarded with protests against the reorganization, which would revolutionize the customs service and reduce the number of districts and collectors of customs from 186 to forty-nine.

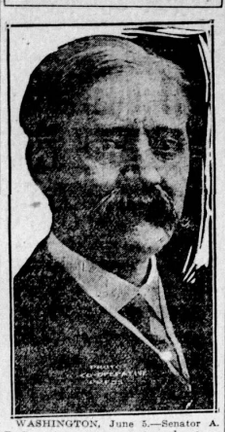
Sen. A. B. Cummins, Who Forced Investigaion



WASHINGTON, June 5.—Senator A. B. Cummins, of Iowa, stole a march on the Democratic leadership of the upper chamber when he offered a resolution, following President Wilson's attack on the tariff lobby for an investigation of it. But Senator John W. Kern, of Indiana, the Democratic leader, awoke in time to the fact that such an investigation, naturally growing from the president's public statement, ought to come from the men of his party. Accordingly, Senator Cummins' resolution was changed considerably, and in that form it passed. Most of the Republicans voted for the Cummins resolution, while the Democrats voted for Senator Kern's.

BUDGET COMMITTEE PLANS NEW SYSTEM

Underwood, Palmer, Fitzgerald and Sherley Agree to Choose Between Two Plans

(By Associated Press.)

WASHINGTON, June 5.—Reforms designed to systematize the methods by which appropriation bills, some times running up to the billion dollar mark, are framed and presented to the house, were taken up today at a meeting of the house budget comittee.

Representative Underwood, Democratic leader; Representative Palmer, of Pennsylvania, Democratic caucus chairman; Fitzgerald of New York, chairman of the appropriations committee, and Sherley, of Kentucky, one of the original budget reform advocates, had agreed to choose between the Fitzgerald and Sherley plans of budget reform.

These are: Fitzgerald's plan: Add to the membership of the appropriation committee, the chairman of army, navy, foreign and all other committees that report appropriation bills so as to bring back to the appropriations committee the exclusive jurisdiction and power over appropriations; enough minority members to be added to preserve the political proportions of the committee; the committee to be prohibited from appropriation for anything not already authorized.

Sherley plan: A budget committee to regulate appropriation; to consist of the four men at the top of the membership list of the ways and means committee, four at the top of the appropriations committee, two at the top of the rules committee and the chairmen of each of the other appropriating committees, with one minority member from each of these committees.

The budget committee would report at the beginning of session of congress next December the maximum that should be appropriated at the session with allotments to the various committees, and the budget committee would have power to limit the total of authorization for appropriations.

TWENTY-FOUR-YEAR-OLD PROMISE KEPT

LEE, Mass., June 5.—A promise made twenty-four years ago was fulfilled today when Charles Blonde received a check for $10,000 from his brother, Joseph Blonde, of Anchor, Wyo. When he left Lee in 1889 to seek his fortune in the west, Joseph told Charles that he would make him a present if he prospered. In a letter accompanying the check Joseph said that he had not forgotten his promise, and that he had "made good."

WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

HOW YOU CAN ENTER THE CAMPAIGN

ROME, Ga., May 31, 1913.

Campaign Editor Journal,
Atlanta, Ga.

Dear Sir: I just learned of your booklovers' Campaign and would like to enter provided I can secure all the back pictures and that I will have time to select the answers to them. Please tell me how much time I will have and what it cost to get all the pictures, the Catalogue and Answer Book. Yours truly, J. L.

You will have plenty of time to select the right titles if you enter now. The last picture will not be published until June 19th, and after that we will give you at least three weeks' time to get the answers in shape. A half hour a day from now until the closing date is more than enough to select answers. We can supply you with the Catalogue containing all those titles for 27c, and the Answer Book with the first thirty-five pictures for 90c. To get the other 40 pictures you can subscribe for The Journal for three months at $1.75, and we will date your subscription to start with the 36th picture and will send all the pictures up to date on the day your order is received.

Of course, the sooner you mail the order to us the more time you will have to select titles and get in shape for your share of that $7,000.

QUARTER OF CENTURY REACHED BY GA. TECH

Commencement for 1913 Begins June 13 – Appropriate Exercises at Celebration

Commencement exercises for the 1913 term at the Georgia School of Technology will start next Friday, June 13, and will celebrate a quarter of a century in the life of this institution. During this period the school has shown wonderful progress.

Dr. Matheson, the president, has been at the head of the school for eight years, and during his term of office the school has flourished and improved in a phenomenal manner.

Twenty-five acres make up the campus, on which are situated sixteen buildings, aggregating a total value of approximately $800,000. From year to year the faculty has increased, the curriculum of the school has been raised, and numbers of other improvements *have been added to the institution.*

The commencement exercises will be held in the auditorium of the Tech Y. M. C. A., and will begin at 8:15 o'clock. At that time there will be a debate by the Henry W. Grady Literary society. The freshmen's oratorical contest will take place the next day in the same hall.

BACCALAUREATE AT ST. LUKE'S.

The baccalaureate sermon will be delivered this year by Dr. Thomas E. Green, of Chicago, on next Sunday morning at 11 o'clock in St. Luke's Cathedral. The subject of his sermon will be "A Veiled Vision."

A meeting of the school trustees will take place on Monday, June 9. At 3 o'clock in the afternoon of the same day Dr. P. P. Claxton, United States commissioner of education, will deliver a literary address in the Tech Y. M. C. A. From 5 o'clock p. m. until 7 p. m. President K. G. Matheson holds a reception, and at 8 p. m. the junior prom., one of the features of commencement, takes place on the campus.

Tuesday, June 10, is set aside as "Founders' day." At 9 a. m. a meeting of the alumni takes place in the Tech Y. M. C. A. auditorium. "Founders' day" exercises are scheduled for 10:30 a. m. in the auditorium. At 3:30 p. m. class day exercises and a pageant will be held on the campus. At 8:15 p. m. C. Alphonzo Smith, Ph. D., L.L., will deliver the "Founders' day" oration in the Grand opera house. And at 9:30 p. m. Governor and Mrs. Joseph M. Brown will hold a reception in the mansion.

Wednesday, June 11, is demonstration day, when the boys will have a chance to shoow what they have done. From 8:30 a. m. to 10 a. m. a shop exhibit will be given. At 10:30 a. m. the graduating exercises will take place in the Grand opera house. Dr. Herbert C. Bizelow, of Cincinnati, *as commencement* orator, will address the students taking as his subject, "Old Institutions and New Ideas."

CHAMBER OF COMMERCE LUNCH.

At 1:30 p. m. the delegates, trustees, faculty, alumni and graduation class will attend a luncheon to be given by the Atlanta chamber of commerce.

This luncheon will be given at the Capital City club in honor of the distinguished visitors, trustees and faculty of the Georgia School of Technology, and will celebrate the twenty-fifth anniversary of an institution of which all Atlanta is proud.

It is hoped that every member of the chamber can be present. Plates will be $3 each, and those who wish to attend will please forward their checks to Thomas D. Meador, treasurer.

The following is the committee on arrangements:

Mell R. Wilkinson, chairman; John W. Grant, J. B. McCrary, Joel Hunter, A. R. Colcord, George M. Hope, W. T. Winn, Samuel A. Carter, Wilmer L. Moore, Robert Gregg, V. H. Kriegshaber, Paul Norcross, St. Elmo Massengale, David Woodward, J. S. Floyd, W. P. Walthall, F. J. Paxon, F. M. Inman, W. W. Orr, S. B. Turman, J. T. Holleman, H. M. Willet, E. C. Konz.

Quite a number of applications for tickets to the luncheon have been received by the chamber of commerce, whose own members are applying at that office, and by A. R. Colcord, chairman of the alumni association, to whom the alumni are applying. Indications were said to be Thursday that at least 500, the full capacity of the Capital City club room, where the luncheon will be served, will be at the tables.

No admission is charged and there will be no collection taken.

ESCAPED LUNATIC SAYS NEW YORK IS DANGEROUS

(By Associated Press.)

NEW YORK, June 5.—Thomas Shehan, of Albany, who escaped yesterday from the state insane asylum at Poughkeepsie, surrendered to the New York police today.

"I think you had better send me back to the asylum," he said. "I believe New York is a dangerous place to live in."

BLOOD TRAIL ON AVENUE A MYSTERY UNEXPLAINED

Residents Find It at Bonaventure and Ponce de Leon Aves, Early Wednesday

A trail of blood across Ponce de Leon avenue on Bonaventure avenue was re*ported to the police Wednesday morning* and was being investigated by them Wednesday afternoon.

A mystery seemed to surround the trail, inasmuch as none of the residents in the neighborhood (which is about three blocks beyond Ponce de Leon Springs) knew anything about the matter. The trail seemed to have been left from a severed artery, for the blood was strewn in spurts a few inches apart. Just back of the residence of G. F. Turner, on the corner of Ponce de Leon and Bonaventure, it ended in a pool of blood.

That was the find that the neighbors reported Wednesday morning.

LINER WAITS THIRTEEN MINUTES ON MORGAN

(By Associated Press.)

NEW YORK, June 5.—The sailing of the liner France for Havre was delayed thirteen minutes to allow J. P. Morgan to bid farewell to his sister, Miss Anne Morgan, who will spend the summer in her villa near Paris.

Mr. Morgan jumped from an automobile and ran across the gang plank just as it was about to be raised. Miss Morgan was waiting for him at the railing.

Another passenger on the steamer was Dr. Alixis Carrel, of the Rockefeller institute. Dr. Carrel will spend the summer in Paris and Berlin, where he will make experiments in transplanting organs of the human body.

EXHUMING OF BODY OF MARY PHAGAN COST $45

The board of Fulton county commissioners Wednesday afternoon approved a bill of $45 presented to them by William Black, an undertaker of Marietta, for two exhumations of the body of Mary Phagan on May 5 and 7, the dates when the body of the little girl was examined.

S. B. Turman protested the bill on the ground that it had been o. k'd already by Coroner Donehoo. He claimed that the coroner had no right to exercise this authority, but later withdrew the protest.

TECH HIGH STUDENTS SHOW THEIR HANDIWORK

Boys From Grammar Schools Go in Large Numbers to Inspect Exhibits

The boys of Tech High on Wednesday gave an exhibit of their class room shop work in wood and metal for the benefit of boys who graduate this year from the grammar schools.

The exhibit was held in the Tech *High school building on Marietta street,* and was attended by a large number of grammar school boys who showed the liveliest interest in the many and varied samples of fine work.

This year the Tech High school has no graduating class, owing to the fact that the course of study was last year increased from three to four years.

Its enrollment for the term of 1912-13 was over 200, and practically all of the boys made their promotions without fail, so that the graduating class next year promises to be up to the full proportion.

Tech High school is a part of the city's public school system. It was established in 1908 and has had a remarkable growth. Its graduates are qualified to enter the sophomore class at Georgia Tech, or if unable to take a further technological course, they are fitted by their Tech High school training to fill good positions.

The greatest need of Tech Hi, as it is called by the students, is a new building, and this the city will provide as soon as its finances will permit. In the event there is another bond issue, which is being much discussed at this time, Tech High school is practically certain to be provided for.

It Felt Hot, T... But Really

With the thermometer only 80 degrees, Thursday people of Atlanta swelte... cluded that it certainly was ... blazes."

Yet the day was hardly as ... several that have gone before t... and the prediction of the weathe... was that the mercury would no... above 86 degrees during the ... noon. He explained the feeling of ... cessive heat by the great amount of moisture in the air.

The wind, he said, had changed during the night, and the air was very humid, making conditions seem much hotter than they really were.

Fair weather is his forecast for the next few days. The shift in the wind, he said, probably will result in a cessation of the showers which have swept this vicinity during the past week.

...Y PLAN FOR ...SING UNDERPASSES

...al Railroad Agrees to Ar... ...gement Which May Re... ...lieve the Situation

A temporary arrangement with the Central of Georgia railroad which will enable the city to close the underpass in Forsyth street bridge can probably be effected as the result of negotiations Thursday morning between the joint committee in charge of the matter and President Winburn of the Central.

The plan is to close the underpasses and use the private roadways through the Central's right-of-way until a permanent solution of the problem can be accomplished.

By means of this roadway teams can enter to the tracks and depots under the bridge, and after loading can depart by the same route.

Mr. Winburn was unwilling to give up the roadway or any part of it for permanent use, owing to plans which the Central has in mind for future building, but he was willing to cooperate with the city so far as he could, and in this spirit agreed to the use of the roadway temporarily.

The consent of the Western and Atlantic railroad will now have to be obtained, and to this end the committee will undertake to get a conference with Major John Thomas, of that road, or some representative designated by him.

Should the Western and Atlantic consent to the plan, it will then be necessary to obtain the approval of the governor and the railroad commission.

Fish for the Capital Aquarium Brought from Banks Milltown Pond

An interesting feature of the offices of state Game Commissioner Jesse E. Mercer is his aquarium, which was only completely restocked Wednesday afternoon when Deputy Warden Boislair returned from Milltown, Berrien county bringing with him every species of fish that live in the waters of the pond known as the Banks estate, with the exception of a trout and the snaky eel.

Unusual interest is centered in this new collection, because of the fact that all of the fish come from the waters over which the recent Milltown trouble arose, and which for a time threatened to become a serious matter, but for the tactful way in which it was handled by Mr. Mercer.

Besides the fish the separate glass water compartments hold in captivity a pair of diamond back terrapins that sell at a minimum ofo o$3 each, two baby alligators less than a foot in length and an alligator turtle, a most formidable and ferocious looking amphizious creature.

The commissioner is very proud of his new collection and is personally attending to their meals once each day. Numbers ofo people visit the aquarium daily, Daily Report, after interesting which is located in an ouoter room that one must pass through before reaching the main offices. Seldom a day passes that number of school children are not piloted to the glass cages by a teacher for an elementary course in actual natural history.

L. N. HUFF HAS OPENED STORE ON WHITEHALL ST.

Dr. E. O. Silvieus, an Experienced Specialist, in Charge of Intricate Work

L. N. Huff, who has successfully operated an optical store at 52 West Mitchell street, during the past five years, has opened another large optical house at 70 Whitehall street. Mr. Huff will be at the Whitehall store while his place on West Mitchell street will be under the management of D. C. Jackson.

Mr. Huff announces that he has procured the services of Dr. E. O. Silvieus, of Cleveland, Ohio. Dr. Silvieus is a specialist of many years' experience. He will be located at the Whitehall store and will do the intricate work for both stores.

Mr. Jackson, manager of the Mitchell street store, has had long experience in the optical business, having formerly been connected with F. A. Hardy & Co., wholesale optical people.

L. N. Huff, after four years' experience in the optical business, opened a place of his own, the Mitchell street store, five years ago. His success has been remarkable, as is indicated by the fact that he has opened the large new place at 70 Whitehall street.—(Advt.)

MARIST COLLEGE HOLDS ITS CLOSING EXERCISES

Commencement is on this week at Marist college, on Ivy street. Exercises are being held in the college hall and on the campus.

The promenade Wednesday afternoon was well attended by all the cadets and their friends. During the course of the afternoon a drill was held in which the boys went through the manual of arms in a very pretty display.

Thursday afternoon at 4 o'clock the competitive drill will occur. This drill will decide the best-drilled company in the school, and the best-drilled individual. The latter honor is one eagerly sought and difficult to attain.

The exercises Friday night in the college auditorium will wind up the school year, which has been one of the most successful in the history of the institution. Prizes will be delivered, an attractive program consisting of declamations and essays, will be carried out.

ROBERTS UPSETS STORY TOLD BY JUDGE GARY

Witness Never Heard That Gary and Farrell Published Steel Prices

(By Associated Press.)
NEW YORK, June 5.—Percival Roberts, Jr., a member of the finance committee of the United States Steel corporation, testified today that he never heard that Judge Elbert H. Gary, chairman, and James H. Farrell, president of the corporation, announced to trade papers the prices at which the corporation sold its products. Mr. Roberts was under cross-examination in the government suit to dissolve the corporation. Both Judge Gary and Mr. Farrell have testified that the corporation's prices were "announced to trade papers so that everybody would know what the corporation was selling at."

Today Roberts said that trade paper prices were sometimes fictitious and cited instances when sales were made by the corporation at prices lower than those published.

"I would attach the same importance to prices published in trade papers that I would to hearsay evidence," said the witness.

"Didn't these prices have any significance to the trade?" asked Judge Dickinson, attorney for the government.

"Not so far as buying and selling was concerned. They were the same as a thermometer."

"Then of what use were they?"

"They gave a general idea of what was going on."

"Is that all?"

"They indicated the opinion of those journals of what they believed prices to be."

"Were the yaccepted as base prices?"

"No."

"Then the published prices of the steel corporation did not indicate the prices it sold at?"

"I did not know they had a published price."

"Did you not know that Judge Gary and Mr. Farrell gave such prices to the trade?"

"No, I did not."

Mr. Roberts explained that "all things being equal," the corporation sold at a fixed price, but that the market was made by the buyer and seller, according to condition.

Atlanta's Finest to Come Out Friday in White Helmets, Etc.

Summer is here!

The long, bald-headed fat man knew this several adys ago when he began the annual process of mopping beads of perspiration from that portion of his head where hair once grew, and, for the sake of his peace of mind, ought to grow now.

There was nothing, however, for most of us lean and hungry mortals to go on except the fat man's word and that of the weather man. And the latter is always non-committal, or at least laconic, when asked to confirm a rumor about climatic conditions.

It fell upon Chief of Police Beavers to make a definite decision in the matter. And Chief Beavers, just after he had read the daily attack upon him regarding the vice situation, officially and formally and smilingly recognized the yearly coming of summer in an order to his policeman. In the order he set forth that long hot days might be expected from now on and that the "cops" were to shed their heavy winter uniforms and appear in decorous and befitting flimsy stuff.

So Friday every policeman on duty will show up for work in a light blue serge uniform. Also he will wear a white helmet to compete better in conversation with the man who remarks every year that this is the hottest summer he has known in two decades—"hanged if it ain't."

The Aftermath of the May Sale Causes a Most Remarkable

Muslinwear Clearance: Much of It at Half Price

The May sale of Muslinwear is history. In its wake, **remain** scores of fine garments. They represent the broken lines and odd lots which inevitably **accumulate** throughout any **big** sale. Some of these garments are as fresh as the day they were first unpacked; most of them are mussed and counter-tossed. Tomorrow and Saturday we **close them all out** at these **least** of little prices:

A Table of $2.50 to $3.50 Garments at $1.95

Here are fine Gowns—Princess Slips—Combinations—Corset Covers—Drawers. The materials are of choice nainsooks; the trimmings of charming laces, embroideries and ribbons. The styles are approved by fashion. All the garments need a pressing; some need a tubbing. It's very little trouble to make such a big saving.

Table of $4 to $10 Garments $2.98

This table contains only combinations and Princess Slips. Extra fine materials, but rumpled or slightly soiled.

Great Bargains in Gowns

73c for actual $1.25 gowns—One of the best numbers is made of fine nainsook. Slipover style. The yoke is prettily embroidered in imitation Madeira work and linen lace trimmed.

$1.49 for $2.50 to $3.50 gowns—Slipover and Empire styles, some of the latter having busts made entirely of laces or embroideries. Other gowns trimmed in Cluny and shadow laces.

$3.98 for $6 to $8 gowns—beautiful materials and trimmings, plainly or elaborately trimmed in the finest laces, embroideries, etc.

$8.75 for $10 to $25 gowns—the greater part of these are worth $12.50 to $25. Round neck and Empire styles. Trimmings include real Irish and real Cluny laces.

NEGRO'S AFFIDAVIT NOT GIVEN MUCH CREDENCE

Even the City Detectives, It Is Said, Attach Very Little Importance to Document

Very little importance, it is said, is attached by the city detectives to the sensational and incoherent affidavit of Minola McKnight, the negro cook at the home of Mr. and Mrs. Emil Selig, 68 East Georgia avenue, where Leo M. Frank, the pencil factory superintendent, and his wife reside.

Attorney Luther Rosser, chief counsel for the indicted superintendent, read the affidavit with apparent amusement. He had no comment to make, but it was evident that Mr. Rosser did not regard the affidavit seriously.

Mr. and Mrs. Selig and Mrs. Frank read the affidavit in The Journal, and although they would make no statement for publication, they appeared to view the negro woman's testimony as absurd and ridiculous on the face of it.

But little of the cook's testimony, even should she stick to her story until the day of the trial, will be admissible in court. It is largely alleged hearsay evidence and, therefore, barred.

The woman, in her affidavit, swears that Frank came home to lunch on the Saturday of the Mary Phagan murder, about 1:30; that he did not eat anything and that he remained only about ten minutes. If the negress knows of her own knowledge that this is true she can so testify in court. However, Mr. Selig, Frank's father-in-law, will swear, as he did before the coroner's inquest, that Frank ate lunch with him and afterwards lay down on a lounge for a nap. Mrs. Selig will reiterate her testimony at the inquest, which was to the effect that Frank came home about 1:20 o'clock and that she and her daughter, Mrs. Frank, were dressed and ready to go to a grand opera matinee; that soon after his arrival they left.

The McKnight woman, in her affidavit, declares that some time on Sunday she overheard Mrs. Frank tell her mother, Mrs. Selig, that Frank came home drunk the night before; that he was very restless and acted queerly; that he told her (Mrs. Frank) that he was in trouble and begged her to get his pistol in order that he might kill himself.

This portion of the woman's testimony, even if true, would be hearsay and not admissible.

Friends of the indicted superintendent are inclined to make light of the cook's affidavit. They call attention to the fact, as brought out at the coroner's inquest, that eight or ten friends of the Selig family were at the Selig home on the Saturday night in question, and that it will be easy to prove by them whether Frank was drunk or acting queerly. It is also recalled that the evidence before the coroner was that on that Saturday evening Frank sat out in the hall of the Selig residence and read a magazine for about two or three hours before retiring.

And the point is made that if Frank had been acting so strangely during the night Mrs. Frank would hardly have waited until some time next day to confide in her mother, but that she would most likely have called in both her mother and father at the time, for they were sleeping in an adjacent room.

Detective Chief Lanford stated Thursday morning that he did not expect any developments in the Phagan case during the day and both the solicitor and Police Chief Beavers would be before the grand jury during the greater portion of Thursday.

According to the detective chief, James Conley, the negro sweeper, has made no further admissions. He still holds to the story contained in his third affidavit in which he declares he assisted Frank to carry the Phagan girl's body to the pencil factory basement and wrote the notes found beside the body at the dictation of the factory superintendent. No effort has been made during the past few days to obtain additional disclosures from Conley.

MRS. FRANK HERE.

Frank's mother, who arrived in Atlanta ten or twelve days ago, is said to have visited her son's cell in the tower several times during last week. Usually, it is reported, she goes in the evening to avoid the gaze of the curious.

Mrs. Frank has been stopping at the home of Mr. and Mrs. Emil Selig, and is said to have exhibited wonderful bravery in sharing her son's burden.

Warden Shoots Convict

(Special Dispatch to The Journal.)

DALTON, Ga., June 5.—Warden Forrester, of the county chaingang, was forced yesterday to shoot a negro convict who had run amuck and was threatening the warden and guards with a heavy road hoe. The bullet made a slight wound in the negro's side, and he is rapidly recovering. He dropped the hoe after being shot and surrendered.

Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in Its Bonnet.

A woman's heart responds to the sweetness of a pretty child, and more so to-day than ever before since the advent of Mother's Friend.

This is a wonderful external help to the muscles and tendons. It penetrates the tissues, makes them readily yield to nature's demand for expansion, so there is no period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.

Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.

And particularly to young mothers is this famous remedy of inestimable value. It enables them to preserve their health and strength, and they remain pretty by having avoided all the suffering and danger that would otherwise accompany such an occasion.

You will find this splendid remedy on sale at all drug stores at $1.00 a bottle.

Write Bradfield Regulator Co., 304 Lamar Bldg., Atlanta, Ga., for their instructive book for expectant mothers.

Deferred Payments Permit Your Buying A Diamond Without Feeling the Outlay

Diamonds can be bought here by paying only one-fifth cash—the balance, plus 6 per cent simple interest, to be paid in ten equal monthly payments.

The 6 per cent simple interest is the difference between cash and the long time accommodation. It is just enough to pay for the additional booking involved. It would certainly not be fair to the cash customer to sell on long time without this difference.

Diamonds will unquestionably be advanced 20 per cent within the next few months. The advance in price by the syndicate and the new tariff bill makes the advance certain.

Selections sent anywhere for inspection.

Call or write for booklet, "Facts About Diamonds," and large general catalogue. They quote net prices and give full particulars about our attractive plans.

...RADUATES TO ...LOMAS THURSDAY

...es of Girls' High School ...f the Commercial High School at the Grand

With the graduation of the students of the Girls' High school, Thursday night, and of the senior class of the Boys' High school, Friday night, at the Grand Opera house, the forty-first session of the public schools of Atlanta will come to a close.

On Friday every public school in the city will close its doors, not to open them again until next September. Three months of play lie before the children, girls and boys.

The Girls' High school exercises, Thursday night, will be conducted jointly with those of the English-Commercial High school, ninety-seven girls receiving diplomas in the former school and forty girls in the latter. The class is one of the largest in the history of either school.

The program opens with prayer. A chorus, "Carmena Waltz," will be rendered by the class, following which Miss Gertrude Gates of the Girls' High school, will deliver the greeting to the audience. Miss Blanche Foster, of the English-Commercial high school, will read an essay, "Vocational Schools."

Another chorus, "The Dance of the Leaves," sung by the class, will be followed by an essay by Miss Floy Edwards, of the Girls' High school, on "Ethical Values at the High School." "The Beautiful Blue Danube," sung by the class, will precede immediately the presentation of diplomas by Walter R. Daley, president of the board of education. A grand march by all the girls will conclude the program.

The graduating exercises of the Boys' High school, literary, scientific and business departments, will be held at the opera house at 8 o'clock Friday night. The Tech High school, which generally holds its exercises jointly with those of the Boys' High school, has no graduating class this year on account of the establishment of the four-year course at the school.

Every other public school in the city has its own separate exercises this week. Some of them already have taken place, as it is the custom to hold them either Wednesday or Thursday of the closing week of school, in order that on the last day there will be no obstacle to a speedy dismissal.

A WORKER APPRECIATES THIS

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley Kidney Pills, and they have done what other medicines failed to do, and now I am doing and feeling fine. I heartily recommend Foley Kidney Pills." Foley Kidney Pills do not contain habit forming drugs and are tonic in acting, quick in results. They will help any case of kidney trouble that is beyond the reach of medicine. For sale by all dealers.—(Advt.)

RECORDER CIRCUMVENTS THE MAYOR ONCE MORE

Following his policy of placing convicted whisky sellers out of the reach of Mayor Woodward's pardoning power, City Recorder Nash R. Broyles imposed a fine of $149 with the alternative of twenty-nine days in the stockade on Lora Harris, colored, when he found her guilty of violating the city liquor ordinance Wednesday evening.

Under the law Mayor Woodward cannot exercise a pardon or reduce a fine except in instances where the sentence is less than thirty days or the fine under $50 without the recommendation of the recorder.

LEGAL NOTICES.

NOTICE is hereby given that at the next meeting of the general council of the city of Atlanta application will be made by the Georgia Railway and Electric company for a franchise to construct and operate double track street car lines along Ivy street, from the corner of Ivy street and Auburn avenue to the intersection of Ivy and Edgewood avenue, with necessary turnouts, switches and connec-

Jury Examines Switch Engine in Order to Decide Damage Suit

Twelve jurymen stood at the Pryor street railroad crossing near the Union depot Thursday morning and gazed at the evolutions of a puffing switch engine, No. 1050, Central of Georgia railway, in order that they might the more fittingly judge whether W. W. Carroll, an engineer for that road, should be awarded his $15,000 damage suit against the Georgia Railway and Power company.

The suit was brought in the first division of the Fulton county superior court, Judge W. D. Ellis presiding, on Thursday morning.

Two years ago, Carroll alleges, he was sitting in the cab of his engine taking a string of boxcars over the street car crossing near Fort McPherson, when his engine was struck by a p...sing electric car.

His foot was on the quadrant in the cab at the time, says Carroll, and as a result of the collision, it was forced down between the quadrant and the lever. The petition alleges that the machinery of the engine had to be taken apart before Carroll could be extricated from his position and that as a result of the accident two of his toes had to be amputated.

Attorneys Little and Powell and Attorney Sam Hewlett, acting for the plaintiff, had managed to get this same switch engine brought to the Pryor street crossing Thursday morning. The jury was allowed to examine the engine, and shown exactly how Carroll says his dismembered foot was caught in the machinery.

ALABAMA RATE HEARING IS ENDED ON THURSDAY

It Will Be Several Days Yet Before Decision Is Rendered

Argument in the Alabama rate case, an injunction suit which was brought by the Louisville and Nashville railroad against the Alabama railroad commission, was concluded in the federal court Thursday.

It will be some time yet before a decision will be rendered by Judges Pardee, Shelby and Grubb, before whom the hearing was held. Cases of similar nature are now in the supreme court for final decision, which may be on any Monday.

The hearing was on a petition for injunction to prevent the Alabama board from imposing a 2 1-2 cent passenger rate on the L. and N. railroad in Alabama.

PRICE OF JAIL FEED DISCUSSED BY BOARD

At the meeting of the board of county commissioners, held Wednesday, Sheriff Mangum appeared and asked for directions as to how he was to pay for meals for the men in the jail, as according to the recent ruling of the supreme court he was placed back on the fee system.

Sheriff Mangum explained that he had heretofore been allowed 45 cents a day for each prisoner. During the first five months of the year, when he was placed on a salary, the county board took care of the prisoners themselves.

General Clifford Anderson, chairman of the public buildings committee, stated that since the new regime the county had been able to feed the prisoners for exactly 12 1-2 cents a day.

When asked if he couldn't come down on his estimate, Sheriff Mangum stated that there were other costs to be considered. The board then sought a compromise, and offered him 20 cents a day for each prisoner. This was declined through his attorney, Aldine Chambers.

No action was taken and the whole matter was referred to the county attorney, L. Z. Rosser.

Mr. Rosser stated that the county and the sheriff would each retain its contract until the latter's expired. Sheriff Mangum being awarded the difference between 12 1-2 and 45 cents.

JOY RIDERS, FOUR WOMEN, TWO MEN, TAKEN BY POLICE

Four young women and two men were arrested at 4 o'clock Sunday morning as the climax of a joy ride which lasted most of the night and early morning. They were taken into custody in Peachtree street by Sergeant Hewell and Policeman Clack and were fined $15 and costs each on a charge of disorderly conduct by Recorder Nash R. Broyles.

In sentencing the women, the city judge took occasion to remark that such carousals were a thing of the past in Atlanta and that the women would have to go elsewhere to enjoy another like joy ride.

The party consisted of Helen White, actress, of 83 1-2 Peachtree street; Dora Salters, 11 Garnett street; Georgia Woodruff, 134 Rawson street; Marion Long, 83 1-2 Peachtree street; A. P. Fulton, timekeeper, Piedmont hotel, and J. J. Dillon, a chauffeur, of 6 Luckie street.

MRS. NETTIE RAMSEY HAS FILED SUIT FOR $10,000

Mrs. Nettie Ramsey has filed suit for $10,000 against the Griffin Construction company. W. M. Jones and James C. Anderson, alleging that she suffered that much damage in the downfall of the building at 140 Whitehall street on February 26, 1913.

Mrs. Ramsey states in her petition that she occupied a room on the third floor, that she was forced to flee from the building in her night clothes, and that her furniture and personal effects were practically destroyed.

COLYAR ARRESTED AGAIN ON KNOXVILLE WARRANT

Deputies in Sheriff's Office Take Him in Custody When He Appears as Witness

A. S. Colyar, waiting upon the grand jury's summons as a witness, Thursday morning at the court house, was arrested by deputies from the sheriff's office, adjoining the grand jury room. The deputies exhibited a warrant from Knoxville, Tenn., charging forgery alleged to have been committed several years ago.

No requisition accompanied the warrant. The sheriff wired to Knoxville that a requisition must be filed and approved within a reasonable time or he will release Colyar. Colyar was not jailed. He was retained near the grand jury room, to await the jury's call. Bond was to be fixed later by the sheriff, and it was expected that would be furnished.

Colyar was arrested not long ago by the city police upon what is said to be the same charge now embodied in a warrant, the arrest being made then in response to a telegram from the Knoxville police. He was released without bond when the formal legal procedure was not complied with in a reasonable time.

Acting as his own attorney Colyar took out a writ of habeas corpus before Judge Pendleton, of the superior court, just before 1 o'clock, and Judge Pendleton set 11 o'clock Saturday as the time of the hearing upon it.

The allegation was advanced that while it did not appear on the surface what interests were directing this attempt to get Colyar back to Knoxville, there was room for strong suspicion that the purpose of the attempt was to get him out of Georgia because he is an important witness in a big case (the dictograph matter growing out of the Mary Phagan murder case, apparently) "against violators of the criminal laws of Georgia."

Some question was raised informally among lawyers and officials at the court house, as to whether Colyar, being under summons to appear before the grand jury, can be extradited from the state. If requisition papers are forwarded from Tennessee for him.

Judge Pendleton declined to fix a bond for Colyar, when petitioned so to do by Attorney W. M. Smith. The judge held that he was without that authority in this case. It is a matter for the sheriff, said he.

Mr. Smith applied then to the sheriff for bond.

OUTLAW SUES WIFE'S MOTHER FOR $50,000

Friends in this city of C. W. Outlaw, representative of the Daniel Miller company and a former Atlanta man, will be interested to learn that the divorce suit filed in Baltimore by his wife, Mrs. Laura Frances Outlaw, has been dismissed by Chief Judge N. Charles Burke, together with a bill for permanent alimony filed by his wife.

Two bills for divorce have been filed against Mr. Outlaw, both of which have been dismissed. The bill for alimony was dismissed with costs to the husband.

Mr. Outlaw is now in Atlanta, where he is well known. He states that he now has a suit for $50,000 damages against Mrs. Outlaw's mother pending, which alleges that the mother alienated the wife's affections from the husband.

CLUB FEDERATION TO HOLD ANNUAL MEETING FRIDAY

The annual meeting of the City Federation of Women's clubs will be held on Friday morning and afternoon in the Women's Club house on West Baker street.

The morning session will begin at 10 o'clock, and the afternoon session at 3 o'clock. An interesting program will occupy each session. Reports from each of the eighty-five clubs in the federation, and from the committees of the federation itself will be heard at the morning session. The afternoon sessions will be devoted to a program of civics generally. Mrs. Charles J. Haden, president of the federation, will be in the chair at both sessions.

BERNARD SUTTLER WAS BETTER THURSDAY

Bernard Suttler, the well known publisher, who has been very ill at his home, 374 Pulliam street, for the past week, was reported as decidedly better Thursday morning, although he is still in a very weak condition.

Mr. Suttler is suffering from a severe attack of acute indigestion. He was stricken suddenly, while walking in his garden, and fell unconscious. That was a week ago, and since that time he has been under the constant care of a physician.

PACIFIC PLANS TO BE HEARD ON JUNE 12

ST. PAUL, Minn., June 5.—Federal Circuit Judges Sanborn, Hook and Smith today fixed June 12 as the date for hearing on the first and second amended plans for the disposition of the stock of the Southern Pacific held by the Union Pacific company in the matter of the dissolution of the combination between the two companies.

THEATERS

(Criticisms of initial performances at the local theaters are written by members of The Journal staff. All other matter appearing in this column is furnished by the theater managements.)

FORSYTH—Vaudeville.
BIJOU—Vaudeville and Pictures.

Seldom's Poems in Marble, one of the feature attractions at the Forsyth this week, is creating more favorable comment than any act of this sort has registered in this section of the country. There are three people in the number, a beautiful woman and two perfect specimens of manhood, who pose in a series of statues, some realistic reproductions of works of art, and others by Seldom, himself. The stage mounting is attractive, and the ability of these people to appear as marble statues has added a great deal to the drawing power of the bill.

Jack Hazzard's stories are being repeated all over Atlanta. There has never been a monologuist here who so quickly established himself as a favorite. It is a remarkable fact that every story he tells is new.

Lillian Shaw, as headliner, repeats the tremendous popularity that she enjoyed in past performances, while Wright and Dietrich, who are local popular favorites, are unquestionably contributing to attendance results.

For next week Rohem's Athletic Girls, a quintet of boxing, wrestling and bag punching maidens, will be the headline feature, while Signor Travata, the eccentric violinist, is the extra added attraction.

Probably the best musical comedy tabloid of the season is now occupying the boards of the Bijou, and the general opinion of patrons of the popular theater is that "The College Girls" is worth more than the price of admission.

From the minute the curtain goes up on the first act there is a flash of pretty girls, a glimpse of elaborate scenic and light effects and dainty costumes. Tuneful musical numbers follow each other in rapid succession and the entire performance has a dash and snap that carries everything before it. The company is good throughout, the singers have splendid voices; the comedians are clever; and the chorus is made up of young and attractive girls. With all these pleasing features it is not surprising that "The College Girls" has made a big hit and the popular little theater is hardly large enough to accommodate the crowds that want to see the performance.

The management announces for next week another splendid musical comedy tabloid, entitled "Hiram at the Cabaret." As the title indicates, the story of the play has to do with the experiences of Hiram, who goes to the city in quest of fun. There is much opportunity to introduce quaint characters and bright lines with lots of pretty music and the performance is said to be one of unusual merit.

MILL MEN BANQUETED DURING CONVENTION

Oil Mill Superintendents Attending Convention Are Entertained by Auxiliary

The fourth annual convention of the interstate association of mill superintendents began its second day's session in the Auditorium-Armory Thursday morning at 9:30 o'clock. There was an increased attendance over the opening day, and the interest in the exhibits of the mill manufacturers was more manifest.

President J. F. C. Holmes presided, and frequently joined in the discussions.

During the morning session the crowd was treated to a stereopticon exhibition of ice machinery, which was given by the Carbondale Machine company, of Carbondale, Pa.

The program for the morning was as follows:

"The Best Method of Oil Extraction, and General Press Room Work"—Mr. J. F. Palmer.

"Why as Oil Mill Men We Have Not Shown the Same Ability That Has Been Shown in Other Lines"—Mr. B. F. Zimmerman, manager.

"Linting Cotton Seed for Mill Purposes"—Mr. J. F. Rhodes.

"Discussion on High Pressure Pumps"—Mr. Joseph Davidson.

Adjournment for lunch.

The following speakers spoke during the afternoon:

"Prevention of Fire and Accidents in an Oil Mill"—Mr. W. J. Yarbrough.

"Interstate Association and What It Is"—Mr. J. W. Hanson.

"Economy of Operation in an Oil and Its Results"—Mr. J. H. Morgan.

"The Best Method of Keeping a Mill Going Without Sunday Work"—Mr. D. H. Wells.

Adjournment for the day.

The mill men were tendered a banquet Wednesday evening at the M. & M. club, which was one of the many entertainments planned for them by the auxiliary of the association, which is made up of the mill machinery manufacturers who have exhibits on display. W. B. C. Smith, publisher of the Southern Engineer, was toast master at the banquet.

Thursday night a theater party will be given the visitors and their wives at the Forsyth, and Friday afternoon the session will be brought to a close with a barbecue given at the Cue club grounds in East Point.

The following is the program for Friday morning:

"Steam and Gas Engineering"—Mr. R. W. Rustin.

"My Method of Filing Linter Saws"—J. T. Holmes.

Miscellaneous reports of committees. Election of officers. Selection of meeting place for 1914.

Adjournment of convention.

SOUTHERN PACIFIC ASKS TO ISSUE $30,000,000

(By Associated Press.)

SAN FRANCISCO, June 5.—In furtherance of a plan for extensive improvements over its system, including construction work in Los Angeles, Tex., and California, the Southern Pacific made application today to the railroad commission of California for permission to issue $30,000,000 in two-year 5 per cent collateral trust notes. The application states that a part of the money is to be used in supplying additional facilities for the Atlantic Steamship lines, controlled by the company.

GEN. EVANS DISCLAIMS INTERVIEW ABOUT WAR

Declares Statement in The Journal Was Entirely Without His Authority

In The Journal of Wednesday's issue appeared an alleged interview with General E. K. Evans, commanding the Second brigade, First division, of the United States army, with headquarters in Atlanta in which the general was quoted as making statements relative to the unpreparedness of the United States for war with a foreign power.

General Evans disclaims all responsibility for the purported interview, and requests The Journal to set him right. He declares the interview was absolutely unauthorized and has done him a grave injustice. The Journal is glad to give the same prominence to his disclaimer as to the alleged interview.

GRAND JURY PROBE OF VICE CONDITIONS FINISHED THURSDAY

(Continued From Page 1.)

tective chief stopped and stood looking at the lawyer for a couple of moments, the lawyer returning his look. Colonel Felder kept his seat, and the chief turned and walked away. Neither spoke.

Colonel Felder was called into the grand jury room then.

It was said that Chief Lanford had been asked by the grand jurors about the vice situation, and had viewed the matter from the same standpoint as Chief Beavers, declaring that the town "is better now than it ever has been before in that regard.

NO WEAPON FOUND.

Several bystanders stated that when Chief Lanford and Colonel Felder were on the verge of their difficulty they saw the attorney reach toward his hip pocket.

Chief Lanford demanded that Mr. Felder be arrested for carrying concealed weapons. Deputy Sheriff Plennie Minor stated to a Journal reporter that, upon that demand, he searched Colonel Felder in another room, and found no weapon upon him.

Chief of Police Beavers appeared at the court house for a short time, and replied that it is his belief that the grand jury is doing no less and no more than it ought to do—that is, it is showing a determination to get to the bottom truth of the reports and testimony before it that the abolition of the vice districts in Atlanta has proved to be a failure and that the segregation policy should be re-established.

"These enemies who are attacking vice conditions here now will find me standing by every act I've done," said the chief. "I haven't a thing to undo, and if they attack me myself they'll find me loaded for bear. I'm not going to stand on any ceremony with any of them."

Colonel Felder declared, on leaving the grand jury room, that he had absolutely nothing to say for publication.

COLYAR REPORTS.

A. S. Colyar, who became conspicuous locally when the dictograph sensation was sprung recently, was called in next by the grand jury. He was in the jury room only a few minutes. The jury called for Solicitor H. M. Dorsey, who reappeared at the door shortly afterward to announce that the grand jury wanted to examine G. C. Febuary, secretary of the city detective department, and N. A. Lanford, chief of that department, and that all other witnesses were excused until further notice. Mr. Febuary was summoned from police headquarters, and Chief Lanford was readmitted to the jury room.

Chief Lanford left the grand jury room about 1 o'clock, after having been inside for about half an hour.

At 1:30 o'clock Secretary G. C. Febuary, of the detective department, left the grand jury room. All that he would say was that the grand jury had asked hi mabout vice conditions and he could tell them nothing.

Solicitor Dorsey remained in conference with the jury.

TILT WITH COLYAR.

It was reported, after the grand jury adjourned, that a tile had occurred between Solicitor Dorsey and A. S. Colyar while the latter was being examined in the grand jury room.

After Colyar had answered several questions by the solicitor, the witness turned to the solicitor and demanded:

"Who are you?"

"Hugh M. Dorsey, solicitor general of the Pilton superior court, criminal division," answered Mr. Dorsey, with a smile.

"From your questions I thought you were Felder's attorney," remarked Colyar.

WILL EXPOSE DICTOGRAPH.

While at the court house, waiting to be called before the grand jury Thursday morning, Colonel Felder announced that on Saturday afternoon he would give out for publication a statement "exposing *all the ins and outs* and ups and downs" of the recent alleged dictograph episode.

"I've got all the facts. I know the whole affair, latitudinally, longitudinally and horizontally," declared he. "I am going to furnish to the Associated Press and all the newspapers for publication on Sunday morning the real inside of that miserable affair."

Colonel Felder intimated that he expected to show that A. S. Colyar obtained $500 for the part he played in the dictograph incident, and that the alleged dictograph records were doctored and forged.

GRAND JURY MEETS.

The Fulton county grand jury commenced the third session of its probe into vice conditions at 10 o'clock Thursday morning.

While the vice probe was far from complete when the session of the grand jury commenced, witnesses in the famous dictograph controversy were in attendance in the corridor of the grand jury room, and it was expected that this matter would be reached during the day.

The witnesses subpened in the dictograph controversy are Colonel T. B. Felder, who was dictographed; A. S. Colyar, G. C. Febuary, secretary to Chief Lanford, and two representatives of The Journal, which published exclusively the first dictograph record and the story of the controversy between *Mr. Felder and the police department.*

Among the witnesses summoned by the grand jury Thursday in connection with its vice investigation was Eva Clark, the woman Chief Beavers declares Mayor Woodward asked him to permit to move back to her old home, 95 Jenkins street. The Clark woman did not appear, however. She sent a physician's certificate to the effect that she was ill and unable to answer the summons Thursday.

The grand jury has not as yet entered into the investigation of alleged liquor traffic, either to the ordinary blind tigers, or to the disorderly houses. In fact, no systematic investigation of *the enforcement of the prohibition* law is expected by the present grand jury.

J. E. Skaggs, agent of the Southern Express county, denies emphatically that he was before the grand jury to tell of liquor shipments or anything else in connection with his company's business.

Mr. Skags was simply a witness to an occurrence, which the grand jury was investigating in connection with its probe of vice conditions and police affairs.

The whereabouts of George W. Gentry, the young stenographer, who took the dictograph records of the alleged conversation of Colonel Felder, Mayor James G. Woodward and Charles C. Jones, is a matter of interest since other witnesses in the dictograph affair have been summoned. Young Gentry disappeared more than a week ago, and while members of his family admit that they are in communication with him, they refuse to tell either police or reporters where he is. Colonel Felder, however, states that he has located *young Gentry, and intimates that* the young man has made a sensational affidavit to the effect that much not really said was written, under instructions, into the dictograph record.

Colonel Felder will not say whether or not young Gentry will be produced before the grand jury.

MEN'S OUTFITTERS AGREE ON SUMMER HALF HOLIDAY

Leading Dealers in Men's Clothing, Shoes, etc., to Close Wednesday

Beginning July 4, the leading outfitters in men's supplies in Atlanta will *give their employes a half holiday* each week, all shutting their doors every Wednesday at 1 o'clock for the rest of the day.

This was agreed Wednesday at a meeting held in the chamber of commerce rooms, where George Muse presided and Cloyd Parks, of the Parks-*Chambers-Hardwick company*, acted as secretary. The formal agreement was ratified by signatures Thursday morning.

This closing agreement includes all of the dealers in clothing, shoes, haberdashery, and men's outfitting generally, on Peachtree and Whitehall and on parts of Decatur street as follows:

Byck Brothers.
R. C. Black.
McCardle Shoe company.
Red Seal Shoe Shop.

Adler Brothers.

July 4 will be Friday. Thereafter the Wednesday closing will be observed during the months of July and August.

Wednesday is the day upon which the grocers and butchers of the city have agreed for their summer half-holidays until September 1.

SCHOOL BOARD HALTS VOTE, TO CHANGE RULE

Interesting "Coup" in Election of New Principal of Forrest Avenue School

Although the board of education, now busily engaged in electing teachers for *the next scholastic year, is holding* strictly executive sessions, the facts have leaked out concerning an interesting little "coup" in the board a day or so ago when the election of a principal of Forrest Avenue school came up.

The present principal of that school, Miss Hattie Speers, will resign at the close of this term (whic his Friday), and for some time there has been a lively contest for the place, in which a number of aspiring assistant principals, as well as teachers and principals, participated. Among these were Miss Helen Roddy, assistant principal of the Luckie Street school, and Miss Leila J. Garcia, assistant principal of Ivy Street school. Both have served as assistant principals for several years with good records and both were eligible to promotion.

When it came time for the board to elect a successor to Miss Speers, the superintendent of schools, William M. Slaton, was called on to nominate, there *being a rule of two years' standing* in the board which required that the superintendent should first nominate, and the board then elect, the board having authority to reject nomination but not to go outside of the superintendent's nomination.

Mr. Slaton nominated Miss Roddy. The vote of the board proceeded by roll call, and immediately it became evident that there was another strong candidate, as the vote to sustain the nomination was by no means unanimous. In fact, it stood five and five, and this made it necesary for the chairman, Colonel W. R. Daley, to break the tie.

Before casting his vote Colonel Daley took occasion to say a word of explanation. He said that while he thought the rule giving the superintendent the right to nominate was a good rule, nevertheless in certain cases he thought it would not be a bad policy for the board to ask the superintendent to submit more than one name, where more than one might be eligible and the choice, at best, was a close choice.

This was opening enough for the friends of the aforementioned "strong candidate," and Marcellus M. Anderson quickly took advantage of it.

"Then I move, Mr. Chairman," said he, "that the rule be amended and the *superintendent be asked to submit a* plural nomination," or words to that effect.

Of course Colonel Daley, having made the suggestion, could not well vote against the motion, and so it carried, six to five.

Then Superintendent Slaton came in with the name of Miss Garcia and the names of two others. On the first roll call Miss Garcia got five votes, Miss Roddy got four, and another nominee got two. Whereupon the last wo immediately changed their votes to Miss Garcia ,and she was elected.

Mayor Woodward protested vigorously, declaring it was an unheard-of parliamentary proceeding to stop a roll call and vote on an entirely new motion.

"If I had known what they were going to spring," he remarked afterward, "I would before going to the board, have signed the ordinance passed by council last Monday, thereby making it a law, and they couldn't have changed the rule. Not that I have a word to say against Miss Garcia, but I didn't approve of that way of doing business."

The ordinance referred to by the mayor is the Nutting ordinance, which gives the heads of the departments the right and requires them to nominate the subordinates in their departments, and does not allow the leeway of a plural nomination.

$56,600 COLLECTED BY LAWYER ON NEAR-BEER

Attorney Bell, for State, Gets Taxes From All but Three

Clarence Bell, of the law firm of Bell & Ellis, announces that all the near-*beer dealers whom he was appointed by* the state to collect 1913 taxes from a few months ago, have paid up with the exception of three, making a total of $56,600 he has collected.

These three, he stated, are Ire Morris, E. M. Cason and J. M. Parrish. Indictments charging them with misdemeanors have been returned by the grand jury, but Solicitor Dorsey states that they will not be prosecuted if they pay the tax and the costs of the indictments at once.

The collection of taxes form delinquent near-beer dealers, always a difficult task, has been solved this year by the state, in this county, owing largely to the efforts of Mr. Bell. The appointment of a local lawyer as collector was a scheme never tried by the state before, and officials state that they are highly pleased with the result of it.

In the short space of time given him to collect the taxes Mr. Bell has made 170 out of 173 dealers in the county pay the 1913 tax. Eight of these pay a wholesale tax of $1,000 yearly, the remainder paying a retail tax og $300 yearly. With $8,000 from the wholesale dealers and $48,600 from the retail dealers the total amount Mr. Bell has collected for the state is $56,600.

In connection with licenses for the near-beer edalers, Mr. Bell brings up the point that there are now before the city council several petitions to transfer licenses from one man to another. Mr. Bell says that in the event of a transfer the city will not force the new dealer to pay a second tax, but that the state tax is not transferable.

The senator furnished the names of many manufacturers and attorneys who have appeared before his subcommittee and made arguments concerning the tariff schedules it is considering.

He stated that, at his request, Fuller E. Callaway, of LaGrange, who is the president of several cotton mills, came to his residence in Washington to explain the cotton schedule. Mr. Callaway was accompanied by Louis Parker, a South Carolina mill man. He said that he had great confidence in Callaway's business ability and knowledge, and added that Callaway was a firm believer in a reduction of the duties on cotton goods.

BANKRUPTCY PETITION.

An involuntary bankruptcy petition was brought by the William F. Denovan Provision company, Inc., and others against the C. S. Wyatt company, doing business as "Wyatts C. O. D." The creditors hold claims aggregating $1,000 or more.

The Navy as a School.

Secretary Daniels has conceived the admirable idea of making the American navy a great educational institution that will be of practical service in times of peace as well as a defense in the event of war. He would make each battleship a school in which the enlisted men could acquire knowledge and training that would equip them not only for efficient service in an hour of national need but also for useful and gainful occupations in the work-a-day walks of life. This broad and progressive policy, if carried into effect, will beget a more generous interest in the affairs of the navy among all citizens, it will attract to the service a greater number and a higher average of young men and will also, as a natural result of these two factors, upbuild the navy itself.

"My ambition," says the Secretary, "is to make the navy a vital university, with college extension, high school extension and primary extension all on board ship." This is a suggestion which both the extreme advocates of disarmament and the reckless gossips of jingoism will do well to ponder. The Secretary says further: "Every ship would be a school and every officer should be a schoolmaster. After young men enlist, they should be assigned to a regular course and should elect whether they will study engineering, electricity or any other subject. In addition, there should be primary instruction, conducted by the younger officers." That is to say, the navy should afford those who enter its service an opportunity to make themselves better citizens, more successful citizens; *should fit them for service in peace as well as* in the remote contingencies of war.

Thus conducted, the navy would no longer impress the average man as being simply a huge machine designed and maintained for emergencies which everyone hopes may never arise or as something apart from the daily interests of the people; but as a vital, practical agency working for the *betterment of thousands* of young men and for the immediate advantage of the country's common life. The people would feel that every dollar appropriated to the navy would be yielding a substantial return; they would regard the navy in the light of its present and constructive values and would support it accordingly.

Cattle Raising for the South.

The fact that it has been often repeated does not lessen the value of timeliness of the suggestion in a recent bulletin by the federal Department of Agriculture that the South should develop its rich natural resources as a cattle raising country. Viewing this matter from a national standpoint, *the Department* urges the necessity of conserving our meat supply and of taking steps to increase it; for, we are told, there has been a decline of more than thirty per cent in the number of beef cattle in the United States during the past six years, while at the same time there has been a rapid growth of population and *the demand for meat.*

It is to the South that the country looks for a large portion of its future beef supply. Many States of this section, Georgia among them, are peculiarly well adapted by climate and soil to the cattle raising industry. There are vast areas of land capable of producing the grasses and grains that are needed for food. The mild winters *reduce to a minimum* the cost of housing and feeding. It only remains for our farmers to realize and turn to account their rare opportunities in this profitable field; and there are cheering indications that they are steadily doing so.

The first step toward making the South a cattle producing country is, as *the Department* of Agriculture points out, the elimination of the cattle tick. A number of Georgia counties have recently concentrated their efforts upon this important work and have achieved highly gratifying results. The federal quarantine is being lifted as rapidly as conditions permit and the farmers of each district have within their power *to determine what the condi-* shall be.

Atlanta's Financial Problem.

That Atlanta is in urgent need of a more elastic system of municipal finance, no one familiar with present conditions can doubt. The city is growing, as it has been for years, by leaps and bounds and the demands upon each of its departments are accordingly increasing in both number and magnitude. Current expenses are heavier, special tasks are more imperative, public interests of all kinds call for more watchful and more liberal attention. Until the recent decision of the Supreme Court in the crematory case, it was possible for Council to tide over emergencies by relying upon its successors in office to take care of certain debts incurred in times of pressing need; the city was thus enabled to secure improvements for which there were no available funds and to pay for them gradually without embarrassment to the treasury. But since the Court has ruled that under the terms of the present charter the city can do no business whatsoever on a basis of moral obligation, this convenient plan can no longer be employed. We must now pay as we go; and that means that as conditions are we must proceed by slow inches, a pace to which Atlanta never has, and we may add, never will be accustomed. Hence the vital need of some practical plan by which more money for public improvements will be made available.

It has been suggested in this connection that the Legislature be applied to for a constitutional *amendment whereby the present methods of securing* bond issues may be made more flexible. No Georgia town or city is now permitted to issue bonds except upon the consent of two-thirds of all its registered voters, a requirement which makes the popular indorsement of a bond issue extremely difficult to obtain. It is proposed to seek a constitutional amendment authorizing the issuance of bonds by municipalities of more than one hundred thousand population where two-thirds of the citizens voting give their approval. That would apply in practice of course to Atlanta alone. This plan, its advocates contend, would remove the serious obstacles now in the way of an Atlanta bond issue, *since the number of votes required for such an issue* would be greatly reduced, and would thereby clear the path for sorely needed municipal improvements.

Without discussing the seasonableness or advisability of a large bond issue in Atlanta at the present time, it should be said that this plan, however commendable in certain respects it may be, at least demands the most cautious consideration. Bond issues constitute a debt of long duration. They are intended to meet needs which are not only urgent but also general in character and which cannot be met by any other practicable plan. It would seem, therefore, that we should exhaust every other means of providing for the special improvements now clamoring for attention, such as the building of school houses, the betterment of hospitals and the regrading or widening of streets, before we resort to the issuance of bonds. And this may be said without prejudice to the merits of a bond issue which circumstances would justify.

Some days ago The Journal suggested that the city charter be so amended as to permit Council, under rigid restrictions, to incur a municipal debt extending beyond a current year; that is to say, to legalize the method heretofore employed with general satisfaction but now declared technically illegal. It was by this method that many of our large improvements have been made, such for instance as the installation of a waterworks pump, the building of the Auditorium and the purchase of the new City Hall. The privilege of incurring such obligations has not been abused in the past and, if hedged about with strict safeguards, it would not be abused in the future. Any amendment to this effect should, of course, specify very carefully that no debt should be made except under conditions of grave public necessity, for improvements which the community demanded and which could not be advisedly postponed; and the amount of such a debt should be limited to, say, two hundred and fifty thousand dollars.

It seems probable that this plan would require a constitutional as well as a charter amendment. But that would be no more difficult to obtain than the other constitutional amendment proposed with reference to bond issues. Yet, it would have distinct advantages as compared with the bond issue plan. For one thing, it would be more easily available and at the same time it would entail lighter burdens upon the city's income. It would mean comparatively small and short-term debts instead of large and long-term obligations such as a bond issue would imply. It could be so employed as to meet the urgent, special needs of a particular situation without involving the city's credit for long years to come. For these reasons, it appears more feasible than the bond proposal.

Any such methods, as we have said, should be placed absolutely beyond the possibility of abuse. Council should never be authorized to incur *overlapping* obligations except under rigidly specified conditions of urgent public need for improvements which could not otherwise be made. But if duly safeguarded, as it could be, this plan, we believe, would do much to solve the city's financial problems and enable Atlanta to move forward at its old triumphant pace.

THE TREE OF TREES

BY DR. FRANK CRANE.

(Copyright, 1913, by Frank Crane.)

I have never been there, but I want to go: to the country of Mexico, to the town of Oaxaca, thence east two and a half leagues to the village of Santa Maria del Tule, and *there* in the graveyard to look upon a Tree, the oldest known living thing on the planet, to sit in its shelter, to put my hand upon its trunk, to feel its shade penetrate my soul with such a sense of years as no other terrestrial object can give.

If I were a heathen man I should worship not only the Sun but the Tree. Of all plant life the Tree seems nearest man.

At the traditional beginning of human existence is the Tree of Knowledge in the Garden of Eden; at the end the Tree of Life in Heaven.

The Tree is man's storehouse, furnishing him with shelter, food, building material, furniture and weapons. It is mankind's oldest friend.

Victor Hugo points out how the river with its tributaries is made upon the pattern of the Tree with its branches. Look at your map and see the Treelike lines of the Amazon and the Mississippi.

It heard from the winds the stories of the rise and fall of Babylon, Ninevah, and the obliterated civilization of Yucatan.

Primeval monsters have lounged in its shade, apeman have fought beside it, its memory goes back to where there were no men.

Long, silent ages it lived before the Norsemen ever saw the New World, or Columbus sighted its islands, or Cortez butchered its inhabitants. But it was old when Europe was a wilderness and England a savage isle.

It is older than any monument made by human hands: beside it the pyramids are young, the temples of Karnak and Luxor, even the sculptured bricks of Birs Nimrod.

The giant sequoias of California were found by John Muir to have lived but 4,000 years, mere babes compared to the cypress of Santa Maria del Tule.

Life, so ephemeral and fluctuating a thing, has here its strangest home, an organism that outspans the history of a race.

About it go the insects that live but a day and the human creatures that may live fourscore years; to the Tree they seem the same.

Some years I shall go there. I shall linger under its branches to see if I can hear in its sighing leaves some whisper of eternity. I shall touch its bark, and it will seem as if I had clasped the rugged hand to one of the demiurges who helped make the world. My heart shall feed upon the centuries. Time and the small concerns of my life will drop from me as a garment and I shall feel the thrill of that *saying,* "From everlasting to everlasting."

That is why I want some time to go to Mexico and to Oaxaca, thence east two leagues and a half to Santa Maria del Tule, and to the graveyard there, and to the Tree of trees.

What Busy Men Read

(Washington Post.)

It is easy to understand why the judge at Marquette, Mich., after listening to so much dry, very dry testimony in the Roosevelt libel suit, should turn naturally to dime novels for recreation. Caught in his chambers behind the bench, before the time for opening of court, the judge frankly read from the book in his hand.

And piercing him with his keen eyes, Count de Gama tossed his revolver on the ground, and turned away contemptuously, his proud lip curled upward in a sneer.

Who, after reading that exciting extract, would not want to follow further the adventures of the nonchalant count? Who would not want *to discover the* identity of his opponent and how the fellow turned out in the end?

Men of action usually like to read of other men in action. Representative Underwood confesses to a strong liking for detective stories, and *so does "Uncle* Joe" Cannon. J. Pierpont Morgan, on his trips to Europe, usually took with him the latest batch of popular detective stories.

Reading serves two useful ends—education and recreation. When the two can be combined, *the result* is highly satisfactory. Educational reading, however, requires a certain amount of concentration and brain work, and for this reason many men who work long hours seek a lighter form of literature when they desire recreation.

Probably the principal reason why the writers of the United States are not turning out the kind of literature that marked the days of Hawthorne and Emerson is that the life we are leading is very swift and active, and men and women do not care *to give to* books the degree of concentration formerly given. The demand regulates to a large extent the quality as well as the quantity of literature, and this, in a different field, may become so popular. Everything is done nowadays for the "tired business man," because catering to the bookworm is not profitable.

If the day ever comes when our life is less strenuous, we may have at the same time a renaissance of literature.

JUST SMILES

A German, whose first name is August runs a saloon in Sioux City. One day last June the landlord called to collect the rent and before leaving said:

"Say, August, after the first day of July I'll have to charge you $15 a month more than you are paying now. The paving of this street has cost me a good deal and now the gas company is raising its rates, and I've got got to have more rent."

"Vell," said August, "that's all right."

A little later the barkeeper came over to August's desk and said:

"Say, August, the cost of living is goin' up so fast that I gotta have more wages. After the first of July I want $10 more a month."

"Vell," said August, "I guess that will be all right."

The next day the representative of the brewery called to collect for the beer and when he was writing the receipt he said:

"Say, August, hops is darned scarce this year and after the first of July we've got to have $1.25 a barrel more for the suds."

"Vell," said patient August," I guess that is all *right.*"

August sat and figured a little while, then took his hat and went out. Pretty soon he returned with a new sign, which he hung over the bar—and this is what it contained:

"After the first of July will be the last of August!"

WEIGHTS AND MEASURES

VII. Keeping the Standards.

BY FREDERIC J. HASKIN.

While most of the legislation looking toward the standardization of weights and measures seem to be directed against the seller, it must not be inferred that the interests of the dealer are overlooked. It is well known that in many of the instances of false weights being proved against the dealer, he may be quite innocent of any dishonest intention. He has used the scales and measures furnished to him, for which, in many cases, he has paid a good price, and he has personally no means of testing their reliability. When he is convicted of giving short weight or measure he may be made to suffer unjustly in two ways.

• • •

If his conviction becomes known, and there is a tendency to have such occurrences given as much publicity as possible for the protection of the buying public, he suffers a loss of public confidence, a quality absolutely essential to his business, and for which no financial rating is equivalent. Many dealers throughout the country have been forced into bankruptcy within the past five years as a result. In many cases these dealers had been as greatly imposed upon as the customers who received short measure or weight. His second loss is in the confiscation of his scales.

• • •

The average dealer has no means of knowing when the scales he purchases are accurate. He has only the maker's word for that. It is quite possible for him to *pay $100 or more for a fine looking instrument* which will look well upon his counter, and at the same time be so inaccurate in weight as to excite the positive indignation of the first sealer or weight inspector who visits his store. The scale is promptly confiscated and the dealer *is not reimbursed for the money* it cost him. There is a probability amounting to a certainty in some of the more progressive states, that he may also be heavily fined for having an incorrect scale in his possession. With the public clamor against incorrect weights and *the number of inaccurate scales upon* the market, the poor dealer stands as a man between two fires either of which may be sufficient to consume him.

• • •

For the protection of the dealers the conference of weights and standards, the membership of which includes the official sealers of most of the larger cities, as well as state and national officials interested in the subject of weights and measures, are recommending the enactment of a national law providing a heavy penalty for the manufacture and sale of scales or measures which fall short of the correct standards. It is known to the government officials dealing with this matter that many scales are sold which do not bear the name of the maker because they are known to be inaccurate and the manufacturer, having a good reputation, does not desire to endanger it. At the same time he does not wish to lose the sales called forth by the demand for cheap scales, and so he floods the market with instruments he knows to be incorrect, and the credulous dealer who buys them pays the penalty. At present there is no law penalizing the manufacturer of short weight scales.

• • •

It is also claimed that scales are a commodity in which it is especially desirable that the manufacturer's name should appear in order that he and not the man using them, may be held responsible for their defects. If a dealer buys a scale bearing *the manufacturer's* guarantee he is protected. This is a matter in which the better class of scale manufacturers are becoming much interested. At the last conference of weights and measures, representatives of the more important scale manufacturing firms were in attendance and evidenced their desire to bring the standards of their instruments up to the required accuracy both for the protection of the dealers who rely upon them and for their own business credit. The testing of scales by the bureau of standards has become an important feature of its work. All of the scales used for any public work under the direction of the United States government are tested gratuitously, but the services of the bureau also are available to any manufacturer willing to pay a small fee to have an instrument tested.

• • •

One of the matters brought to the notice of the officers interested in false weights is that scales are purchased with reference to their attractive appearance rather than to their scientific accuracy. A plain, undecorated instrument in many cases will weigh more accurately than a highly decorated one sold at a higher price. The sealers in cities and counties can be trusted in most cases to determine the value of a scale before its purchase, and the trifling fee which a dealer may pay to secure this protection may be well expended.

• • •

Frequently a scale may change *its register after a* period of use and for this reason it is desirable that the sealer inspect it each three months, as is required by the new laws passed in some of the states. This frequent inspection is as great a protection to the dealer as it is to the buyer, as it renews the *seal testifying* to the accuracy of his scale. In the matter of measures there is little if any variance from use but a great difference exists in the contents of measures supplied by different manufacturers, and it behooves the dealer to know that he is securing those having the required number of cubic inches. What the standard requirements are for each sort of measure can easily be ascertained either from the official sealers, in a locality where they exist, or through the state departments of weights and measures.

• • •

The matter of barrels, baskets and other wrappings constitute another means by which the dealer may be imposed upon by the manufacturer. The content of a barrel has been varied in *the different states, but the* bill introduced in congress by Representative Tuttle, of New Jersey, contains the dimensions of the standard barrel, and dealers can assure themselves that they are securing this not only for their own use but that goods purchased by them *for retailing in smaller* quantities are delivered in barrels measuring up to the required capacity. The barrel fixed in Mr. Tuttle's bill is designed for fruit, vegetables and other commodities other than cranberries. Just why these last should be exempted was not *apparent to the confer*ence of weights and measures which indorsed the bill last month. The length of the stave of this proposed standard barrel is twenty-eight and one-half inches. Its diameter at its head should be seventeen and one-quarter inches and the distance between *the heads* twenty-six inches. The cubic inches should be sixty-four inches. Any barrel having a capacity of 7,056 cubic inches should be recognized as standard, whatever its form.

• • •

The question of uniformity in the measures and weights between the different states is a matter which frequently has caused much loss to the dealer which he in turn was obliged to pass on to the consumer. If a dealer in Ohio buys potatoes *from Pennsylvania* he receives only fifty-six pounds to the bushel, but when he sells them in his own state he is obliged to give sixty pounds, because that is the weight required by the Ohio law for that commodity. Some commodities have had their weight *per bushel fixed by law* in a number of states, and others have it only in one or two. The bureau of standards last year prepared a list of eighty-four commodities which have had bushel weights widely adopted. Beans vary from fifty-five pounds in Arizona to *sixty-two in Vermont.* Beets range anywhere from fifty to sixty pounds per bushel, according to the locality, buckwheat from forty-two to fifty-two, and corn from fifty-four to seventy.

A DREAM OF FAIR COOKS.

II.

The Plan.

O mendacious maid and shameless,
Vowed to come a week ago,
I must lyricise you nameless,
For your name I do not know.

Guileless, I have no suspicion
Some one else might be a crook;
You Accepted that Position
And I said: "We have a cook."

When, a Danish damsel scorning,
On yourself we did decide,
And you said: "On Monday morning,"
Little did I think you lied.

Nine o'clock—ten—and eleven—
At the memory reason spins!
You came not. . . . I cried to heaven:
"Vent my fury on the Finns!"

Wrathful penned I this indenture,
Frenzied wrote this angry screed
At your perfidy. I'll venture
Eight to five you cannot read.

WALTER RICH PRIZES FOR YARDS BEAUTIFUL

Davis Street, English Avenue and Edgewood Schools Given Awards

Prizes offered by Walter Rich, of the board of education, for the prettiest public school yard in the city were awarded to the Davis street school, English avenue school and Edgewood avenue school Thursday by a committee of four ladies of the Atlanta Art association, selected as judges.

The committee, composed of Mrs. Joe Moody, chairman; Mrs. Haralson Bleckley, Mrs. Edgar Neely and Mrs. Harry Barnard Scott, visited the three school buildings Thursday morning and announced the result of their decision.

Davis street school was awarded the $50 prize for the school showing the greatest improvement in the ground. English avenue school got the $50 reward for exhibiting the most artistic yard, and Edgewood avenue school was given a special prize for general excellence. The prize given to the Edgewood school was in the nature of double reward for this school, by the improvement made in the grounds last year, was barred from the contest.

The committee of the art association, appointed by Mrs. Sam Inman, president, visited the public schools several times within the past few weeks and carefully inspected the yards for the improvement which had been made and the artistic effects obtained. The awards Thursday resulted directly from these visits.

PRINCIPALS CONGRATULATED.

The ladies extended warm congratulations to Miss Julia Riordan, principal of the Davis street school, for the marvelous work done this spring by her pupils. Under the direction of Miss Riordan the school children changed the appearance of the yard completely. What had been a bare expanse of gravel became a pretty little garden of flowers and shrubs.

English avenue school yard appealed to the members of the committee at once as the most artistic. Miss Lula Singleterry, the school's principal, in entering her pupils for the Rich prizes, strove for beautiful effects and her efforts and those of the children proved most successful. English avenue school received a unanimous verdict.

Miss Ora Stamps, principal of the Edgewood school—the school that made its yard so beautiful last year that it had to be barred from the contest this year—was commended for the manner in which the Edgewood plot had been improved and beautified.

MUCH INTEREST AROUSED.

Other schools in the city, visited by the committee of the art association were congratulated on the improvement which had been made and were encouraged to strive for the prizes to be offered next year.

It was the opinion of the members of the committee that the stimulation resulting from the prize offers is having a marked effect on the effort to make Atlanta public school yards beautiful.

NEGRO COOK SAID TO HAVE REPUDIATED HER AFFIDAVIT

Servant at L. M. Frank's Home Says Document Is "a Pack of Lies"

Minola McKnight, the negro cook at the home of Leo M. Frank, is quoted Thursday as having repudiated the affidavit which the detectives claim to have obtained from her on Tuesday afternoon.

"It's all a pack of lies," the woman is said to have charged, "the detectives read me some kind of a statement, for I can't read myself. I never signed the paper. I never had a pen or pencil in my hand."

The negro woman is also quoted as having denied that she had a lawyer or that she even knew Attorney George Gordon, who was said to be representing her. "I ain't got no lawyer 'cept God," she is said to have declared, "and I don't need no lawyer."

Albert McKnight, the woman's husband, is also alleged to have corroborated his wife's denials.

"MY HUSBAND IS INNOCENT," SAYS MRS. LEO FRANK

(Continued From Page 1.)

husband is a man actuated by lofty ideals that forbid his committing the crime that the detectives and the solicitor are seeking to fasten upon him.

"I know my husband is innocent. No man could make the good husband to a woman that he has been to me and be a criminal. All his acquaintances know he is innocent. Ask every man that knows him and see if you can find one that will believe he is guilty. If he were guilty, does it not seem reasonable that you could find some one who knows him that will say he believes him guilty?

"Being a woman, I do not understand the tricks and arts of detectives and prosecuting officers, but I do know Leo Frank and his friends know him, and I know and his friends know that he is utterly incapable of comitting the crime that these detectives and this solicitor are seeking to fasten upon him. Respectfully yours,

"MRS. LEO M. FRANK."

Dorsey Denies Having "Sweated" Negro Cook

Solicitor Dorsey, when acquainted with Mrs. Frank's statement said:

"The McKnight affidavit was not made in my office and was not made at my direction. Minola McKnight, the negro cook of the Seligs and Franks, was not 'sweated' while she was in my office, nor was she 'sweated' anywhere else that I know. Merely she was confronted here with her husband."

Forecast—

Georgia, North Carolina, South Carolina and Alabama: Fair tonight and Saturday.

Kentucky: Local showers tonight and Friday.

Tennessee: Showers tonight and Friday; increasing cloudiness; not much change in temperature; light variable winds on the coast.

Arkansas, Oklahoma and West Texas: Tonight and Friday unsettled.

Louisiana: Tonight and Friday generally cloudy; light southerly winds on the coast.

Tennessee: Showers tonight and Friday.

Mississippi: Fair tonight and Friday.

Texas: Warmer tonight; Saturday fair. Marsh, Hentz, Myers, Montgomery selling.

A very favorable week for cotton from San Antonio, Texas, on. We are certainly having growing weather here for cotton, and where it is not growing it is because the cotton is doing nicely. There is a section including all the country between Austin and Houston where we have had a little too much rain. We have had ample rain since then, however, and the cotton crops are doing extremely well and practically perfect, fields clean and well cultivated, and while a little late, early enough to mature fully, and a week more or clear weather to complete chopping out, could scarcely be more favorable.

STOCK GOSSIP

Dow Jones' summary: Bank of England rate unchanged at 4 per cent. The attorney general says there has been no real dissolution of tobacco trust, and that the supreme court will not consent to reopening of the case. Japan remonstrates to federal officials against recent decisions to test California alien land law. Suit filed to demand appointment of treatment by United States. GRAIN GOSSIP

Bartlett, Frazier & Co. says: Wheat—The bearish feeling which was prevalent at the close yesterday should probably find further expression today, according to account of rains and a lower market will doubtless rule. We would advise caution, however, against selling the short side on weak spots.

Corn—On any weakness the present prices we believe the market will meet good buying again on the part of those holders who liquidated yesterday on the decline.

Oats—The edge seems to be off the market for the present, although there is a good class of buying on the decline yesterday.

Snow-wise Bros. says: Oats crop east third of state a failure. Corn being cultivated, stand unusually good and crop starting well.

Inglis wires from Enid, Okla., June 5: "All western Kansas believe much more than I reported. Scattered showers last evening no benefit to wheat. About half that section will be light it will blow out from machine if they thresh it. Most farmers say they will feed much threshing."

Topeka, Kans., wires: Central and eastern Kansas received a wetting last night. West and southern sections had good showers. Saturday and Sunday will be Monday. Manhattan, half inch. First rain in Topeka district in 17 days.

Dakotas fair, balance of grain belt unsettled with showers, warmer.

Northwestern: Scattered showers ranging from .04 to .42. North Dakota had scattered showers from .08 to .65.

Lyle wires from Topeka, Kans., June 4: "From Northerson: wheat in good shape and only small damage from heat and insects, will make good crop, been no important rainfall in Kansas since April 1st, and prospects are fair below the May normal."

HAYWARD & CLARK COTTON LETTER.

NEW ORLEANS, La., June 5.—Financial organs take a very unfavorable view of the financial situation and outlook both in this country and abroad. English consols fell 5-16 today. Political news is also worse. London says that, contrary to hopes, the cabinet crisis in Portugal turns out to be against peace prospects.

The weather map presents very favorable conditions. Warm night temperatures; fair in the south central belt; partly cloudy elsewhere. Nice rains have fallen in Texas; also in parts of Oklahoma, Arkansas, Alabama and the Atlantic. Indications are for more showers, cooler in the western states; Arkansas, Tennessee, north Alabama, north Mississippi, Alabama and the Atlantics and developments are for more general rains on Sunday.

Liverpool was better than due, particularly on new crops, which result must be attributed to the low bureau report estimating further planting by consumers of new crop hedges.

Liverpool spot sales higher, about 10,000. We opened at about unchanged prices, but sellers were scarce in consequence of indications that favorable rains would be general. There are no signs of certain operators in New York to force the market on bullish developments. Weather is quickly ruled five points on very little buying. One of our most reliable Georgia correspondents writes from Georgia that they do not agree with the generally prevailing condition report for that state. The reports of high temperatures, the drought in Texas and Oklahoma circulated today are absolutely without foundation. Government records show an average for Texas of only .04 inch rainfall for May, and .02 inch with 100 degrees, whereas in the big crop year temperatures were .02 inch and 100 degrees. Into sight for the week looks around 45,000, against 46,000 last year. Compare with mill takings of 242,000 for this week.—Hayward.

NEW YORK COTTON LETTER

NEW YORK, June 5.—The principal feature of the market again today was the buying of July evidently for spot interests. This brought out a good deal of the new crop and an advance followed but the volume of business has been small. The market is very easily influenced. Weather conditions continue favorable and there is talk of rains being needed in Texas. Sentiment becoming more friendly to the market and with any change in conditions from just now we might see a fair rally.—Anderson.

INTERESTING NEWS AND GOSSIP OF THE MARKETS

Weather Reports, Crop Advices Expert Opinions and Newspaper Comment

COTTON GOSSIP

Times-Democrat says: New Orleans declined another New York point on the theory that the practical restoration of the parity between the two markets existing prior to Friday last, the bears made no headway. Most everybody is bearish on favorable weather, but in spite of the fact that the bears have predicted lower prices since ever since last winter, the market continues to move against them. In short, it is the actual stuff holding its own in a confidence generating manner. Nevertheless, the weekend, for the bear party are feeling with increasing assurance, about the splendor of the crop prospects, the rapid progress being made, and the favorableness of the weather when contrasted with the unfavorable April and May period, and they now go even so far as to prophesy a very early large movement of new cotton. The bull element so far in evidence was busily engaged in proving to the world that, while the chances for a large crop had not been destroyed by cold weather and by dry weather, the necessity for replanting had developed all over the belt for an early maturing crop.

Map excellent, shows fair south central belt, partly cloudy elsewhere; nice scattered rains northwest Texas, parts of Oklahoma, Arkansas, Alabama and Atlantics; warm, favorable. Indications are for rain, cool western states, Arkansas, north Louisiana, north Mississippi, Alabama and Atlantics.

Forecast—

Georgia, North Carolina, South Carolina and Alabama: Fair tonight and Saturday.

Kentucky: Local showers tonight and Friday.

Tennessee: Showers tonight and Friday; increasing cloudiness; not much change in temperature; light variable winds on the coast.

Arkansas, Oklahoma and West Texas: Tonight and Friday unsettled.

Louisiana: Tonight and Friday generally cloudy; light southerly winds on the coast.

Tennessee: Showers tonight and Friday.

Mississippi: Fair tonight and Friday.

Texas: Warmer tonight; Saturday fair. Marsh, Hentz, Myers, Montgomery selling.

A very favorable week for cotton from San Antonio, Texas, on. We are certainly having growing weather here for cotton, and where it is not growing it is because the cotton is doing nicely. There is a section including all the country between Austin and Houston where we have had a little too much rain. We have had ample rain since then, however, and the cotton crops are doing extremely well and practically perfect, fields clean and well cultivated, and while a little late, early enough to mature fully, and a week more or clear weather to complete chopping out, could scarcely be more favorable.

STOCK GOSSIP

Dow Jones' summary: Bank of England rate unchanged at 4 per cent. The attorney general says there has been no real dissolution of tobacco trust, and that the supreme court will not consent to reopening of the case. Japan remonstrates to federal officials against recent decisions to test California alien land law. Suit filed to demand appointment of treatment by United States. Special meeting of stockholders called for Monday of company call on proposed stock increase from $10,000,000 to $75,000,000. Treasury statement Friday: Net ...ciffe, estimates $500,000 increase in deposits ...June. Twelve industrials declined 1.01; twenty active rails declined 1 per cent.

London prices would indicate that more tight ...dation will follow, foreign holders of American securities. Believe the big interests will support stocks on any weakness. Look for early ...ery and bring about a moderate recovery.—Potter.

GRAIN GOSSIP

Bartlett, Frazier & Co. says: Wheat—The bearish feeling which was prevalent at the close yesterday should probably find further expression today, according to account of rains and a lower market will doubtless rule. We would advise caution, however, against selling the short side on weak spots.

Corn—On any weakness the present prices we believe the market will meet good buying again on the part of those holders who liquidated yesterday on the decline.

Oats—The edge seems to be off the market for the present, although there is a good class of buying on the decline yesterday.

Snow-wise Bros. says: Oats crop east third of state a failure. Corn being cultivated, stand unusually good and crop starting well.

Inglis wires from Enid, Okla., June 5: "All western Kansas believe much more than I reported. Scattered showers last evening no benefit to wheat. About half that section will be light it will blow out from machine if they thresh it. Most farmers say they will feed much threshing."

Topeka, Kans., wires: Central and eastern Kansas received a wetting last night. West and southern sections had good showers. Saturday and Sunday will be Monday. Manhattan, half inch. First rain in Topeka district in 17 days.

Dakotas fair, balance of grain belt unsettled with showers, warmer.

Northwestern: Scattered showers ranging from .04 to .42. North Dakota had scattered showers from .08 to .65.

Lyle wires from Topeka, Kans., June 4: "From Northerson: wheat in good shape and only small damage from heat and insects, will make good crop, been no important rainfall in Kansas since April 1st, and prospects are fair below the May normal."

HAYWARD & CLARK COTTON LETTER.

NEW ORLEANS, La., June 5.—Financial organs take a very unfavorable view of the financial situation and outlook both in this country and abroad. English consols fell 5-16 today. Political news is also worse. London says that, contrary to hopes, the cabinet crisis in Portugal turns out to be against peace prospects.

The weather map presents very favorable conditions. Warm night temperatures; fair in the south central belt; partly cloudy elsewhere. Nice rains have fallen in Texas; also in parts of Oklahoma, Arkansas, Alabama and the Atlantic. Indications are for more showers, cooler in the western states; Arkansas, Tennessee, north Alabama, north Mississippi, Alabama and the Atlantics and developments are for more general rains on Sunday.

Liverpool was better than due, particularly on new crops, which result must be attributed to the low bureau report estimating further planting by consumers of new crop hedges.

Liverpool spot sales higher, about 10,000. We opened at about unchanged prices, but sellers were scarce in consequence of indications that favorable rains would be general. There are no signs of certain operators in New York to force the market on bullish developments. Weather is quickly ruled five points on very little buying. One of our most reliable Georgia correspondents writes from Georgia that they do not agree with the generally prevailing condition report for that state. The reports of high temperatures, the drought in Texas and Oklahoma circulated today are absolutely without foundation. Government records show an average for Texas of only .04 inch rainfall for May, and .02 inch with 100 degrees, whereas in the big crop year temperatures were .02 inch and 100 degrees. Into sight for the week looks around 45,000, against 46,000 last year. Compare with mill takings of 242,000 for this week.—Hayward.

NEW YORK COTTON LETTER

NEW YORK, June 5.—The principal feature of the market again today was the buying of July evidently for spot interests. This brought out a good deal of the new crop and an advance followed but the volume of business has been small. The market is very easily influenced. Weather conditions continue favorable and there is talk of rains being needed in Texas. Sentiment becoming more friendly to the market and with any change in conditions from just now we might see a fair rally.—Anderson.

RAIDING TACTICS RESUMED BY BEARS IN AFTERNOON

Large Blocks of Stocks Were Thrown on Market Causing Prices to Crumble

(By Associated Press.)

NEW YORK, June 5.—Selling of many stocks on a large scale was commenced at the opening today and many new low records were reached. Large blocks of Steel, Reading and Union Pacific loaded. The principal losses were: Colorado Fuel 2¾; Canadian Pacific 2; Best Sugar 1¾; Amalgamated Copper 1¾; Erie and Baltimore and Ohio 1¼; Great Northern Ore, Anaconda, Steel, Louisville, St. Paul, Northern Pacific, Great Northern preferred, Reading, Can, Amalgamated and General Electric 1. After the first rush of selling orders in the market rallied.

Evidence of support under the outpouring of selling orders at the outset created a better feeling in speculative circles and there was more general buying for long account. Bears covered freely and the combined effect of these purchases soon lifted the market above yesterday's closing figures.

The course of stocks during the morning indicated that the bearish movement in the market recently had been arrested.

London sold about 25,000 shares at the opening, chiefly Amalgamated, Steel and Union Pacific. This selling was largely responsible for the early break. Within the first few minutes, although bear speculators helped along the decline until they thought that stocks were being taken by substantial interests.

The inquiry was better, as the recovery extended and the market buying orders of an investment character. The demand, Anaconda, Steel, Reading and trading tapered out on the recovery.

Prices continued to rise during the morning, despite the weakness of the Petroleum stocks, Can and Smelting preferred, the latter losing 2 points.

Bonds heavy.

Raiding tactics were resumed by the bears who threw large blocks of stocks on the market causing prices to crumble. Amalgamated, Smelting and Steel bore the brunt of the attack, the latter declining 2¾ to 61¼, a new low record. Hasty support was extended and the list rallied promptly and quickly 1¾ to 1¾.

Liquidation which has been temporarily suspended in certain sections of the market during the forenoon caused the standard stocks to again give way under violence. This developed into a rout in the art cernon break were sold again but prices did not yield to the previous low level. The market closed dull and heavy.

Bonds were irregular. Total sales in the aftermath of the selling

JAMESON IS CHEERED AS HE TELLS MERCER GOODBYE

Retiring President Given Big Ovation—New Officers Are Named

(Special Dispatch to The Journal.)
MACON, Ga., June 5.—Judge J. G. McCall, of Quitman, was elected president of the board of trustes of Mercer university yesterday afternoon to succeed Dr. E. C. Dargan, who resigned in order to surrender his constitutional rights as a member of the prudential committee.

Dr. G. W. Garner, of Macon, was elected secretary of the board to succeed R. N. Jelks, who gave the same reasons for resigning as did Dr. Dargan. Both Dr. Dargan and Mr. Jelks retain positions as members of the board of trustees, but neither is now a member of the prudential committee.

The board elected Prof. J. F. Sellars, a member of the faculty, as temporary president of Mercer, to serve until a successor to Dr. Jameson shall have been chosen.

A new prudential committee will be named soon by the new president of the board.

FAREWELL OF DR. JAMESON.

With the awarding of diplomas to seniors and graduates of the law and pharmacy classes of Mercer university yesterday, the 1913 commencement exercises of that institution were brought to a close. The students suffered nothing to dampen their jolly spirits until the farewell address of President Samuel Young Jameson was made in chapel exercises yesterday. After the regular exercises had been completed and Dr. Jameson came forward to bid farewell to all, the greatest demonstration that ever occurred in the chapel was given for him. For fully five minutes he was applauded from every section.

Without hesitancy or feeling he began his farewell address by offering advice to the graduates occupying front seats in the chapel. His address in part is as follows: "I find myself this morning at a loss as to how to express myself. This does not occur to me often, but in the progress of human events such things must come to each and every one of us. I appear before you in what will probably be my last opportunity of addressing the graduates and student body of this college, as my term as president expires at the conclusion of these exercises.

"The news will be received gladly by some, while others will receive it with regret. However, I feel proud to say that I can take both sides by the hand, even though unwillingly to the bosom, I am glad and I am sorry to have to leave.

HIS PARTING INJUNCTION.

"Fourteen years ago I was elected a trustee to this institution. Seven years have I served it as president, and I say not boastingly that during the past seven years the old institution has made rapid progress. During these years my connection with the faculty of our institution has been pleasant and profitable one, and it would not be fair for me to retire without paying a tribute to the grand men who have helped me in the uplifting of this institution. Among these I especially mention John Scott Murray.

"Love, honor and protect old Mercer you graduates and forever keep alive the memory of the grand old college that prepared you for your vocation in life. I want you to be loyal to America, true to Georgia, fair to your fellowman and forever fair and true to your college. God bless you Mercer; may He bless every student and friend of Mercer; may He bless you all. Be true to Him and old Mercer. Goodby."

U. S. SUBMARINE TENDER TO BE UNIQUE WAR CRAFT

The Bushnell Will Be Mother of Fleet of Submarines—To Cost $1,000,000

(By Associated Press.)
WASHINGTON, June 5.—Plans for the submarine tender Bushnell, made public at the navy department today, disclose the fact that the vessel will be altogether unique as a war craft.

The contract for the construction of the Bushnell was awarded to a shipbuilding concern in Seattle, Wash. Her cost will be close to $1,000,000, and she is to be completed within twenty-one months.

The Bushnell is designed as a "mother ship" for a squadron of submarines, and many roomy staterooms will be provided for the officers and crews of the submarines when they are not actually cruising. Powerful hoisting apparatus will be installed, where with a submarine damaged or sunk can speedily be lifted to the surface of the sea and a towing machine will enable the "mother boat" to tow five of her breed at one time.

The little fleet will be independent of a home station, for a well equipped machine shop will be installed aboard the Bushnell. Capacious tanks are to be installed to carry sufficient oil and gasoline to supply the submarines for many weeks.

The Bushnell herself will be driven by a single screw turned by turbine engines. Her displacement will be 2,500 tons and with a battery of four five-inch rapid fire guns and a torpedo tube she will be able to protect her charges from torpedo boats and destroyers.

ARMOUR LOSES LEAD TO PACKER ED. MORRIS

(By Associated Press.)
CHICAGO, June 5.—Edward Morris, the meat packer, has replaced J. Ogden Armour as the largest individual owner of Chicago bank stocks, it was learned today from the county tax lists.

Mr. Armour has held the position for several years and continues to lead in the actual number of shares, but in the aggregate market value Mr. Morris, with $3,756,000, leads him by nearly $150,000. A third packer, Edwin Tilden, holds bank stock amounting to $2,902,-[illegible] in market value.

CHARLES S. KOHLER DIES IN PARIS

(By Associated Press.)
NEW YORK, June 5.—The death of Charles S. Kohler, the wealthy piano manufacturer and sportsman of this city, yesterday in Paris, France, removes a figure which has been prominent for several years in the turf world.

Mr. Kohler purchased Samuel C. Hildreth's stable of famous race horses in the fall of 1911, after horse racing had been stopped in New York, and adding these to his own string of thoroughbreds, he took them all abroad to continue racing in France and England. A few weeks ago he added to his stables by the purchase of a dozen yearlings from August Belmont.

He maintained in this country a breeding farm in the Ramapo valley and raced under the name of the Ramapo stables.

MINISTER SAYS MARRIAGE FEES ARE ONLY GRAFT

(By Associated Press.)
CHICAGO, June 5.—The Rev. Almer Pennewell solemnized the first "anti-graft" marriage yesterday since his recent announcement that he believed fees accepted by ministers for officiating at weddings were nothing less than a graft, and that in the future he would make no charge for this service. He also asserted that couples must "present clean bills of health from reputable physicians."

Clifton Walker Hunt, of Cleveland, and Miss Dorothy Matze, of Oakpark, a suburb, were the principals at the wedding. The father of the bride attempted to force a fee upon the clergyman but was unsuccessful.

"I get a salary for my services, and couples should not feel that they are receiving charity," said the preacher.

CAPT. THOMAS T. SCREVEN IS DEAD AT SAVANNAH

His Successor as Sheriff May Be Nominated at Special Primary on June 16

SAVANNAH, Ga., June 5.—Captain Thomas F. Screven, one of Savannah's best known citizens and for the past five years sheriff of Chatham county, died at 7 o'clock this morning, after a long illness.

The death of Captain Screven probably means that at a primary election called for June 16 to nominate a candidate for the legislature to succeed Colonel P. A. Stovall, resigned, that the Democrats also will nominate a candidate ror sheriff. The date of the special election for representative is on June 24, and it is expected an effort will be made to have both elections held at the same time.

Mr. Herman C. Shuptrine today announced his candidacy for the legislature. He will be opposed by Mr. J. J. Bouhan.

BALTIMORE PREPARING FOR AD MEN'S MEETING

Many Novel Features Planned for Meeting of Associated Advertising Clubs

BALTIMORE, Md., June 5.—Many novel features have been planned for the annual convention of the Associated Advertising Clubs of America, which will begin a week's session next Monday in the Fifth regiment armory here.

Many sermons will be delivered by delegates from the pulpits of about thirty local churches next Sunday.

Eight men from the Cross Country club, of Washington, D. C., will take part in a forty-mile relay race Monday. They will carry a message from President Wilson at the White House in Washington to President Shay, of the Baltimore Advertising club, at convention hall.

Each man will run five miles and the sanction of the Southern Athletic association is expected to be secured, so that the feat will go down officially as a record for a relay run.

Governor Goldsborough and his staff will lead the club's pageant through the streets Monday night.

Elaborate advertising exhibits are being erected at the convention hall.

Baxley School Closes

BAXLEY, Ga., June 5.—Wednesday marked the closing of one of the most successful years in the history of Baxley High school.

That Wonderful Event

...to Be Celebrated at Woodbine

Mrs. William Lawson Peel, vice president general of the D. A. R. and honorary regent of the Joseph Habersham chapter, has invited the chapter to attend a celebration of Flag day on Saturday, the 14th of June, at "Woodbine," her home, on Peachtree road.

An address suitable to the occasion will be made by Dr. P. H. Mell.

Fifty new members will be presented to the chapter, and all members are cordially invited to attend.

Club Dance for Young Visitor

A pleasantly anticipated event of Friday evening is the dance at the Piedmont club at which Miss Pattie McGehee will be hostess in honor of her guest, Miss Lyra Hatcher Swift, of Columbus.

Mr. and Mrs. Charles McGehee, Jr., will assist in entertaining, the guests to include about 100 members of the younger set.

Mrs. Hightower's Five o'Clock Tea

Mrs. T. J. Hightower, Jr., was hostess at tea Thursday afternoon at her home, "Glen Hays," in compliment to her sister, Mrs. Robert Bohannon, of Louisville, Ky.

Vari-colored sweet peas and many lovely garden roses formed the decorations of the attractive home. Jardinieres filled with daisies ornamented the living room and the library, and quantities of pink sweet peas were used in the dining room with artistic effect.

The veranda was converted into the semblance of an open air garden with palms and many handsome growing plants, and punch was served there by Miss Nellie Hightower and Miss Ida Hightower.

Mrs. Hightower and Mrs. Bohannon received their guests wearing white lingerie gowns combined with lace, a corsage bouquet of white gardenias completing the costumes.

Mrs. Charles A. Sisson, Mrs. T. J. Hightower and Mrs. W. S. Elkin assisted in the entertainment of the guests.

To the Misses Davis

The Baraca and Philathea classes of the Woodward Avenue Baptist church will give an entertainment to their friends and the young people of the community in honor of the Misses Minnie and Kelly Davis, in the lecture room of the church on the corner of Woodward and Cherokee avenues, Tuesday evening, June 17.

After a short program refreshments will be served. All Baraca, Philatheas, young men and young women, are cordially invited to attend.

Afternoon Reception

Miss Mary Frances Bowden and Miss Hilda Castleberry gave a reception on Tuesday afternoon at the home of Mr. and Mrs. J. Q. Bowden, in honor of the senior class of the Girls' High school. The house was decorated with daisies, the colors of the high school. A huge basket of daisies tied with a bow of yellow and gold tulle, resting upon a cluny centerpiece, adorned the luncheon table.

The receiving party included Miss Mary Frances Bowden, Miss Hilda Castleberry and Frances Flemister.

The guests were met by Miss Edith Boone, Miss Charlotte Thompson and Miss Hortense Loeb.

Ices were served by Miss Frances Noyes and Miss Lois Wilkinson.

Those assisting in serving were Miss Marcella Steedman, Miss Sarah Noyes, Miss Catherine Newbanks and Miss Martha Crane.

Mrs. J. Q. Bowden, Mrs. D. A. Castleberry and Mrs. W. L. O'Brien assisted in entertaining.

Tuesday evening the hostesses of the occasion entertained their receiving party and progressive games were played.

Mrs. W. L. O'Brien furnished music, and refreshments were served.

Those present were Misses Sarah and Frances Noyes, Miss Martha Crane, Miss Edith Boone, Miss Hortense Loeb, Miss Frances Flemister, Miss Catherine Newbanks, Miss Lois Wilkinson, Miss Mary Frances Bowden, Miss Hilda Castleberry, Mr. Nesbitt, Mr. Scott, Mr. Dobbs, Mr. Bratton, Mr. Teague, Mr. Meadors, Mr. Coll Johnson, Mr. William Close and Mr. Julian Jackson.

Mrs. Lyle's ...or ... To Miss Francis

The luncheon at which Mrs. Dan Lyle was hostess Thursday at her home in College Park was a lovey compliment to Miss Martha Francis, a bride-elect.

Quantities of sweet peas from Mrs. Lyle's garden formed the decoration of the pretty home.

In the dining room the luncheon table had for its center a plateau of the lovely flowers, combining pastel shades of pink and lavender, the place cards were painted with sprays of sweet pea blossoms, and the individual favor for each guest was a corsage bouquet of pink sweet peas.

Mrs. Lyle received her guests wearing a lovey gown of pink embroidered linen.

Invited to meet Miss Francis were Miss Fassie May Ottley, Miss Lillian Logan, Miss Anne Lyle, Mrs. William Schroder, Mrs. Charles Shelton, Jr., and Mrs. Bertram Norris.

Perdue-Thompson

The marriage of Miss Lucie Perdue and Mr. Frank Thompson, Sunday, June 1, at the home of the bride's father, Rev. W. J. Perdue, in Carrollton, Ga., was one of the interesting June weddings. The ceremony was performed by the Rev. Mr. Edmondson, of the Carrollton M. E. church. Miss Floy Rowls, of Rome, Ga., played the wedding march.

Among the guests were Mr. and Mrs. W. J. Perdue, Misses Annie Mae and Marie Perdue, Vannie Phillips, Myrtle Jackson, Floy Rowls, Floy Powell and Charlsie and Leona McClain, of Atlanta; Mr. and Mrs. Yancy Housworth, Dr. and Mrs Powell, of Villa Rica; Mr. and Mrs. H. Coffey, of Atlanta; Mr. Arnold Thompson, of Atlanta; J. R. Wall, B. Jackson, I. B. Perdue, William Webb, Signor Sarbogert and Charlie Perdue.

After a wedding breakfast the bride and groom left on an extended bridal trip. They will be at home at 465 Woodward avenue, Atlanta, June 10.

Says Billie Burke, in Telling How to Make a Face Pretty, Despite an Ugly Nose

BY BILLIE BURKE.

"Why, she can never be pretty," said a man to whom I was expatiating on the beauty of a girl at the next table at Sherry's. "Her nose is not pretty, and the nose is the most important feature of the face."

"From where I sit her nose is beautiful," I answered; "it is 'tip tilted like a flower,' and gives her a most charming expression."

The man was curious enough to come over to my side of the table to get ring point of view. He looked a moment and then said, "I guess you are right. When you look at the girl from here, her nose is only piquantly retrousse, but from where I sat it was just a plain snub."

I do not think women take enough thought about the shape of their noses. They are apt to think that the nose is the one feature that cannot be changed materially. While you cannot change the shape of your nose without an operation you can comb your hair, pick out your hats and wear your neck dressed in such a manner that it will look as the ancients named it—the ornament of the face. Never wear a hat that sets back on your head if your nose is the slightest bit snubbed and be very careful not to face your friends a profile view of your face any oftener than you can help. A tip-tilted nose and a smile is very pretty in front view.

Bring your hair and your hat out over your forehead and do not wear fluffy things under your chin in the way of bows or ruches if your nose is too short.

A nose that is too long is harder to make beautiful. This time you must wear your hair over your forehead but rather flat and you must bring your chin into prominence with ruffles beneath it.

The only nose that is impossible is the nose that is always getting into the business of other people. There is nothing one can do to make anyone think that there is anything about that kind of a nose that would ornament any kind of a person.

However, if you are a bit dubious about the shape of your nose sit down some day when you have time and try doing your hair with reference to it. Then try on all your hats and all your neck rigging and look at your face from all angles and see how your nose looks in every pose, but, above all, remember that you must not be kittenish and coy if you have a Roman nose or dignified and soulful if it turns up the least little bit.

Turner-de Bruyn Kops

The wedding of Miss Ada Turner and Mr. William de Bruyn Kops was solemnized Thursday evening at 9 o'clock at the home of the bride's brother and sister, Mr. and Mrs. James L. Faris, Jr., in Savannah. A small circle of friends witnessed the ceremony and were present at the beautiful reception which followed.

The home was adorned with quantities of smilax, palms and ferns, and many white flowers were used against the green background. In the hallway great clusters of bamboo gave a delightfully cool effect against the walls, and in the small reception room at the left, where the musicians were stationed, large bowls of yellow and white daisies made a charming decoration.

In the front drawing room, where the ceremony was performed exquisite white peonies were used, and in the dining room white roses, valley lilies and asclepion lilies formed the fragrant decorations. In the room across the hallway from the dining room, pink peonies made a contrasting note of color in the decorations of the house.

Miss Jane Hopkins and Miss Henrietta Seabrook descended the stairs at the first notes of the wedding march. They bore delicate festoons of tulle garlanded with smilax with which they made an aisle for the bridal party.

Miss Fanny Turner entered next and the bride followed on the arm of her brother, Mr. John D. Turner, who gave her in marriage.

The groom with his best man, Mr. Morton B. Paine, joined the bridal party before the improvised altar in the drawing room. The ceremony was performed by the Rev. Rockwell S. Brank, pastor of the independent Presbyterian church.

The bride wore a lovely gown of white crepe meteor trimmed with princes lace. It was fashioned on simple and graceful lines, the skirt falling in soft folds from a chiffon corsage made beautiful by draperies of the lace which made a short tunic in front. The lace extended also down the sides of the skirt, where it was caught in place at the edge of the train by clusters of orange blossoms. The v-shaped neck of the corsage was outlined by an embroidery of seed pearls. Her veil was adjusted under a narrow cap of rose point lace and her flowers were a shower of valley lilies.

The maid of honor wore white crepe de chene draped with applique, a girdle of soft pink widening into a broad sash, harmonizing with her bouquet of Killarney roses.

The flower girls wore summer gowns of mull and lace with pink sashes.

Mrs. Faris's gown was of black net embroidered with crystals and jet. It was worn over rose-colored satin and the corsage showed a towed of point lace and rose color.

Mr. and Mrs. Kops will spend several weeks in north before going to Charleston to reside.

Wright-Hartzog

Miss Irene Hartzog and Dr. Jesse Colquitt Wright were married at 10 o'clock this morning at the First Methodist church, Dr. DuBose officiating.

Mrs. C. N. Dennis was the bride's matron of honor, and the bridesmaids were Miss Effie Westbrook, of Fairburn, and Miss Essie Wright, of Chattsworth.

The groom's best man was Mr. Robert W. Spires and the ushers were Mr. Frank L. Neufville, Mr. C. N. Dennis, Mr. George Cunningham and Mr. J. E. Duffee.

Miss Irene Bearden played the wedding music.

A wedding breakfast was served after the ceremony at the home of the bride's mother, Mrs. A. E. Wooddy, on Courtland street.

Mr. and Mrs. Wright will take an automobile trip through North Carolina and Tennessee and on their return will be at home with the bride's mother.

Informal Bridge

Miss Minnie Lee Hay was hostess at an informal bridge party this afternoon which was the first of a series.

Her guests were Miss Margaret Beck, Miss Bertha Wright, Miss Louise Collier, Mrs. Roy Wynne, Mrs. R. N. Bissell, Mrs. Karl Brittain, Mrs. J. Fletcher Heard.

Literary Meet

The regular literary meeting of the Atlanta Equal Suffrage association was held yesterday afternoon at Carnegie library. Mr. Philip Weltner made an address on "Crime and Its Cure," showing how Georgia ranks below other states in the treatment of her criminal class. Mr. Weltner asked the co-operation of the association in securing remedies for these evils, and the following resolution was introduced and unanimously passed:

Resolved, That the Atlanta Equal Suffrage association heartily endorses the work of Mr. Philip Weltner and the Prison Association of Georgia and hereby pledge to them not only our sympathy but our hearty co-operation in helping them to secure prison reforms which will cause Georgia to treat her criminal class as human being and to show to the world that we count a man or woman first as a brother or sister and secondarily as a criminal.

Resolved second, That we unhesitatingly endorse the movement looking toward the establishment and maintenance of a girls' industrial school by the state of Georgia, and also for a measure calling for county probation officers; therefore, be it

Resolved, That this body wishes to join forces with Mr. Weltner and his co-workers in a crusade to secure such needed legislation.

Mr. R. J. McDonald delivered a splendid speech on "Why I Believe in Equal Suffrage" Mr. McDonald, who is now a prominent business man of this city, is a native of Scotland, and took an active part in the suffrage campaign in Michigan last year.

His wide knowledge and ripe experience in suffrage matters render him particularly entertaining.

Mrs. Fred Ingraham discussed the great need for jail matrons and told of the many women prisoners who have no women in whom to confide or from whom they may receive advice. The president appointed a committee consisting of Mrs. Ingraham, chairman, Mrs. Saul, Mrs. Gillette, Mrs. McWhorter, Mrs. Daniels to investigate the matter and take such steps as may be necessary to bring about this great reform.

Zona Gale's poem on women was read by Mrs. Margaret McWhorter.

Short talks were made by Mrs. Mary McLendon and Mr. Rosenbaum, of New York, who brought a message of greeting to the Georgia suffragists. The meeting was presided over by the president, Mrs. Amelia Woodall.

Miss Ribble Entertains

Miss Virginia Ribble entertained her bridge club this morning at her home on Myrtle street.

The house was decorated for the occasion with field daisies and attractive growing plants.

The prizes were silk stockings.

The guests included Miss Gladys Catchings, Miss Ruth Tanner, Miss Maury Lee Cowles, Miss Caro Sharpe, Miss Elizabeth Parks, Miss Bernice Schussler, Miss Lucky Stockard, Miss Rosa Belle Chapman, Miss Jennielu Lindsey, Miss Olive Sheppshire, her guest, Miss Camilla Callaway, of Madison and Mrs. Everett Griffen.

AFTERNOON FROCK

Afternoon frock of green silk with tunic and bolero of heavy ecru lace and yoke of net, decorated with black velvet buttons and bow.

Remembering the bizarre Oriental gowns that fill the streets and houses, would you think it possible for this costume to be ultra fashionable—a high waisted straight skirt of white voile printed with blue and green flowers, hemmed with a gathered band of bright blue silk, gathered at the bust under a tiny jacket of blue silk edged with a shirred band, finished with a soft collar of white chiffon and having long, small sleeves, also of blue silk, finished with lace frills?

It sounds like a reproduction of a Kate Greenaway print, but it is really a smart gown worn by a smart woman, made by a smart shop. There is nothing Turkish about it, it has not a glint of the modern fashions and yet it is not out of place among the clothes of today.

The little shop where this gown was made is like a garden bower and the model who wears it sits in a garden chair painted in a wonderful deep blue that goes with her gown, and if she feels like being especially pictorial she puts on a tiny sunbonnet of blue and white plaid gingham which shades eyes and neck, and is lightly caught under the chin with one gingham streamer which fastens at the right ear under a bunch of frosted white grapes and leaves.

And she may go even further than this; she may raise a blue and white gingham parasol with a long white handel and negligently twirl it over her shoulder. By her side is a great white garden urn of growing flowers and through a white trellis filters the light from a gaily crowded urban street.

Do you blame women for buying the gown, the sunbonnet and the parasol? Are not these the apotheosis of the humbler clothes of another day? But if you stroll in the gardens of certain American villas—palaces called cottages—you will see the entire outfit on women whose names stand for millions.

They may not be as effective and as pictorial as they are on the lovely model who sits in the blue chair with the light of day filtering through the trellis to her red gold hair, but their wearing will make sunbonnets the fashion.

AN IDEA BY JEANNE LANVIN.

It was that fertile inventor of children's clothes named Lanvin in Paris, who began to make sunbonnets for the rich early in the season. An American importer instantly saw the charm of the idea for his own rich clientele and he was artist enough to match it with a parasol and put them both as part of a garden costume on an alluring model.

The bait took and sunbonnets of gingham are the fashion to wear when you have a garden and you are a lover of flowers and the open. You do not sit on the piazza with your sunbonnets on, but it takes the place of a garden hat when one is in the sunshine.

Of course it is heresy to whisper that you can make it at home for less than $1 when it sells for $25, but this is true. The trouble is you must know how to make it, and to do this you must see for yourself this edition de luxe of a sunbonnet.

The voile gown itself is excessively interesting because it represents a new era in dress. Every one cannot wear a straight gathered skirt from bust to heels which has a narrow footline that just allows one to step, but it is becoming to far more figures than women think and it is excessively charming and youthful and in good taste.

We have been coming nearer and nearer the Kate Greenaway styles—which is a good enough name for them—and possibly we will drift completely into them by autumn. There is room in this world for many fashions and a chance for many influences. And as long as narrow skirts and large waists and open necks remain the style there is no reason why we should not draw from many sources in order to give variety to women's apparel.

WHAT ANNE RITTENHOUSE SAYS

WHAT ANNE RITTENHOUSE SAYS:

The woman who wants the fashionable large waist, or the one who must have it by reason of physical formation, is not quite happy over the problem of how to best manage the separate skirt and a white shirtwaist. In this combination lies much awkwardness and every woman relaizes it.

It is worse than it was last summer. Although it was bad enough then because the waist is distinctly larger this year than it has ever been and there is something about the cut of the whole skirt that increases the size of the waist. The trouble lies not there so much as in the straight line that goes around the body from bust to hips.

It is all very well to say it is fashionable, but there are hundreds of women who shake their heads dubiously over it because they realize its awkwardness. It is not new; it was here last summer to a certain degree, but many women avoided it and had their skirts cut to pinch the waist line and to cling closely to the hips. It was merely a high waist then, now it is a square one without curve anywhere.

It was not easy to reason out just how the squareness of this skirt was attained—that is, the skirt of today—for it grew by degrees and did not spring up over night. Women themselves did not seem to quite realize how they were losing every waist curve until they were suddenly confronted one day with their own silhouettes before a mirror. They have looked upon another woman's figure when it presented its square waist line with a good deal of dismay and laid the flattering unction to their souls that they were not built like that and that sudden mirror in a show window made them gasp.

The corsets have much to do with this squareness. They are built to accentuate it when the figure shows a hint of it and to produce it even when there are natural curves. The majority of women find that they are not able to pull their waists into a curve today because they have been so trained to let them out into a normal position; they have suited them to one piece frocks and even gowns and they have worshiped the Greek and the Oriental naturalness of silhouette and posture. So far so good. But how would the Venus de Milo look in a white shirtwaist and short skirt?

Shirt Waists and New Figures.

As long as we bow down to Orientalism we are very sure to be graceful in clothes, because swirling draperies from shoulder to heel are usually becoming to the lean and the fat, to the tall and the short. But the Orient reeks not with white starch shirtwaists and mannish coat suits. As long as the coat is the only thing to be considered one can have as large a waist as one wishes, but when the coat is lifted and this new Oriental skirt is attached to an American shirtwaist the combination is not pleasing, and no one knows that better than the women who are trying to make it.

Of course we have long since learned the art in wearing one color from shoulder to heel, but it is not convenient or agreeable to wear colored shirtwaists in summer, as our desires and our climate call for thin wash fabrics. Therefore, if one would look well it seems that the coat must be retained, or one must have a figure cut off in a square way that may be fashionable but is not graceful.

After all it might be better for women to work themselves out of this problem and lend variety to their costumes at the same time by modifying the waist line of those skirts which are worn with coats and white shirtwaists. There are many ways to do this.

LE STORIES OR BED TIME

By Thornton W. Burgess

in which to find things out. that goes on all round about. plan to keep my two ears and two ears all the time unsealed."

So said Jerry Muskrat as he settled himself comfortably on one end of the new dam across the Laughing Brook deep in the Green Forest and watched the dark shadows creep farther and farther out into the strange pond made by the new dam. "I'm going to find out who it is that built this dam, and why it is that fills the hole I've made in it! I'm going to find out if I have to move up here and live all summer." The way in which Jerry said that and snapped his teeth together showed that he meant just what he said.

You see Jerry had spent a whole weary day tasking a hole through that dam so that the water could once more flow down the Laughing Brook into the Smiling Pond where his home was. The next morning he found that in the night some one had filled his hole up. Then he had spent another long weary day opening the hole once more, only to have it closed again while he slept. That had been enough for Jerry. He hadn't tried again. Instead he had made up his mind that he would find out who was playing such a trick on him. He would just watch until they came and then if they were not larger than he or there were not too many of them he would—well, the way Jerry bristled and clashed those sharp teeth of his sounded as if he meant to do something pretty bad.

Billy Mink and Little Joe Otter, who had come up with Jerry Muskrat and Grandfather Frog and Spotty the Turtle to find out what had stopped the daughter of the Laughing Brook, had given up in disgust and started for the Big River. They are great travelers anyway, and so didn't mind so much because there was no longer water enough in the Laughing Brook and the Smiling Pond. Grandfather Frog and Spotty the Turtle, who are such very, very slow travelers, had decided that the Big River was too far away and so they would stay and live in the strange pond for a while, though it wasn't nearly so nice as their dear Smiling Pool. They had gone to sleep now, each in his own secret place, where he would be safe for the night.

So Jerry Muskrat sat alone and watched. The black shadows crept farther and farther across the pond and grew blacker and blacker. Jerry didn't mind this, because, as you know, his eyes are made to see perfectly in the dark, and he dearly loves the night. Jerry had sat there a long time without moving, listening and watching. By and by he saw something that made him draw in his breath and anger leap into his eyes. It was a little silver line on the water and it was coming straight toward the dam where he sat. Jerry knew that it was made by some one swimming.

"Ha" said Jerry. "Now we shall see!"

Nearer and nearer came the silver line. Then Jerry made out the head of the swimmer. Suddenly all the anger left Jerry. He didn't feel like fight or anger; a great fear had crowded it out. The head was bigger than that of any muskrat Jerry had ever seen. It was bigger than the head of any of Billy Mink's relatives. It was the head of a stranger, a stranger so big that Jerry felt very, very small and hoped with all his might that the stranger would not see him.

Jerry held his breath, as the stranger swam past and then climbed out on the dam. He looked very much like Jerry himself, only ever and ever so much bigger. And his tail! Jerry had never seen such a tail. It was very broad and flat. Suddenly the big stranger turned and looked straight at Jerry.

"Hello, Jerry Muskrat!" said he. "Don't you know me?"

Jerry was too frightened to speak.

"I'm your big cousin from the north; I'm Paddy the Beaver, and if you leave my dam alone I think we'll be good friends," continued the stranger.

"I-I-I hope so," said Jerry in a very faint voice, trying to be polite, but with his teeth chattering with fear.

Milner Social News

MILNER—The closing exercises of the Milner High school began on Friday evening. The entertainment (Breezy Point) rendered by the higher grades was worthy of special mention. On Sunday morning at 11 o'clock, Rev. Mr. Tumlin, of Thomaston, delivered the commencement sermon in a most able manner. On Sunday night Rev. Mr. Dameron, of Griffin, delivered a talk on "Success." The oratorical contest took place Monday morning at 10 o'clock, the successful contestants being Miss Lucy Duckworth and Miss Mary Kate Martin, rendering on Monday night, the juvenile department rendering in an unique and happy manner "The Toy Shop," which was thoroughly enjoyed.

Miss Thompson, of Dublin, Ga., is a visitor to Miss Mary Willie Cauthon.

Mrs. Horace Chappel, of Griffin, is visiting her mother, Mrs. K. M. Cauthon, this week.

Misses Sarah and Francis Holmes have returned home from Wesleyan college.

Miss Minnie A. Woodall has returned home from Bessie Tift college.

Miss Bochell Woodall and Mr. James Woodall are attending the reunion at Chattanooga.

Mr. Harry Berry, of Macon, is spending the week with relatives.

Miss Birdie Hale was the delightful hostess to a spend-the-day party on Thursday, having as her guests the members of the senior class of Gordon college, of which she is a member.

Why Premature Gray Hair?

There are many causes of premature gray hair. Sickness, a nervous temperament, impoverished blood, deficient scalp nutrition, sometime it is hereditary and the daughter finds herself out—gray in her early thirties. We don't always know the cause, but we do know that gray hair adds at least 10 years to the age of a woman be she old or young, and when a young woman's hair begins to fade and lose its color, it is very foolish for her to let it go on unheeded in a year or two she will be an old gray headed woman. And just a little care and treatment can save her hair and her youth.

Our Robinsnaire Hair Dye is not a vulgar bleach or artificial coloring for the hair. It is a pure, scientific preparation of tonic virtue which restores your hair to its own natural color and beautiful healthy conditions. If your hair is losing its life and color there is no reason at all why you should hesitate to use this pure restorative, any more than that you should refuse to use a cure for dandruff. The fading gray hair and the dandruff both result from scalp diseases and both should be treated.

Robinnaire's Hair Dye we make in our own laboratory and personally guarantee to be pure and harmless. Non-sticky and does not stain skin or scalp. Use it before your hair is turning gray, and you will be wondrously surprised and pleased at the result. Retain your youth as long as you can, because when it slips away you never can get it back.

Prepared for light, medium and dark brown and black hair. Trial size 25c, small 31c, large size, 75c; by mail. For sale by all Jacobs' Pharmacy ores and druggists generally.

THE EVENING STORY

(Copyright, 1913, by W. Werner.)

THE ONE GIRL

Hawling went to the automobile show *simply to kill time. He was a bookkeeper*, so he had no legitimate right to be interested in automobiles. He looked at automobiles as other people look at art galleries—to feast his eyes. He was almost a stranger in Chicago. His work was not the kind that threw him in close touch with many people, and he was not the kind to mix readily.

So when a pretty girl in a blue tailor-made serge and heavy furs paused beside him, minded by his interested eyes, *and asked him concerning the interior* arrangement of the huge limousine in front of him he did not dispel her illusion that he was there for the sole purpose of telling passersby what an excellent make that was. He explained thoroughly all that she cared to know and then since she seemed interested, he strolled to the next car with her and told her all about that. But he carefully avoided a direct question as to her intention of buying.

Presently she thanked him and walked over to a gray-haired gentleman who was poking at the tires of a runabout. He was poking with a massive gold-headed cane.

"Rich, I suppose," murmured Hawling. "Wish I was." And then, rather discontentedly, he went out to the second class boarding house that he called home.

It was a shock to him the next morning when he found himself still thinking *of the girl, her eager blue eyes and* the dainty fleck of pink in each round cheek—just the sort of a girl he had always imagined. At that point in his reflections he dropped a long trail of purple ink on a clean ledger page. So he frowningly put the girl out of his thoughts and concentrated his attention on the figures instead.

He went to the automobile show again that night, but he didn't see her, and when he got back to his small bed room he declared to himself: "Nobody but a fool would be thinking about a girl whose hat cost more than he made in a month."

A week later he saw her again. She was getting out of a purple and brown limousine that was the latest model of luxury and expense. She wore the same trim suit and furs that she had worn at the automobile show. He liked the cut of that suit. It was horribly expensive, of course—that plain trim cut always is—and he wished wrathfully that he was making the salary that would support a wife who lived such clothes.

After that Hawling's main occupation was watching for her. Bookkeeping was a side issue for several weeks. But the occasional glimpse he caught of her finally aroused him to action. He went at the neglected books with a very fury of energy. He got another set

Hawling was brushing the dust from her dress.

to do at night. He had to keep busy to have any sort of mental peace. Two raises of salary followed, unsolicited by him. But they did not give him much pleasure. No matter how much a bookkeeper made, it would not put him in her class.

One day he met her face to face. She was walking slowly down the crowded street, and Hawling, though he was headed in the opposite direction, simply turned around and followed her. *The winter weather had given way to pre-*liminary spring balminess, and so she had discarded her furs. Hawling had liked her small pink-touched face rising from the soft fur. But he liked it even better now, when the low collar of her coat allowed a full view of the clean cut of her profile.

He had followed her four blocks, regardless of the fact that his luncheon hour would soon be over, and he had not yet lunched, when she suddenly darted across the street, choosing a clear space between the taxicab and a street car. But the taxicab streaked forward unexpectedly and jammed her against a big motor truck. She screamed, swayed to and fro, too dazed to jump back to safety, while chauffeurs and motormen gasped. Hawling sprang after her, regardless of the danger to himself, and by sheer luck managed to pull her back out of peril. As it was, her dress was ripped and her face bruised.

Hawling was brushing the dust from her dress, and assuring her that he had done nothing at all—simply happened to be at her side—when a friend of hers, a tall, overdressed woman, came by, recognized her with a shriek of dismay at her plight, took her by the arm and

"I never had a chance to thank you," she said.

whisked her to a taxi before Hawling had recovered his breath. At that he might not be just on the verge of really getting acquainted. And now she was as far away as ever. She hadn't even had time to fix his face in her memory. Hawling moodily skipped lunch that day, went back to his ledger and got his rows of figures in such a mess that it took him three days to straighten them out.

Hawling developed chronic moodiness after that. Life to him had become a dreary round of working, eating and sleeping. He had only one interest—to watch for trim blue serge suits. And it amazed him to learn how many the streets could show and still not display the particular one that he sought. Then he belatedly remembered that it was *quite possible that she might be wearing* another color. One blue suit wouldn't comprise her entire wardrobe. So he looked instead for trim, erect shoulders, topped by shining brown hair, and found a confusing supply.

April gave way to May and May to June before he again got a glimpse of her. By that time his grouchiness had given way to a tired resignation. As he stepped out of an elevator in a department store the girl stepped in. Hawling saw her unforgettable profile over his shoulder, got a glimpse of her cool gray linen gown, and sprang back. But he was too late. The iron doors snapped together, the iron cage shot up, and the uniformed attendant called heartlessly, "Next car going up."

Hawling took the next car. She had vanished somewhere in the ten stories, and the elevator man scornfully declared that he didn't have time to remember passengers' clothes and where they got off. "Might have been a dozen women dressed in gray stuff," for all he knew.

Disconsolately Hawling left the store, utterly forgetting his errand, and went back to work. The afternoon was filled with annoying incidents. The office boy had played truant to go to a baseball game, the electric fan above his desk broke, and finally the stenographer quit; sick, she said, and wouldn't be back for two months. Hawling's employer was sorry, but he had a great number of letters to get out that afternoon that simply had to go out. As a last resource he sent Hawling down to his friend Collins, a lawyer on the floor below, to borrow his stenographer.

Hawling went reluctantly. He had just located a missing $2 that he had hunted for through twenty debit and credit pages and he wanted to pin it down in black ink before it got away again. But the stenographer had to be procured at once. So he ran down, not waiting for the elevator, hastened into Collins' office and proffered the request.

"Certainly," said Collins, a thickset, energetic man. "You don't mind, Miss Kelley? Just let that stuff of mine hang over; there's no rush."

In a small adjoining room the click of typewriter keys ceased, there was a rustling of papers and Miss Kelley came out, cool and sweet in gray linen her cheeks daintily flecked with pink—the same girl that Hawling had sulked, grieved, almost worn himself to nothing over.

She recognized Hawling, too, with a deeper fleck of pink. "I never had a chance to thank you," she began.

Hawling stammered fatuously. The sudden shock of instantly losing all reason for gloom nearly turned him into a witless chump. "I'll see that you have plenty of chances," he assured her.

And before the afternoon was over he adroitly probed into the discrepancy between her present employment and her supposed ownership of an $8,000 car. "Oh," she told him, "I was that old gentleman's secretary, and he had me go along to pick out the color scheme for a car for his daughter. I would love," she said wistfully, "to have a car."

Hawling's eyes glinted hard with determination. "You will," he assured her. "I've been thinking for some time of chucking bookkeeping and selling automobiles instead. But I never could muster up enough grit to toss up a sure small thing for an uncertain big thing. But now," he looked at her until her cheeks were red, "I've got grit *enough to make a stagger at peddling* the moon."

When Mother Says "Because"

The obedience of children is often made difficult by parental uncertainty. It is sometimes forgotten that obedience is a virtue for which the cooperation of two persons is essential; one to give orders, the other to carry them out. The initial condition is a judicious, firm and well considered giving of orders. Nothing is so demoralizing to workmen or soldiers as a series of hasty, unadvised and contradictory commands. With all the willingness in the world the sense of distrust which is thus awakened requests disobedience.

The trouble with many children who seem not to know how to obey is that their parents do not know how to command. The orders are given hastily and changed readily on petition. Often an unwillingness to obey is made sufficient reason for withdrawing the injunction. Some of the discipline of young children is as foolish as the mother who says in answer to the question "Why?" "Because." And you know Johnny, that when mother says 'Because' she always means 'Because.'" The child quickly perceives that the parental discipline has no more sense in it than that. The disobedient child arouses in a fair expression of distrust. Obedience begins with respect. But respect is forfeited when it is made plain that the commands are not intelligently given.

Climate Failed; Medicine Effective

Rest, fresh air and well-cooked, nourishing food do help many persons suffering with Lung Trouble. But in many cases the disease is only temporarily "arrested," and something more is needed. Eckman's Alterative is a tonic for Throat and Lung Troubles and has brought about many complete recoveries—in many cases where the surroundings were not ideal. Judging by the many reports of benefits received, we believe it should be used in every case of Lung Trouble. A remarkable case follows.

Weldon, Ill.

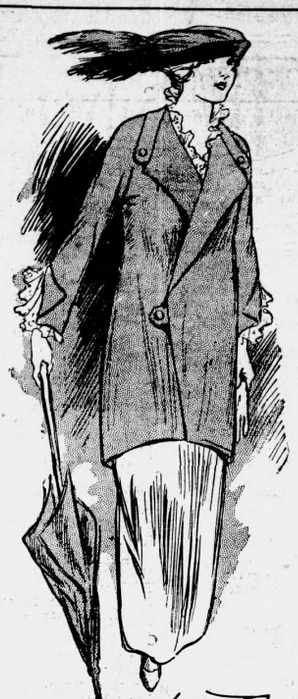
"My Dear Sir: Through your instrumentality I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia which developed into Consumption. In February, 1905, I went to Mexia, Texas, and later to Canon City, Colorado. After being there two weeks my physician informed me that my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no chance of reaching there alive. On March 14, 1905, I began taking Eckman's wonderful remedy for Consumption. To-day I weigh 150 pounds. I am stout and well and do any kind of work about my grain farm.

(Affidavit.) ARTHUR WEBB.

More abbreviated, more on request.

Eckman's Alterative has been proved by many not to be the most efficacious in cases of Sore Throat and Lung Affections, Bronchial Asthma, Stubborn Colds and in debilitating the system. Does not contain narcotics or habit-forming drugs. For sale by Jacobs' Pharmacy and other leading druggists. Write the Eckman Laboratory, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.—(Advt.)

A SMART COAT



The English tweed coat, though severe, takes on graceful lines in the new models.

People who make coats must have sat up every night during the spring thinking out ideas. Otherwise it wouldn't be possible for the designers to have exploited before the public such a vast variety of upper garments.

If one of these mathematicians who delight in counting up how many trailloads of dirt taken out of the Culebra cut it will take to go round the world and how high the longest steamship would be if it were stood on end would get to work on how far a procession of new coats would reach, it might prove to be an interesting statistic.

Speaking offhand, an amateur knowing nothing of the subject would say that, placed side by side, one could easily believe them reaching from New York through Manchuria to Moscow. As for really counting them, no one has the time or the inclination.

Each designer has contributed a few dozen to the gayety, and each wearer has asked for a few new touches that would make her coat different from some one else's coat. They are not governed by any rule or influenced by any country. They are as fashionable cut off at the hips as at the bust; they are straight or cutaway; they are Russian, Turkish or Bulgarian. The newest is Chinese.

It is made of navy blue and goes with a serge skirt. It is slashed at the side seams and is put on over the head. So far, it is true to type. But it takes a belt to itself and becomes a hybrid. It has Chinese blue wool on it as trimming and is piped with a silk cord. The sleeves are small, which is not Chinese, and the neck is round and half low, which is Chinese—so there you are.

Whatever the garment may call itself and whatever parentage it may *admit, it is a novelty. Each designer* therefore looks upon it with interest. Women will wear it, of course, because some of them have worn every fashion that has made its appearance, and this one is far more becoming than many of the others.

A NEW KIND OF COLLAR.

It is one of Mme. Paquin's peculiarities to always wear a new kind of collar. She wired a piece of lace and attached it to the back of her gown and called it Medici; she has now taken an oblong piece of black velvet, about four inches long, wired it, lined it with chiffon, attached it to the back of a blue brocade silk gown—and behold! a ne wfashion.

This is the kind of collar that delights the majority of women because it frames the face in an agreeable way and hides the back of the neck in a graceful manner. If one does not care for the heaviness of velvet in summer the idea may be carried out in net or chiffon. It is placed on a slightly low, rounded neck line which gives it a decidedly backward spring, and this, mind you, is what makes it becoming.

The high pleated collar of lace or net placed at the back has not had a large following because it gives one the appearance of pitching the head forward; the trouble lies in its being mounted on a high, tight neckband and not cut to flare at the upper edge.

The narrow upstanding pleated frill is all very well at the back of the neck, but as soon as it is made over an inch wide it should flare far away from the neck and be set below the normal base, so that it will dip down and out.

By the way, one of the attractive little fashions of the day is to baste an inch wide pleating of net or lace at the back of a turnover collar. This is quite a new touch and is already very popular. It gives the new line at the back of the neck at small expense and by an easy method.

Guimpes of White Net.

The shops deserve immense credit for their remarkable offerings in novel neckwear this spring. All that women can wish is there for the asking. The prices are more or less moderate, but many women would prefer to pay a little more than it would cost to make the pieces at home in order to be spared the trouble, for a well-fitting guimpe is no slight task to achieve.

The popular Robispierre collar of white crepe de chine that was worn all winter has its prototype in white net, which is worn with white blouses as well as dark one-piece frocks. The new idea is not to make the collar come farther than the front of the shoulder line and the open V is outlined with knife-pleated ruffles, which run to the bust.

All these guimpes are put on elastic bands at the waist line to keep them from riding up at the shoulders, and they are often used as substitutes for blouses when the coat is not removed, which is a sensible summer idea.

Sixty Montessori Teachers for America

May 15 marked the end of an educational course of great importance to America. For four months more than sixty Americans in a total class of eighty-five have studied with Dr. Montessori and have *observed the workings* of the Montessori schools in Rome. So many letters have come from these teachers to their friends in America and to the Montessori American committee, that it can be stated that the class is enthusiastic over the work that has been done. Dr. Montessori has been an "inspiration" in the best sense of the word. Members of the class cannot restrict their words of praise to ordinary superlatives. The class, too, is returning full of enthusiasm for the educational method they have been studying. Many of them are trained educators accustomed to discriminate. Yet the consensus of opinion is that the Montessori method can do wonderful things for American children.

Many teachers will return immediately to the United States. Some will have summer classes, but all expect to conduct Montessori classes beginning in the autumn.

Mrs. Gilmore's Bridge Tea

Mrs. John Gilmore was hostess at an informal bridge party Thursday afternoon at the Piedmont Driving club, in compliment to Mrs. C. S. Wood, of New York, who is the guest of Mrs. Augustus Wilkerson, at her apartment in the Virginian.

At the close of the game the bridge players were joined by a few friends for tea at 5 o'clock, the guests of the occasion including twenty friends.

Birthday Party

Miss Elizabeth Owens will entertain on Saturday afternoon at the home of her parents, Mr. and Mrs. William D. Owens, in Druid Hills, the occasion being in celebration of her birthday.

Sixty guests will be invited.

The Business Man AND THE Baltimore Convention

The wonderful strides made by American business men during the past few years are without a parallel in industrial and commercial history. Not only has business become more thoroughly systematized, more efficient and more productive—it *has invaded new fields,* conquered obstacles which were heretofore considered insurmountable and given to the word "Business" a new, wider and more lofty significance. In these notable achievements all American business *men have* shared—from the small country merchant to the great captain of industry.

Advertising is one of the principal tools used in this extension and elevation of American business, and both the men who have *made* and *used* advertising in its highest and most efficient forms are enrolled in the membership of the Associated Advertising Clubs of America. This organization, composed of 135 clubs of the United States and Canada, will hold its ninth annual convention in the city of Baltimore, from June 8 to 13.

At this convention the most successful business men in the country will deliver inspiration, educational addresses on all topics relating to publicity and salesmanship. Lay sermons on advertising will be delivered by prominent men in the pulpits of Baltimore. Open meetings will discuss various phases of advertising and business building along specialized lines. It will be a big week, full of *solid information* and helpful, practical demonstration of the way great modern businesses are built.

Incidentally, the evenings will be devoted to a series of entertainments prepared by the people of Baltimore on unique and generous lines.

Visit this convention or send your advertising or sales manager. It is not necessary to be an advertising club member—all business men will be made welcome. Write for full programme of convention, information as to transportation, hotel accommodation, etc., to

HER PUNISHMENT VERY SEVERE

Mrs. Chappell Says That Her Punishment for Five Years Was More than Anyone Could Ever Tell

Mt. Airy, N. C.—In a letter from this place, Mrs. Sarah M. Chappell says: "I suffered for about 5 years with womanly trouble, also stomach trouble, and my punishment was more than any one could ever tell.

Several doctors had treated me, and I had tried most every kind of medicine I could think of, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Are you a woman? Do you suffer from any of the ailments due to womanly trouble, such as sleeplessness, nervousness, weakness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. You have everything to gain, if it helps you, and we feel confident it will help you, just as it has more than a million other women, in the past half century.

Begin taking Cardui today.

Star Golfers Meet Thursday In Hot Match

Southern Tournament Rapidly Nearing Finals—Some of the Favorites Showed Up Worse Than Expected

MONTGOMERY, Ala., June 5.—Play in the third round of the championship flight in the twelfth annual tournament of the Southern Golf association began at 8 o'clock this morning, the first pair driving from tee No. 1, being R. G. Bush, of New Orleans, and C. G. Younger, of Dallas. Fourteen other players who remained in the flight during Wednesday, left the first tee five minutes apart in the following order:

Watkins, Chattanooga, and J. P. Edrington, Memphis; L. Jacoby, Dallas, and J. A. Selden, Macon; Ellis Knowles, Pensacola, and W. N. Whitney, New Orleans; J. C. McAfee, Macon, and W. Nash Read, Montgomery; G. N. Aldredge, Dallas, and A. C. Ulmer, Jacksonville; H. Tutwiler, Birmingham, and L. W. Read, Augusta; C. W. Jones, Macon, and John M. Brame, Montgomery.

Much interest in the match between Ellis Nowles and Whitney was shown during the early morning.

The cities which still have players in the championship flight are: New Orleans, Memphis, Macon, Chattanooga, Dallas, Pensacola, Montgomery, Jacksonville, Birmingham and Augusta.

Wednesday's play which brought out several sensational features, brought the tournament of the Southern Golf association down to the stage of the various flights, play in which began at 8 o'clock Thursday morning. Only two local men remain in the championship flight. The greatest game of the day was that of *Seldon, Macon,* and Ward Birmingham, the former coming from behind, tying his opponent at the eighteenth hole and winning out on the nineteenth. Jacoby disappointed a big gallery by losing his first hole to Tyson, but showed excellent form thereafter, winning easily. Steinmahl, Birmingham's sensational young player, winner of the invitation tournament at Birmingham, lost his match to Stahlman, of Nashville. Ellis Knowles, of Pensacola, returned to form during the day and the greatest interest Thursday's attached to his match with former Champion Nelson Whitney, of New Orleans.

The play for Thursday in the respective flights will be as follows:

First round, championship flight: R. G. Bush and C. H. Munger; Watkins and Edrington; Jacoby and Selden; Knowles and Whitney; McAfee and Read; Aldredge and Ulmer; Tutwiler and Head; C. W. Jones and Brame.

Second flight: Fall and Hardy; Cullom and Selden; L. E. Munger and Steinmahl; Condon and Gowen; Taylor and Brooks; Fooshs and Carroll; Corwin and Blanton.

Third flight: Block and Wright; Adair and Probosco; Tyson and Jarnigan; Watson and Stahlman; Johnson and Seibold; Wood and Hall; Mayer, Daley and Bagwell; Kirkland and Cobb.

Fourth flight: Baugh and Kirkpatrick; Clark and Post; McNeel and Peed; Harnett and Roberts; S. J. Munger and *Nicholson; Weaver and Petris; Sullivan* and England; J. B. Bush and Gelpi.

Fifth flight: McCallie and Edgar; Richards and Johnson; Nagee and H. E. Seibler; Crawford and Rhea; Gunter and Cowden; Gardner and Bowden; Tyson and Henderson, Rainwater and Spratt.

Sixth flight: A. B. Nowell and Griffith; Gunter and Munager; Hasland and Munson; Thomas and Watts; Reed and Stewart; Joseph and R. P. Jones; J. G. Gunter and E. M. Tutwilder; Hogan and Mallory.

French Government To Control Athletics

PARIS, June 5.—The development of sport and athletics may shortly be taken under the direct supervision of the French government, the idea being that physical training of the rising generation is quite as important to the nation as art or railways and that it is in accord with the new spirit of progress in France.

The French cabinet has under consideration the advisability of asking parliament to create an under secretary of state who shall be attached to the ministry of labor and whose duties will be solely to look after sporting affairs.

ATLANTA GOLFERS LOSERS IN FIRST FLIGHT MATCHES

MONTGOMERY, Ala., June 5.—Every Atlanta player in the twelfth annual tournament of the Southern Golf association was eliminated from the championship flight during play Wednesday, leaving only the hope of winning secondary contests during the balance of the week.

R. G. Blanton was defeated by J. M. Brame, Montgomery, 8-6; W. H. Rowan by W. N. Read, Montgomery, 2 up; H. Block by R. G. Bush, New Orleans, 1 up in nineteen holes; C. E. Corwin by C. W. Jones, Macon, 6-5; G. W. Adair by Watkins, Chattanooga, 2-1; W. R. Tichenor by J. A. Selden, Macon, 1 up. Blanton lost in the second round of play, Rowan in the second, Block in the first, Corwin in the second, Adair in the first, and Tichenor in the second.

Out of three Atlanta players who qualified in the second division only one won his match. C. V. Railwater defeated T. P. Hazan, Chattanooga, 8-7 after first round. D. E. Root was defeated by W. A. Gunter, Jr., Montgomery, 4-2, and R. P. Jones lost to W. Bowden, New Orleans, 6-5.

Block and Adair, defeated in the first round of the second division, entered the third flight Wednesday afternoon, Block winning from R. H. Basch, of Birmingham, 5-4, and Adair defeating Sheffield Clark, Nashville, 2-1.

Blanton, Rowan, Corwin and Tichenor will be in the second flight of the championship division Thursday. This flight will be composed of the sixteen players defeated in the first round of the championship flight Wednesday.

Players in the championship flight Thursday morning are:

R. G. Bush, New Orleans; C. H. Munger, Dallas, Tex.; Watkins, Chattanooga; J. P. Edington, Memphis; L. Jacoby, Dallas; J. A. Selden, Macon; Ellis Knowles, Pensacola; W. N. Whitney, New Orleans; J. C. McAfee, Macon; W. N. Read, Montgomery; G. N. Aldredge, Dallas; A. C. Ulmer, Jacksonville; H. Tutwiler, Birmingham; L. W. Read, Augusta, C. W. Jones, Macon; J. M. Brame, Montgomery.

Atlanta Tied By Billikens

Atlanta just could not hit in the pinches, the seven hard raps counting for but two runs, and Montgomery tied Wednesday's "Grocers' day" game, 2 and 2, the rain spoiling it all with the start of the last half of the eighth. Montgomery managed to shove over the run which tied it up just an even round before the rain butted in.

Elliott Dent and Charley Case were the dingers who did the box duty and both got away fairly well. Fast fielding aided in holding down the count. One of Atlanta's runs resulted from two errors and a hit, and the other was the direct result of a wild pitch and one of the famous Cincinnati hits.

In the absence of a regular league umpire, Players Bagby and Rose handled the game and did good work. Second Baseman Wares, of the Montgomery club, was inclined to put in a kick every few minutes, but none amounted to anything, the umps being right in each instance. The kicking only tended to consume time, all of which was intended.

Third Sacker Manning got away to a bad start by making a couple of bad errors in the first round, but he came right back with a stellar pick-up and throw of Dent's easy roller in the second stanza.

The first Cincinnati hit of the season at Ponce de Leon came in the fourth inning. Chapman hit to second base and on the throw to the plate to catch Bisland he slid around the catcher and was safe, while Chapman landed safely at first. Though Chap would have been an easy out had the ball been fielded to first, he gets a bingle, according to the latest baseball law.

Wallace Smith pulled the finest fielding play of the game when he put his bare hand into the dirt and caught Walker's line drive. It looked at first as if it would roll for three sacks, but Wally's mitt was on the job. It was one of the "down the line" raps.

Harry Bailey hit one of the soundest raps of the game when he drove one to right on a line. Luckily it bounded right into Sloan's mitt and went for only a single. Had the ball been high in the air it would have cleared the skinboards.

Bisland and Agler hit two hard taps *in the sixth which were most cleverly* handled. Manning captured Bisland's hard roller in time for an out at first and Knaupp fielded Agler's tap most sensationally.

Outfielder Walker rapped against one of Pitcher Dent's curves most rudely in the opening inning. He was the first batter to step into the box and he celebrated by slamming one over Tommy Long's head for the circuit.

Final Golf Matches

GLEN COVE, L. I., June 5.—Semi-finals for the women's metropolitan golf championship were played today at the Nassau Country club. The first of the two matches was between Miss Georgianna M. Bishop, of Brooklawn and Mrs. A. S. Brossin, of the Century Country club. In the other Miss Marion Hollins, of Westbrook, met Mrs. Howard F. Whitney, of the home club.

Atlanta and Chattanooga will do battle at Ponce de Leon this afternoon. This will be the first game of a three-game series and there will be some real first-class ball during these games. The Crackers have played the Lookouts six games, three in Chattanooga and three in Atlanta, and have taken all six of them, but that is no sign that they will do it this time, as Kid Elberfeld has got a good team now and for the past few weeks has been going as good as any team in the league, and that is saying lots.

The Lookouts will come to the city with blood in their eyes, and are intent on making the fur fly from the Atlanta aggregation. They are tired of having it rubbed in by the Crackers and have been bolstering up every department in order to put the Crackers through a grilling series. It would not be a surprise if the Lookouts took all three games from the local team and if the Crackers let up the least bit, that is the trick that the Chattanooga boys will do. They are here for business and they don't mind telling you that there will be nothing doing when the umpire says get to it.

Sommers will do the twirling for the Lookouts and it is said that this big boy has hit his stride and is really *going good. If such is the case, there* will be some trouble in this afternoon, for Paul Musser will be on the mound for the locals and he has got all the steam in the world. In fact, he is just like a Big Jack standing on the side track, he is raring to go. Street will do the receiving for the Lookouts, while Joe Dunn will catch the slants for the Crackers. The game will begin promptly at 3:45, and indications are now that the weather will be ideal for the battle.

ERRORS AND HITS THAT WON GAMES

Cincinnati has at last gotten out of the cellar. That is they are most out of the lower regions. By defeating Brooklyn yesterday by the score of 4 to 3 they went into seventh place. This is the first time since April 17 that the Ohio boys have climbed down from cellar job. The Reds hit the ball pretty freely, getting ten for the afternoon's total, while Brooklyn's aggregation could connect for only four.

St. Louis took the wind out of the Giants' winning sails in their game on Wednesday, the Missouri team defeating the New Yorkers by the score of 6 to 4. The Cardinals were batting freely and timely, getting eleven hits off of Big Six. No one got over two hits apiece, but most all players on both sides hit the ball for a pair. This is the first time that the Giants have lost in several days, and the rooter or walk-in of them were on a good way to set a new record for consistent winning, but St. Louis put the blocks to them in short order.

Again Frank Chance and his noble Warriors had to call time to the Cleveland team, by the count of 9 to 5. Jackson was the star of the game, the ball over the right field fence, been seen on the local grounds, driving the ball over the right fiel dfence. Cree, for New York, got three hits out of four times at the rubber. It is predicted that the Highlanders are going to win in a short while. Here's to them, and may they make it a walkaway.

Base running and bunched hits enabled Chicago to shut out Boston in Wednesday's game. The final score was 5 to 0 in favor of Chicago. Overall was a pitcher's battle, both he and their side at his mercy all of the time. Zimmerman was there with the batting stuff, by getting three hits out of four times up. Evers, Schute, Saiers and Bridwell also batted well, getting two hits apiece.

The Chicago Americans also worl from Boston yesterday in that same sort of Lochinvar way. They started something and then finished it. They were there all the way through and finally took three times out of four times at the were put in by the Beaneaters in an effort to check the awful onslaught of the Illinois boys. Schalk, catching for Chicago, hit the ball to safe territory three times out of foru times at the plate, he scoring an off day, by batting at bat three times and not getting even a single.

Five singles, a double and a triple netted the Senators five runs yesterday and helped them defeat the St. Louis Americans by the score of 6 to 2. Wallman, who was the unfortunate, evidently went to sleep and forgot that he was pitching baseball. The Washington team turned the game into a track meet when they made him look like the official scorer instead of the pitcher. Schaefer and Milan both took two hits apiece out of four times up.

Vols Claiming Forfeit Game

The Nashville club appeared at the Nashville grounds on Wednesday and in the absence of the Atlanta club the umpires forfeited the game to the Vols. This was the second forfeit of the series, Atlanta claiming Monday's game by forfeit and returning to Atlanta for a postponed game with hthe Montgomery club, which was sanctioned by President Kavanaugh.

All Is Ready For Records At Speedway

Track Not Finished but Racers Manage to Grab Off as Good as 85 Miles Per Hour In Trial Spins

The Atlanta motordrome track has finished yet. But it is so nearly completed that five machines traveling eighty-five miles an hour or better were on it at one time Wednesday, and there was not even a spill.

The last work on the track will be done today. The painters have finished, and there is not much more to be done beyond yanking off the "series timber" near the top and picking up the nails.

That it is "some track" is the verdict.

Marty Graves and Georges Reed, two of the greatest board track racers of the world, who are here for the meet, went to Jack Prince Wednesday and told him this: "Jack, you have the greatest four-lap track in the world. It is absolutely right."

A telegram was received from the Excelsior factory Wednesday that six new racing machines, the newest and *fastest products* of that plant, had been shipped to Atlanta for racing purposes. That means that half a dozen or more Indians, two Jeffersons, several Excelsiors, not to mention "Jock" McNeil's famous J. A. P., will be available for the riders, while, when novice races are put on, a Thor is likely to be entered.

Work on the electric wiring has been completed. The lights are arranged on two circuits, alternate lights being on *a different circuit, so that* in case anything should go wrong with one circuit the other would be in running order and there would be no danger of leaving the riders in total darkness, as has happened on other tracks.

Ed Harmour, the rider of the Jefferson machine, but who went to the track Thursday. He has been at Jefferson, Wis., at the Jefferson factory, tuning up his machines, and will have them here in perfect running order for opening night.

Coming Bout Worth Notice

That the Atlanta militia companies which are backing the coming Flynn-Savage boxing bout at the auditorium armory have matched the greatest card in Atlanta's Queensberry history is indicated by the astonishing rush that demands are already being made for reservations at the ringside—and this in spite of the fact that the big festivities are set for June 13, a week from Friday night.

Wednesday several requests for seats came in, mostly out-of-town enthusiasts, some by telephone and others by letter. When seats actually go on sale there will unquestionably be an unprecedented rush for accommodations.

This state of affairs is not surprising, considering that Flynn is the idol of the heavy division now, that Savage is clever and has boxed wonderfully well here, and especially because of the well-known predilection of the Queensberry fans in this part of the world for heavyweight contests.

Jim Flynn is just naturally the best in the bunch, now. With two possible exceptions, he is calculated to be the champion by the 1913 crop of heavyweights. One of the exceptions is Savage. By eliminating one of these the Auditorium-armory fight will be possible to shed a good bit of light into the darkness of the heavyweight situation, which has been somewhat relieved of late by the removal of the darkest object in the bunch, J. Johnson, colored.

Flynn and Savage will both be here early next week to finish their training for the bout.

COBB'S WORK

This average thing is a funny thing. If you get two hits you get two points. If you get one hit you lose eight points. At least that is the way with the fellows who are hitting the pill around the .400 fark rather than the .350 mark. Ty Cobb raised his average 8 points Wednesday by getting two hits out of four times up. This is better than one hit in four times at bat, but with him and he gets four out of four up, then will the old average take a leap and away up to the .450 mark.

George Stovall has come to the front with one of those statements of his and has said that Ty Cobb and Joe Jackson are battling for the batting honors of the big circuits, but that though Cobb is leading, Jackson is not far behind. He lays his claim on the fact that Cobb is speedier than Jackson, and therefore beats out hits that would be outs for Jackson. Such is the game and so much better it's said, cannot hit the ball out of the lot, but can run like the wind. Stovall in no way throws no slur on the Georgia Peach, but merely states that Mr. and Mrs. Lucky have adopted the wonder as their child. "But Caesar said, 'Tis not to the stars, but in ourselves, that we are underlings,'" said Ed Caesar was the way when it came to giving out dope. He may never have figured a batting average, though he did play in the Texas League, but he knows that if you didn't have something behind you there was nothing to it but a .150 average. Cobb's figures for the season are:

Football Schedule Announced

NEW YORK, June 5.—Fordham university announces its football schedule, including as its best college game, one with Princeton university at Princeton, on October 4. The only other game off the home field will be the Holy Cross, at Worcester, October 18. The other games are with St. Peters college, September 27; Rensselaer Polytechnic institute, October 11; St. Joseph's college, October 18; University of Vermont, October 25; Villanova, November 4; Boston college, November 8.

Rivers-Ritchie Bout Unlikely

SAN FRANCISCO, June 5.—Unless unexpected concessions are made by one side or the other today the twenty-round boxing contest between lightweight Champion Willie Ritchie and Joe Rivers, scheduled for July 4, is off and another fighter will be selected to oppose Ritchie. The managers of the two men cannot agree on the weight. *Rivers insisting upon 133 pounds ringside* and Ritchie holding out for 134 pounds at 9 o'clock i nthe morning. Ad Wolgast, Freddie Welsh and Leach Cross have telegraphed requests that they be substituted for Rivers, and unless the Los Angeles boy yields on the weight question today it is likely that one of the trio will be given the match.

Awards:

Buck Taylor to Charleston, S. C.

Claims disallowed:

Herr Adams, Clarksdale, Miss.; Sheffield against Dallas, Tex.; Williams against Columbus, Miss.; Mechan against Maysville.

CONZELMAN IS HERE

Pitcher Conzelman, recently purchased from the Pittsburg Nationals, reported to Manager Smith Wednesday and was at the park working out. It is likely that he will soon get a chance on the slab. Conzelman is a collegian, having starred on the slab at Brown, and it is expected he will develop into a mighty good man.

TODAY

NASHVILLE, Tenn., June 5.—Birmingham opened a three-game series here this afternoon. It is planned by the local management to shift one of the games to Sunday. In the game today Williams will pitch for Nashville and Gibson catch. For Birmingham Foxen will probably pitch and Mayer catch. The weather is fair.

MONTGOMERY, Ala., June 5.—The only information that could be obtained from the camp o fthe New Orleans team early today was that Weaver team pitched with a likelihood also of Swindell or McIntyre going on the rubber for the visitors in the last game of the series with Montgomery this afternoon. Adams will probably catch. Manager Frank is not eager to give out his batteries.

The Montgomery team reached here at noon from Atlanta. E. Brown is due to pitch with Donahue catching.

Weather hot and clear.

Englishmen Win

HEMPSTEAD, N. Y., June 5.—By the score of 13 to 4 the English International Polo team defeated a strong picked team yesterday afternoon at Meadow Brook, where the matches for the International honors will be contested next week. Luck favored the British, but it was their dashing work that won for them.

Today the American team, with Devereaux Milburn, who received a bad fall last Saturday, will play a match with a picked team.

THE YANKEE LULLABY.

"Rock me to sleep, mother, rock me to sleep;"
Murmur some melody softly and low;
Into the vista of dreams let me creep
Just as I did in the gray long ago.
There I may dream of the Sox on the chutes,
Merrily skidding each battle they play;
Dance with the Mackian busher recruits
With the uncharted Yanks in the front of the fray

"Rock me to sleep, mother," pity your son;
Spring some old lullaby that I once knew;
Don't let me wake if it calls for a gun;
Chloroform me if I start coming to;
Feed me the opium, slip me the gas,
Shoot in the hop—that's a dear—by the pound,
And if an overdose happens to pass.
Nix on a doctor to bring me around;
Let me dream on—though it's under the ground.

Then there's the case of Joseph Wood, who still has a chance to tie last season's gaudy record by winning a matter of thirty straight.

F. CHANCE WANTS TO KNOW—

The game, some one has said, doesn't consist in holding a good hand, but in playing a poor hand well.

But when one sits in with a brace of deuces against three kings, just what is the next logical move when the gentleman attached to the three kings makes his bet? Just what system should one employ to keep the deuces intact at the expense of the kings?

Out of twelve games played this season between Phillies and Giants neither has won a game upon the other's ground. There should be some angle of the dope to explain this merry coincidence, but for the moment we don't seem to recall just what it is.

A MATTER OF CONTRACTS.

When a ball player signs a contract for any given term of service, that contract should be as binding upon the club as it is upon the ball player. Under existing conditions a club can crack a contract at will where the player is bound to a finish—and reserved further on. There isn't any argument over a proposition of this kind. The player can't break his contract and stick in the game; on the came grounds no magnate should be permitted to break any contract with a player. This is one point of the game which the player should fight for.

It will be a winning fight and a battle in the right direction.

We have known several cases where ball players were signed for two or three years and then in a few months sent back to the minors at a big cut. Which is ground enough to furnish the Ball Players' union sufficient space for the first needed reform.

IN THE WAKE OF TROUBLE.

The Red Sox slump or cave-in has started the same old cry that luck carried the club through last season and that it never was a championship team.

The facts being, wherever the Red Sox pull up this season, that Stahl's club won in 1912 because it played better ball through 154 games than any rival in sight. The fact that the club isn't winning this season shouldn't remove any credit for the fine work that it furnished last year. In the Big Series the Sox looked to be a regular ball club. Yet from June to mid-September the red-hosed legion won twenty-three consecutive series—a stunt that isn't achieved by any touch of second-rate play. If the team was fighting above its speed then all the greater credit is due.

The White Sox of 1906 are tipped by many as the worst ball club that ever won a pennant. Which is merely the greatest boost that the club could draw. Any fine ball club might win a pennant, but it takes nothing short of a set of heroes to win where they are outclassed.

Life for Bombardier Wells is merely one knockout after another—with the other guy on the succulent end of the punch. As bad as the American White Hope crop happens to be, it is championship stuff in comparison with the foreign contingent. Their jawbones at least are not composed exclusively of glass and putty, if the rest of it is cheese in its most virulent form. Even a Pelky or a Smith looks to be there against a Wells or a Carpenter.

Changes Made In Polo Team

Said That Friction Has Caused Older Players to Leave the Club

NEW YORK, June 5.—Substitution, as announced late yesterday, of an almost entirely new quartet of polo players for the defense of the international cup next week, is apparently satisfactory both to the discarded players and to the enthusiasts who follow the game. The shakeup, radical as it was, seemed to have no effect on the picking of favorites or in the odds reported as 10 to 7 on the Englishmen. It was said that the removal of three of the old cup winners and defenders was not due to friction, but to the suggestion of the removed players themselves.

The substitution of Foxhall Keene, as captain, for Harry Payne Whitney was made, it is said, at Whitney's own insistence, because he regarded himself in poor health and out of form. He has been the victim of several attacks of indigestion, and two weeks ago he advised the polo committee of his condition.

Projection of the old rivalry between the Whitney and Keene families in Wall street and on the turf is also said to be disproven by Whitney's suggestion that Keene take his place. Further evidence of the retired captain's approval of the changes is his promise to lend to the cup defenders his fine string of mounts.

The Waterbury brothers also agreed that they were not in their best form this year, and the assignment of L. E. Stoddard and Malcolm Stevenson in their places was made without offense to them.

Grocers and Butchers Meet Tonight

As a result of the grocers and butchers' Wednesday half holiday and parade on Wednesday, there was a meeting held at the College Co-Op company Wednesday night at 8 o'clock for the purpose of organizing a Grocers and Butchers' league. Representatives were present from the L. W. Rogers Grocery company, Stewart D. Jones, Kamper Grocery company, Grant Park Elks and The Atlanta Journal teams, and quite an enthusiastic meeting was held.

Another meeting will be held this (Thursday) evening at the College Co-Op company at 8 o'clock sharp, at which time it is hoped to have representatives from the Produce men, Harry L. Schlesinger company and the dry goods men present.

It is hoped to start the season on June 18, playing twelve or fourteen games.

NO USE FOR HIS CATCHER

Connie Mack, who takes great pride in developing young pitchers and then prophesying how they will show up in action, sent in one of his finds in an exhibition game not long ago. The slaughter of the young slab artist was pitiful to behold. At the end of the second inning Connie was somewhat peeved.

"What's the matter with you, son?" he asked the terrified youngster, as kindly as he could—which was not remarkably kindly.

"I—I don't seem to be able to get the ball over the plate," said the pitcher, sadly.

"You're mighty right you can't get it over the plate," observed Mack, his peeved condition much aggravated. "And I'll tell you why. Every time you start it over they knock it back at you."—The Popular Magazine.

ITHACA, N. Y., June 5.—John Paul Jones, Cornell's great runner, and holder of the world's amateur record for the mile run, never will run again, he announced today. He has run during his undergraduate days for the glory of his university and will never enter the game professionally.

JACK KERNAN GOING GREAT

A few flowers for Mr. Kernan, the third baseman of the visitors. He had a few chances yesterday—five in all—and they were of the terrifying variety, yet nary a wobble.

Whatever may be said of Mathews, or however he got his club together, he has done wonderful work in short time and his team is going to win many ball games. He is handicapped with a late start, and his pennant chances are practically nil, but he is going to be all-fired worrisome to the fellow around the top. Seriously, though, we have criticised Newport News, it was when the Shipbuilders had no ball players, but now, with all new faces and all regular ball players, they can no longer be regarded as a joke. It was a joke club, yes, most positively, but somebody has turned loose some money in the ship center, and money buys almost anything, so they do say.

Sandy Piez would be a valuable bit of property at the draft price right now. Never in five years' association has the Virginia league has a better looking bit of baseball timber been unearthed. He is fast, covers every bit of ground for an acre, has an arm guided by a good pair of eyes, and can hit. Plus all this, he runs the bases with rare judgment and constantly keeps the defensive fielders in the hole. If such a combination doesn't make him a valuable bit of baseball property, they'll have to slip over some new varieties.—Richmond Times-Dispatch.

MAYER SURE OF HIS JOB

The twirling of Erskine Mayer, who went to the mound in the fifth inning of yesterday afternoon's game and stopped the New York sluggers, was well worth seeing. Mayer was applauded every time he finished an inning. He had the Giants guessing on every ball that he twirled. Only twice in the last three innings could the New Yorkers get the ball out of the infield and each of the men who singled had two strikes called before he hit safely.

"Mayer," said Dooin, "showed me more stuff in this game than any twirler has done this season. It was simply remarkable for a youngster to stand out there before 40,000 people and pitch the way that Mayer did."

From Dooin's remarks it is likely that Mayer will soon get a regular turn on the rubber.—Philadelphia exchange.

POULTRY, PIGEONS AND LIVE STOCK

Fall Irish Potatoes

THE planting of the fall crop of Irish potatoes is of far more importance than the spring crop for many reasons; in the first place, usually the farmer has more time to prepare, and plant and work this crop during the months of July, August and September, than he has for the spring crop. Usually it is more convenient to have a suitable place where grain has been harvested, or some other rich spot that has not been planted that would be suitable for the growing of these potatoes.

They require much less work than the spring crop, and can be harvested in the early part of November and will keep perfectly until the following July, which is the proper time to plant again. This cannot be said of the spring potatoes, and if more people would raise fall potatoes, they would be used much more freely and largely by the average family, as it would be much more saving for them to keep them, and they would come in when the average family would not have other vegetables to take their place, and if for no other reason than to avoid being bothered with bugs this crop should be planted.

During the cool nights of September and October the weather is not favorable to the propagation of potato bugs, therefore you are never bothered with these pests. In nine cases out of ten, the yield is larger than from the spring crop, and a sounder, better keeping potato is always produced; as a rule for seed purposes where they have been properly kept you can always get $3.00 per bushel for seed purposes.

It is impossible to always secure a perfect stand from spring grown seed as they do not have time to dry out and sprout, ready for planting in July, therefore, there is always a demand for fall grown potatoes for seed. Where they have been properly kept a perfect stand can be secured, and they usually have more eyes than spring potatoes, therefore two bushels less per acre are required for planting purposes, eight bushels being sufficient per acre.

If you expect to grow a fall crop the land should be thoroughly plowed during the month of June and kept harrowed several times before the time of planting, which should be any time after the 15th of July to the 15th of August. The rows should be laid off three feet apart, with four inch scooter, and two Johnston wings, a deep narrow furrow should be made and a narrow two inch scooter should be run through this furrow to thoroughly mix it with the soil. Then the potatoes are ready to drop. Each piece should be cut with two good eyes and no more should be cut at a time than can be used or planted quickly. A small amount of airslack lime should be sprinkled over the potatoes after being cut, this will heal them and keep from losing their strength by bleeding.

They should be dropped about 10 inches apart with the eyes down, and in the gentle press of the foot the potato should be sunk in the moist dirt, immediately afterwards, they should be covered with two furrows to each row. If planted in this way a perfect stand will be secured as they will unite with the moisture, and germination will start immediately, otherwise, they will not start to germinate until after a heavy rain has settled the ground around the eye.

A weeder or light harrow should be run over the ground twice before they come up, this will help them to germinate quickly and keep up circulation of moisture. At the first plowing after they are up, at least 600 to 1,000 pounds of fertilizer should be put in the furrow around the potatoes, a few days after this they should have one good hoeing, and three plowings with scooter, and scrape or cultivator and with one good hoeing being careful to cultivate shallow or nearly on the level at all times, makes this a very easy crop to produce. After the first heavy frost, the potatoes are ready to dig four or five days later.

Raising a fall crop of potatoes is undoubtedly the cheapest and the most profitable thing that any farmer can possibly plant on his place.

The time has come when more attention than ever is being paid to the time has come when one gets in the habit of growing this particular crop they will continue to grow them. From two to three hundred bushels per acre can easily be made on good land, and no crop can be so easily made, as this, provided, one will be careful about planting as these instructions have outlined.

Try a few this year. You will find it profitable and easy to do.

Yours very truly.

Lowry Rucker

VACANT lots for negro tenements are scarce now in the Fourth ward. The *wise ones know this,* and grab all of it that they can. They know that they can get a 20 per cent revenue out of it for a few years, and as the town encroaches in the northeasterly direction, as the arrow points, the same property becomes semi-central, then so near central that it brings a fabulous price.

WE HAVE a splendid vacant lot upon which seven double tenements can be erected, in this section, that is $16.00 per foot below the market.

SEVEN double negro tenements that bring *14 per cent revenue, right* near Baker and Butler streets, $8,500.

ONE single 3-room negro tenement, rented for $8.50, for $1,000, on easy terms for a small investor.

5 Residence Lots for $1,500, Peeples and Oak Sts.

HERE'S a bully opportunity for contractor, investor or home-site seeker. Five lots as follows: Two 58x146 feet each; one 50x146 feet; one 51x146 feet; all level, beautiful lying lots with sidewalks, water and sewer within two blocks of the bunch for $1,500.00, which is only $300.00 a piece for lots worth twice the money. FOR SALE—REAL ESTATE FOR SALE—REAL ESTATE

FOR SALE AT AUCTION

SIX UP-TO-DATE HOMES

And 19 Ready-to-Build-on Lots

SATURDAY, JUNE 7, 1913

At 3 p. m., on the Premises

THESE are 5 and 6-room houses, with every city convenience and connection, including furnace in several of the houses, *but no gas as yet.* These houses were *built of the best material,* under the personal direction of Colonel I. N. Ragsdale, who could not be induced to build a shoddy house.

These houses are real city homes, located in the social center of the Tenth Ward, and only a step from the best car service in Atlanta.

We urge you to go out and inspect this property. Each house will be plainly placarded, showing cash payment and monthly payments; also the amount of the loan to be assumed.

THESE HOUSES ARE NOW RENTED, and bring in from $18.50 to $30.00 per month. Think of what a help that will be to you, in meeting your payments, should you not be ready to occupy the house.

The houses and lots front on the following streets:

Arlington Avenue, Princess Avenue, and LaRosa Terrace.

Arlington avenue runs off of Lee Street, right at Colonel Ragsdale's handsome home. Princess avenue runs off of Avon (Oakland) avenue, between the Baptist church and Captain E. P. Ryan's fine home, giving the property two approaches, each of which is a prominent street.

THIS SECTION HAS NO OBJECTIONABLE FEATURE

It is logically the place for the people to live who are engaged in business, or who are employed among the many industrial and manufacturing and railroad enterprises around the Terminal Station, Whitehall street, Mitchell street, and Central and West Point railroads, and the adjacent territory. The car service and the way the streets run prove these statements to be true. Think about it, and you'll see it as we do.

THE LOTS ARE READY TO BUILD ON

These are the lots to buy, either for home sites or for speculation, because they are ready to build on. In addition to this, every lot is a beauty, with nice young oak shade trees scattered over them. Also, because their location is excellent. They are only a short distance from the business center of Oakland City. Only two blocks from the City Schools, and near the churches; and the farthest lot is only two blocks from the car line; and, best of all, they are socially in the swim, and

ALL CITY IMPROVEMENTS DOWN AND PAID FOR.

THE TERMS ON THE HOUSES

Will range from $150 to $250 cash, and the payments will range from $22.50 per month to $32.50 per month, with 6 per cent simple interest. Small loan on five of the houses, to be assumed by the purchaser.

THE TERMS ON THE LOTS

are right. Every lot will be sold on terms of $50 cash, and the balance $15 per month, with only 6 per cent simple interest on the deferred payments.

HOW TO GET THERE—Take cars at the corner of Forsyth and Alabama streets, marked "East Point," "Hapeville" or "College Park." Get off at the corner Avon (Oakland) avenue. *You will then be only a step from this property.*

COME AND BE SURE TO BUY—You will never regret it if you do, and you will be sorry if you don't. Get plans from

IN THE REAL ESTATE FIELD

West Peachtree Parcel, North of Simpson Street, Brings $700 a Front Foot—Whitehall Street Property Brings $350 a Front Foot—Fair Street Sale—West and North Side Sales—Executors' Sale—Daily Report's Weekly Comparison

A West Peachtree street sale at exactly $700 a front foot was featured in Thursday's real estate announcements.

Joseph E. McKinley, of Alabama, has sold to Rufus D. and Charles S. King Nos. 36-8 West Peachtree street, just beyond Simpson street, for an aggregate consideration of $24,860.

The property is on the west side of the street, beginning 50 feet north of Simpson street. The lot has a frontage of 49.8 feet and a depth of 132 feet. On it there are two small frame dwellings. The transaction was handled by Charles E. Hoke, of 107 feet.

The papers went to record Wednesday. There was a cash payment of about $5,000 and the balance in notes.

WHITEHALL STREET SALE.

The Empire Trust and Safe Deposit company has sold for G. A. Dunlop to C. L. DeFoor one 22x92 Whitehall street for $8,750, or at the rate of $350 a front foot.

The lot has a frontage of 25 feet with a dwelling on it.

FAIR STREET SALE.

William Bruce Watts has sold to the Lutheran church a parcel adjoining the church on East Fair street, near Capitol avenue, for $8,700, or close to $200 a front foot.

This property begins 150 feet west of Capitol avenue, having a frontage of 44 feet and depth of 107 feet.

WEST SIDE SALE.

Louis Regenstein has sold to George M. Kohn Nos. 310-12-14 Mangum street, at the southwest corner of Mangum and Hill streets, a lot 100x100 with dwellings on it, for $4,250.

THIRTEENTH STREET SALE.

Forrest & George Adair have sold for George Winship, Jr., to Bruce Watts a lot on the north side of Thirteenth street, between Peachtree street and Piedmont avenue, 42x135, for $1,800. Mr. Watts is building a house on the lot.

P. F. SMITH SALE.

Considerable interest is being shown in the sale at the court house on the first Tuesday in July of the real estate of the late P. F. Smith. It will be an executor's sale.

The biggest parcel to be offered is the southeast corner of Peachtree street and Forrest avenue, which has a frontage of 100 feet on Peachtree street and a depth of 251 feet on Forrest avenue, with brick buildings on it.

Other parcels are the home place on Forrest avenue, an apartment house at Pryor and Garnett streets, and a parcel on Ivy street near Baker. The terms of the sale are cash.

APARTMENT PERMIT.

Mrs. Grace Keefer has taken a permit for the erection of a frame apartment house at 757 Piedmont avenue to cost $11,000.

REALTY STATISTICS.

Real estate statistics for the past week, compared with the same period last year, as compiled by the Fulton County Daily Report offer interesting contrasts.

The value of real estate transfers—warranty deeds and bonds for title—fell off from last year. For the past week there was a value of $487,731.80, against $676,702.71 for the same week in 1912.

Mortgages and loans gained. Last week they were $168,948.29, against $120,864.

Mortgage cancellations also gained—a little over 100 per cent—which is a good sign. The past week they were $109,652.70, against $48,215.50 for last year.

Building permits showed a considerable gain. They were $151,858 last week, against $117,620 in 1912.

M'ADOO BEGINS TO CLEAN OUT CUS

He Requests Resignation Fr Officials in Charge of Fris co Customs Service

(By Associated Press.)

WASHINGTON, June 5.—Secretary McAdoo's clean out of Republican customs officials at San Francisco is taken to be the forerunner of other sweeping changes in a reorganization *plan to be worked out one part at a* time.

It was learned today, though treasury officials tried to keep it secret, that at San Francisco Mr. McAdoo had demanded the resignation of Collector of Coollector Stratton, but also those of the naval office, surveyor and appraiser.

MAYOR OF COLUMBUS IS FOR COMMISSION FORM

Advocates Immediate Legislation to Permit Change to New Plan

(Special Dispatch to The Journal.)

COLUMBUS, Ga., June 5.—Mayor Chappell, of Columbus, has declared for commission government, and as a result advocates of this form of municipal rule are of the opinion that they will have easy sailing in their fight to abandon the old mayor-council rule in Columbus.

In a signed statement, issued late yesterday, Mayor Chappell announced his intention to advocate a change to the new plan of government for this city, and suggested three commissioners, one to handle the department of finance and accounting, one to look after public works, and a third to have charge of the public safety department, all to devote their entire time to the job.

He urges that immediate steps be taken by the citizens looking to the procuring of the necessary state legislation, that the new government may be adopted in Columbus at the earliest possible date.

Representative Wohlwender, of Muscogee, like Mayor Chappell, is a new convert to the commission idea. He is out in an interview advocating a general bill to allow all Georgia cities desiring to adopt the commission plan to do so.

MACON WOMAN ENDS LIFE BY JUMPING INTO WELL

Miss Kittie Tyner Stops Clock at 3 in Morning and Then Kills Self

(Special Dispatch to The Journal.)

MACON, Ga., June 5.—Miss Kittie Tyner, of Cross Keys, a suburb on the north side of Macon, committed suicide this morning at 3 o'clock by jumping in a well next door to her home. The discovery of a note in her room this morning, which stated that her body would be found in the well next door, was the first news of her suicide.

The clock in her room stopped exactly at 3 o'clock, which time she stated in her notes to relatives that she went to the well and jumped in. Her body was found submerged in the well. Ill health is said to be responsible for her act.

She was a sister to Ben Tyner, a storekeeper at Cross Keys, and a sister-in-law of Mrs. Kate King, who is now in the county jail, charged with murder of her husband, Jim King.

ACCOUNTING OFFICERS MEET IN CHATTANOOGA

(Special Dispatch to The Journal.)

CHATTANOOGA, Tenn., June 5.—The National Association of Comptrollers and Accounting Officers began its eighth annual convention at the Hotel Patten this morning. It is expected that about 100 officers from every section of the country will be present. The convention will last until Saturday, and much business is before them for disposal.

Probably the most noted speaker of the convention will be Hon. Carter Page Powers, chief state statistician of the United States census bureau. He will speak at the meetings and his address will be along the line of the work of accounting officers.

The first session of the convention was held in the general assembly room of the Hotel Patten this morning. Mayor Thompson and President Mahoney, of the chamber of commerce, welcomed visitors to the city. Other speeches were made by local men and by the visitors.

The response to the address of welcome was delivered by President Whilte, of the association.

ONE POLICEMAN FIRED; ANOTHER SUSPENDED

MACON, Ga., June 5.—Patrolman Tom Middleton, a member of the Macon police force, was arrested near his home last night by Officers Pierce and McLendon on a charge of drunkenness and sent to the city barracks where he remained until this morning. After his release, he was given a suspension of thirty days by Police Chief Champion.

Patrolman W. M. Shinholser was found drunk on his beat in the Macon about 8 o'clock by Lieutenant John Davis. He was relieved of his club and badge and sent home in a hack. This morning the chief released him from the department.

MARION M. JACKSON REPLIES TO SLANDER OF CITY'S MORALS

"I Have Yet to See a City Where Conditions Are as Bad as Painted by Philadelphia Preacher," Says He

Another irresponsible slander upon Atlanta, quoting a Philadelphia preacher as declaring that he was accosted nineteen times in walking along a streets in Atlanta, seems to have attained the limit of absurdity when it is repeated to Atlanta by a responsible news service thirty days after the first news of it was received in the editorial office of a national religious journal.

Marion Jackson, chairman of the Men and Religion Movement of Atlanta, declares that on its face the latest slander *is absurd.*

"I have visited a good many cities," says he, "but I have yet to see one or even to hear of one in which conditions *are as bad as this preacher* would paint them in Atlanta. Nineteen times in one evening is just a little bit too much to be credible. There's not a man in Atlanta who doesn't know that is ridiculous."

Incidentally, it was developed from Mr. Jackson that vice conditions in Atlanta were studied for a month by a corps of Burns detectives before the restricted districts were shut, under the direction of the Men and Religion Forward Movement's executive committee, and that not even the chief of police knew the detectives were at work.

A MONTH-OLD SLANDER.

Mr. Jackson, too, developed that the news dispatch from Philadelphia tells something which was told in almost identically the same form about a month ago.

The news dispatch from Philadelphia quoted one "Rev. S. C. Batten, secretary of the social service committee of the Northern Baptist convention, who has just returned from Atlanta," as telling the ministers of that denomination in Philadelphia at a *meeting* called to discuss the social evil, that Atlanta's streets are filled with disorderly women.

This "Dr. Batten" is quoted as saying further:

"They have solved the problem there of exterminating the restricted district at the expense of polluting the rest of the city. *No one can walk the streets* of the city without being accosted by questionable women who know all the dives.

"*With Dr. Baylis,* I walked down the main street of the city three weeks ago, shortly after dinner one evening, he on one side, I on the other side. I was spoken *to personally by nineteen* women, while my companion was accosted by twenty-one girls, some of them still in their teens. All of these were different women. I can safely say, without fear of contradiction that San Francisco in its worst days was never as bad as this city in its present condition."

THE ORIGINAL YARN.

Marion Jackson was asked about this Wednesday afternoon.

"Some time ago," said he, "W. T. Ellis, who attended the recent Presbyterian *assemblies here and wrote* special articles for The Journal, prepared an illuminating article commending what had been accomplished in Atlanta in the exterminating of the restricted district. His article was published in a very responsible magazine of national circulation.

"Not long afterward about a month ago, Mr. Ellis received a letter of vehement protest from a Rev. Mr. Patterson, secretary of the social service section of the Federated Churches of *Philadelphia. This Mr. Patterson de-*clared that he had attended the sociological congress here and had been accosted nineteen times in two blocks on one street. He challenged Mr. Ellis' assertions, painting conditions here as rotten—amazingly rotten.

"Shortly after that Mr. Ellis and E. H. Best, editor of the Continent, were in Atlanta, attending the assemblies. Accompanied by John J. Eagan and myself, Mr. Best walked the streets of Atlanta one Saturday night, and none of us was accosted once.

MADE TEST ALONE.

"After we had left him at his hotel, he wrote a letter or two and decided to come back to the streets alone. He did so, stayed an hour, and again was not accosted. Next day he told Mr. Eagan and myself that he was thoroughly satisfied that conditions had been misrepresented to him totally. He requested Mr. Eagan and myself to tell Mr. Best's opinion the chief had performed well a difficult task.

"Obviously, this present story from Philadelphia is a rehash of that former matter, the preacher's name being changed slightly.

"Obviously, also, on the face of it, it is a canard."

Immediately after Mr. Jackson's exposition of the matter Wednesday afternoon The Journal telegraphed to the news service in Philadelphia which *had sent to it the story. The Journal* inquired if it is not true that the present story is a rehash of the one now over a month old. A reply was re*quested. None was received.*

NO GRAFT—BUT WORSE.

Mr. Jackson said that the Burns detectives were engaged just before the *restricted districts were broken up by* Chief Beavers, their primary purpose being to discover whether any graft was being paid to members of the police department. Absolutely no graft was found, said he—not even peanut graft.

"And if conditions were so during the days of the restricted district," said Mr. Jackson, "there is ample ground for confidence that they have improved since the restricted districts were abolished."

Mr. Jackson said that the really startling revelations made by the detectives related to another phase of the matter altogether, a phase revealing the activities of panderers and white slave agents in Atlanta.

Conditions in that regard were fearful truly, said he.

The detectives learned that women and girls from the country were being followed from trains; that throughout this city, panderers sought the acquaintance of good women and girls and strove to capture them for white slavery. One mother offered her daughter *for $25 to a detective,* without knowing who he was, said Mr. Jackson.

CHIEF BEAVERS' REPLY.

Chief James L. Beavers *denied the* story as utterly false, Thursday morning, and challenged any one to prove it.

"I have never heard such extreme statements from even my worst enemies or the worst enemies of vice eradication among the roughnecks, much less among ministers of the gospel," said he.

"To any one who can report truthfully such experiences as this Dr. Batten, whoever he is, now alleges, I will give six months of my salary—$1,500.

"*The story is absurd absolutely.*

"I am willing that a committee of unbiased citizens appoint any man to test conditions here. Not one night in a dozen will he be accosted *even once* on the streets of Atlanta.

"Vice is here. Therefore it can not be eliminated completely even from the streets.

"But it is less to be found here than in any other city in the United States."

SALVATION ARMY MAN'S PRAISE.

Praise of present conditions in Atlanta was added to the general comment condemning the Philadelphia preacher's extravagant statements, by Major E. M. Berriman, of that army, Thursday morning.

About five years ago Major Berriman concluded a tour of nearly six years on duty in Atlanta, as headquarters from which he directed its operations in the south.

About three months ago he returned here on vacation, coming from his present station in Indianapolis.

"The army is engaged constantly in work among the class of people to whom the Philadelphia minister refers," said he, Thursday. "I had been interested by the reports from Atlanta that the segregated district had been abolished. I had heard numerous allegations that conditions had become worse here than ever they were before, and I rather expected to find them bad indeed.

"But I have been surprised pleasantly. *I find them very greatly im-*proved over what they used to be. Since I came I have been observing conditions in a systematic and deliberate investigation. I have *appeared on* all the streets, at all hours, without my uniform, with eyes open for just such things as are mentioned now. And not once in three months have I been accosted, not once."

Major Berriman added that the work among this class of citizens in one of the important phases of the army's *activities,* and that two homes for women are now established in the south, and a third is to be opened shortly in New Orleans.

CHIEF WRITES TO PREACHER.

Smarting under what he terms the unjust criticism of the "Rev. S. Lane Batten," Chief of Police Beavers Thursday morning addressed a letter to him, asking if he had been quoted correctly and, if so, to name the street on which he and his brother pastor claim to have been accosted, and the hour of the occurrence.

As he signed the communication the police head said:

"Everybody who lives here knows just how utterly absurd is the accusation, but it will not do to have such stories floating about the country. If a minister actually made the statements attributed to him (and I doubt very much if he did) why, he told a falsehood."

AMERICANS ARE FLEEING FROM TAMPICO, MEXICO

108 Refugees Arrive in Galveston on Board Ship Harry Morse

(By Associated Press.)

GALVESTON, Tex., June 5.—Among 108 refugees who arrived in Galveston last night on board the steamship Harry Morse from Tampico, Mexico, was Charles W. Wright, who was recently attacked by marauders at his home near Tampico and seriously injured while defending his wife and sister. He still shows signs of his injuries.

Although no one was allowed to board the Harry Morse pending quarantine the inspection, it was learned that hundreds of other people are flocking into Tampico in the hope of being able to return in safety to the United States.

Freight and Passenger Trains Run to Tampico

(By Associated Press.)

SAN LUIS POTOSI, Mexico, June 5.—*Freight and passenger traffic between* this city and Tampico has been resumed and the first train in two weeks arrived here today from Tampico. The railroad is well patrolled.

Thousands of barrels of fuel oil are being sent from the interio to Mexico City in order to relieve the shortage there, which is becoming acute.

17TH INFANTRY TO TAKE PART IN RIFLE MATCHES

Two Battalions From Fort McPherson Ordered to Camp Perry, Ohio, in August

Two batallions of the Seventeenth infantry from Fort McPherson have been assigned by the war department to attend the international and national shooting tournament to be held at Camp Perry, Ohio, August 25 to 29 and September 1 to 9 inclusive.

Special orders No. 85 from the de*partment of the east at Governor's Is*land, N. Y., were received Wednesday morning at headquarters of the Second brigade of the First division, naming the Second and Third battalions from McPherson as participants.

It was partially in the interest of this match that Brigadier General Robert K. Evans spent the greater part of the past two months in Washington, for the purpose of making final arrangements for the event of which he was named executive officer by one of the last official acts of President Taft.

The national matches begin on August 25 and continue through August 29. After two days of rest the international tournament begins, running through September 9. In all, twenty-one foreign countries will participate in the matches, both of which offer an aggregate of $30,000 in prizes.

Camp Perry, where the tournament will be held, is located on the shores of Lake Erie in the state of Ohio, midway between the cities of Toledo and Sandusky, and five miles from Port Clinton, the usual railroad stop. During the matches, however, the railroad company will operate trains directly to the range.

The shooting grounds, which contain *400 acres, are the largest in the United* States. There are 210 rifle targets and 15 army revolver targets, to which will be added a new range containing about fifty targets for the international matches where the shooting will be held at 300 meters. Additional revolver targets will be installed, as well as a running deer target and targets sufficient to accommodate the miniature match.

The firing line extends practically the entire length of the *range which* faces north, resulting in a good light on all targets during the day. The targets are in echelon. On the extreme right are the revolver targets, five each, at fifteen, twenty-five, fifty and seventy-five yards. Next come the 200-yard targets, fifty in number. To the left is a bank of fifty targets or more which are used for 600 yards, and still further on are 100 more targets which are used from 800 to 1,200 yards.

The countries at present represented in the union of international and national rifle associations are France, Italy, Spain, *Germany, Austria, Hungary,* Denmark, Holland, Belgium, Sweden, Servit, Greece, Canada, Portugal, Argeina, Switzerland, Great Britain and the United States.

SENATE SENDS MORE SUBPENAS FOR LOBBY

Half of Senate Has Testified to Absence of Lobby but Probe Continues Search

(By Associated Press.)

WASHINGTON, June 5.—Although *more than half the Senate has testified* to the absence of a "numerous and insidious lobby," with designs upon the tariff bill, the senate investigating committee today resumed the search determined that the sergeant-at-arms would issue more subpenas.

Although Chairman Overman would not admit that the committee was receiving aid from the White House, the opinion prevailed about the capitol that the names of some of the men summoned as witnesses have been suggested by President Wilson. Friends of the president are sure that some interesting information will be secured from those summoned.

Senator Goff, as a witness today, said his West Virginia coal property brought him about $25,000 a year in royalties, while his oil properties paid him about *$50,000* a year.

"We sell our oil to subsidiaries of the Standard Oil company; there is no one else to sell to," he said, and added that his property interests might be somewhat affected by the tariff, but he did not expect it. No one had approached him on tariff and that he knew of no lobby influence in Washington.

Senator Gore had no interest affected. Several delegations and individuals had called on him, including F. R. Hathaway and Henry T. Oenard on the sugar tariff.

Senator Sherman said his interest in the tariff was limited to farm products, and only because he made farm loans. He had no professional connection with any one affected.

Naming persons who had called on him about the tariff, he said J. J. Berry, of Chicago, was the only sugar man who came.

"I have seen *none of the sugar lob*by, so-called," he said, "but I have received a great deal of their literature and have preserved every scrap of it."

Chairman Overman at once asked Senator Sherman to furnish the literature to the committee. It will probably furnish the basis for more research into the "sugar lobby" activities.

LABOR LOBBY?

"The only improper influences ever brought to bear on me were by representatives of labor unions," Mr. Sherman added. "They threatened to exterminate me."

He knew of *no organized lobby here.*

Senator Shields said he raised live stock, sheep, grain and Angora goats, all affected by the tariff. He had not *sought to influence any one and* knew of no lobby.

Those who had called on him included Herman D. Rubin, Great Falls; H. D. *Lindsay and Peter Blow,* Knoxville, Tenn., and Lewis M. Parker, Greenville, S. C.

HOKE SMITH'S TESTIMONY.

Senator Hoke Smith, Georgia, thought he was not financially interested in any thing "substantially" affected by the tariff bill, but said he owned some farm lands and city real estate.

He asked Fuller Calloway, a Georgia factory president, to come to Washington and had a conference with him and Lewis M. Parker, of South Carolina. *Mr. Parker's view favoring lower cot-*ton duties were submitted to the finance sub-committee.

Senator Smith gave a long list of callers. He said no one had attempted improperly to influence him on any legislation and he knew of no use of money or any lobbying except as attorneys for others made with the legitimate presentation of arguments.

Subpenas had been served up to noon upon the following witnesses, calling on them to appear before the committee *Sunday:*

George E. Gallind, Charles Hamilton, Washington; former Congressman Charles B. Landis, Indiana; Robert Crain, Baltimore; Truman G. Palmer, Washington, a leading figure in the fight of the beet sugar interests against free sugar, and Frank C. Lowry, New York, who conducted a free sugar fight for the committee of wholesale grocers," and said to be an employe of the Federal Sugar Refining company.

That the senate's lobby investigation has already disclosed that the activity of powerful lobbying interests of a "new character" was the opinion expressed by Chairman Overman, of the committee, after this morning's session.

"We have developed thoroughly the *fact that there is powerful and con-*certed lobbying," he said. "It is not the personal appeal to senators but the newer form of organization activity to *mold public sentiment* and to influence senators by means of public pressure from various sources. It is insidious to the extent that this publicity and organized *campaign often partakes of* misinformation."

Senator Overman's statement was an individual one, but he added that he had some "*decided views on the ques*tion," as to what he would recommend for the committee's report to the senate.

WILSON CONFERS WITH JAPAN'S AMBASSADOR

President Will Lay Latest Jap Note on Land Law Before Cabinet Friday

WASHINGTON, June 5.—President Wilson arranged a conference at 4 p. m. today with Viscount Chinda, ambassador from Japan to discuss the Tokio government's latest note of protest against the California anti-alien land laws. It is the first time that the ambassador has availed himself of his privilege of addressing himself directly to the president of the United States as the personal representative of his sovereign Emperor Yoshihito.

Secretary Bryan was to confer with President Wilson before the ambassador was received, but it was not contemplated that he would be present later. Mr. Bryan will give to the president his views of Japan's rejoinder to the last note of the United States. The rejoinder reiterates that the California law is a discrimination and in contravention of the treaty of 1911, notwithstanding the disclaims o fthe state department.

Japan's latest word in her protest against the California anti-alien land law was handed to President Wilson today waiting to be presented to the cabinet at its regular semi-weekly meeting tomorrow.

It is more than probable that the cabinet will consider the rejoinder only in a *preliminary* way. Secretary Bryan expects to leave the city soon after the meeting, for Pittsburg to attend a banquet to George W. Guthrie, *the newly appointed* ambassador to Japan. Viscount Chinda, Japan's ambassador, also will be a guest at the function but will go on an earlier train.

The next step in the negotiations is a reply to Japan's rejoinder. This is expected to take up the Tokio government's retained contention that the Webb law is in contravention of the treaty of 1911, derogatory to the equal treatment which Japanese expect under international law, and, therefore, a racial discrimination. The whole tone of the Japanese note, inviting further ne*gotiations upon the controverted points,* impressed official Washington more than favorably.

SENATE WILL BACK UP WILSON'S TARIFF STAND

President's Position on Free Materials Grows Stronger as Caucus Day Nears

(By Associated Press.)

WASHINGTON, June 5.—President Wilson's position in support of free wool and free sugar seems to grow stronger as the day of the senate caucus draws nearer.

The tariff bill will be put to the acid test there, and party leaders now feel that the president's stand will be supported almost unanimously by the party with the exception of two or three senators being released from the caucus pledge.

There is an increasing possibility that not more than two Democratic senators will oppose the bill to the end.

Senator after senator on the majority side has signified his intention to abide by the decision of the caucus by testimony before the lobby investigating committee.

Free shoes, free lumber, free agricultural products, free wool and free sugar as provided in the Underwood bill are to stand, the administration leaders declare, and the probability of any amendments to those items on the floor of the senate is lessening.
